OVERVIEW

Under the Workforce Innovation and Opportunity Act (WIOA), the Governor of each State must submit a Unified or Combined State Plan to the Secretary of the U.S. Department of Labor that outlines a four-year strategy for the State's workforce development system. The publicly-funded workforce development system is a national network of Federal, State, regional, and local agencies and organizations that provide a range of employment, education, training, and related services and supports to help all job-seekers secure good jobs while providing businesses with the skilled workers they need to compete in the global economy. States must have approved Unified or Combined State Plans in place to receive funding for core programs. WIOA reforms planning requirements, previously governed by the Workforce Investment Act of 1998 (WIA), to foster better alignment of Federal investments in job training, to integrate service delivery across programs and improve efficiency in service delivery, and to ensure that the workforce system is job-driven and matches employers with skilled individuals. One of WIOA's principal areas of reform is to require States to plan across core programs and include this planning process in the Unified or Combined State Plans. This reform promotes a shared understanding of the workforce needs within each State and fosters development of more comprehensive and integrated approaches, such as career pathways and sector strategies, for addressing the needs of businesses and workers. Successful implementation of many of these approaches called for within WIOA requires robust relationships across programs. WIOA requires States and local areas to enhance coordination and partnerships with local entities and supportive service agencies for strengthened service delivery, including through Unified or Combined State Plans.

Options for Submitting a State Plan

A State has two options for submitting a State Plan— a Unified State Plan or a Combined State Plan. At a minimum, a State must submit a Unified State Plan that meets the requirements described in this document and outlines a four-year strategy for the core programs. The six core programs are—

- the Adult program (Title I of WIOA), o the Dislocated Worker program (Title I), o the Youth program (Title I),
- the Adult Education and Family Literacy Act program (Title II), and
- the Wagner-Peyser Act Employment Service program (authorized under the Wagner-Peyser Act, as amended by title III), o the Vocational Rehabilitation program (authorized under Title I of the Rehabilitation Act of 1973, as amended by Title IV).

Alternatively, a State may submit a Combined State Plan that meets the requirements described in this document and outlines a four-year strategy for WIOA's core programs plus one or more of the Combined State Plan partner programs. When a State includes a Combined State Plan partner program in its Combined State Plan, it need not submit a separate plan or application for that particular program. If included, Combined State Plan partner programs are subject to the "common planning elements" (Sections II-IV of this document) where specified, as well as the program-specific requirements for that program where such planning requirements exist separately for the program. The Combined State Plan partner programs are—

- Career and technical education programs authorized under the Carl D. Perkins Career and Technical Education Act of 2006, as amended by the Strengthening Career and Technical Education for the 21st Century Act (Perkins V) (20 U.S.C. 2301 et seq.)
- Temporary Assistance for Needy Families program (42 U.S.C. 601 et seq.) o Employment and Training programs under the Supplemental Nutrition Assistance Program (programs authorized under section 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4)))

- Work programs authorized under section 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o))
- Trade Adjustment Assistance for Workers programs (Activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.))
- Jobs for Veterans State Grants Program (programs authorized under 38, U.S.C. 4100 et. seq.)
- Unemployment Insurance programs (programs authorized under State unemployment compensation laws in accordance with applicable Federal law)
- Senior Community Service Employment program (programs authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.))
- Employment and training activities carried out by the Department of Housing and Urban Development
- Community Services Block Grant (Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 et seq.))¹

How State Plan Requirements Are Organized.

The major content areas of the Unified or Combined State Plan include strategic and operational planning elements. WIOA separates the strategic and operational elements to facilitate cross-program strategic planning.

- The **Strategic Planning Elements** section includes analyses of the State’s economic conditions, workforce characteristics, and workforce development activities. These analyses drive the required vision and goals for the State’s workforce development system and alignment strategies for workforce development programs to support economic growth.
- The **Operational Planning Elements** section identifies the State’s efforts to support the State’s strategic vision and goals as identified in the Strategic Planning Elements section. This section ensures that the State has the necessary infrastructure, policies, and activities to meet its strategic goals, implement its alignment strategy, and support ongoing program development and coordination. Operational planning elements include:
 - State Strategy Implementation,
 - State Operating Systems and Policies,
 - Assurances,
 - Program-Specific Requirements for the Core Programs, and
 - Program-Specific Requirements for the Combined State Plan partner programs. (These requirements are available in a separate supplemental document, *Supplement to the Workforce Innovation and Opportunity Act (WIOA) Unified and Combined State Plan Requirements*. The Departments are not seeking comments on these particular requirements).

When responding to Unified or Combined State Plan requirements, States must identify specific strategies for coordinating programs and services for target populations.² States must develop strategies that look beyond strategies for the general population and develop approaches that also address the needs of target populations. Use of links to external websites and documents is

¹ States that elect to include employment and training activities carried out under the Community Services Block Grant (CSBG) Act (42 U.S.C. 9901 et seq.) under a Combined State Plan would submit all other required elements of a complete CSBG State Plan directly to the Federal agency that administers the program. Similarly, States that elect to include employment and training activities carried out by the Department of Housing and Urban Development that are included would submit all other required elements of a complete State Plan for those programs directly to the Federal agency that administers the program.

² Target populations include individuals with barriers to employment, as defined in WIOA Sec. 3, as well as veterans, unemployed workers, and youth.

permitted within the State Plan narrative submission, if such links remain active and adhere to Section 508 accessibility requirements.

WIOA STATE PLAN TYPE and EXECUTIVE SUMMARY

(a) **Unified or Combined State Plan.** Select whether the State is submitting a Unified or Combined State Plan. At a minimum, a State must submit a Unified State Plan that covers the six core programs.

- Unified State Plan.** This plan includes the Adult, Dislocated Worker, Youth, Wagner-Peyser Act, Adult Education and Family Literacy Act, and Vocational Rehabilitation programs.
- Combined State Plan.** This plan includes the Adult, Dislocated Worker, Youth, Wagner-Peyser Act, Adult Education and Family Literacy Act, and Vocational Rehabilitation programs, as well as one or more of the optional Combined State Plan partner programs identified below. Indicate which Combined State Plan partner program(s) the State is electing to include in the plan.

- Career and technical education programs authorized under the Carl D. Perkins Career and Technical Education Act of 2006, as amended by the Strengthening Career and
- Technical Education for the 21st Century Act (Perkins V) (20 U.S.C. 2301 et seq.)
- Temporary Assistance for Needy Families program (42 U.S.C. 601 et seq.)
- Employment and Training programs under the Supplemental Nutrition Assistance Program (programs authorized under section 6(d)(4) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(d)(4)))
- Work programs authorized under section 6(o) of the Food and Nutrition Act of 2008 (7 U.S.C. 2015(o))
- Trade Adjustment Assistance for Workers programs (activities authorized under chapter 2 of title II of the Trade Act of 1974 (19 U.S.C. 2271 et seq.))
- Jobs for Veterans State Grants program (programs authorized under 38, U.S.C. 4100 et. seq.)
- Unemployment Insurance programs (programs authorized under State unemployment compensation laws in accordance with applicable Federal law)
- Senior Community Service Employment program (programs authorized under title V of the Older Americans Act of 1965 (42 U.S.C. 3056 et seq.))
- Employment and training activities carried out by the Department of Housing and Urban Development
- Community Services Block Grant (Employment and training activities carried out under the Community Services Block Grant Act (42 U.S.C. 9901 et seq.))
- Reintegration of Ex-Offenders program³ (programs authorized under section 212 of the Second Chance Act of 2007 (42 U.S.C. 17532))

Plan Introduction or Executive Summary. The Unified or Combined State Plan may include an introduction or executive summary. This element is optional.

³ The Reentry Employment Opportunities program (REO), formerly the Reintegration of Ex-Offenders Program (RExO), is referred to by its original name (RExO) in this document. This name change is a recent decision that was not incorporated into WIOA.

I. STRATEGIC ELEMENTS

The Unified or Combined State Plan must include a Strategic Planning Elements section that analyzes the State's current economic environment and identifies the State's overall vision for its workforce development system. The required elements in this section allow the State to develop data-driven goals for preparing an educated and skilled workforce and to identify successful strategies for aligning workforce development programs to support economic growth. Unless otherwise noted, all Strategic Planning Elements apply to Combined State Plan partner programs included in the plan as well as to core programs. Where requirements identify the term "populations", these must include individuals with barriers to employment as defined at WIOA Section 3. This includes displaced homemakers; low-income individuals; Indians, Alaska Natives, and Native Hawaiians; individuals with disabilities, including youth who are individuals with disabilities; older individuals; ex-offenders; homeless individuals, or homeless children and youths; youth who are in or have aged out of the foster care system; individuals who are English language learners, individuals who have low levels of literacy, and individuals facing substantial cultural barriers; farmworkers (as defined at section 167(i) of WIOA and Training and Employment Guidance Letter No. 35-14); individuals within 2 years of exhausting lifetime eligibility under the Temporary Assistance for Needy Families program; single parents (including single pregnant women); and long-term unemployed individuals. Additional populations include veterans, unemployed workers, and youth, and others that the State may identify.

State Strategic Vision and Goals

The State's strategic vision is to align resources, education, training, and job opportunities to build Oklahoma's workforce. Local and regional ownership is essential to the success and sustainment of any workforce initiative. Currently, many communities around the state are working to improve and establish an effective workforce program for their area. Oklahoma would like to design a workforce delivery system structure adequate to developing the quantity and quality of the labor force required to meet the needs of employers currently and in the future. Oklahoma will work toward this vision by coordinating strategic priorities and plans across education, training, and industry to provide employment opportunities for workers. Aligning the Oklahoma Workforce Task Force, the Governor's Council for Workforce and Economic Development, and existing statewide efforts will maximize impact and leverage available resources.

Under the leadership of the Governor and the GCWED, OESC has worked to establish the foundational pieces that align all the initiatives and WIOA efforts at the state and local levels.

Goals

The Governor's Council convened a strategic plan process which included input from the Core Partners (Oklahoma Department of Rehabilitation Services, the Oklahoma Employment Security Commission, and the Oklahoma Department of Career and Technology Education), business and industry members, Local Workforce Development Board members, elected officials, and other state agency partners who are a part of the state's workforce development system (education, commerce health veterans, human services).

Oklahoma's Sector Partnership Initiative

The Oklahoma Employment Security Commission supports the development and growth of sector partnerships in the local Workforce Development Areas by providing funding opportunities for local areas, regional planning areas, and intermediary partner to establish, strengthen, and expand sector partnerships and identify partnerships for career pathways development. The GCWED believes that businesses are best positioned to solve the problems of industry in a collective and collaborative fashion.

Purpose

Designed to align multiple employers from the same industry and in a shared labor market region, who work with education, workforce development, economic development, and community organizations to address the workforce and other competitiveness needs of the targeted industry. An organization with industry expertise, capacity, and credibility among partners is chosen to play a convener role. While employers do not typically convene partnerships, their leadership and engagement are critical for developing strategies that respond to industry's workforce needs.

OESC administers the federal Workforce Innovation and Opportunity Act (WIOA) Adult, Dislocated Worker, and Youth programs. WIOA envisions business driven strategies tailored to meet the needs of regional economies. The law emphasizes the need for partnerships and strategies that align workforce development, education, and economic development programs with regional needs. Sector partnership strategies, or impact partnerships, are among the activities required to meet WIOA objectives.

IPGs and IPG activities support the following WIOA purposes:

1. To improve the quality and labor market relevance of workforce investment, education, and economic development efforts to provide America's workers with the skills and credentials necessary to secure and advance in employment with family-sustaining wages and to provide America's employers with the skilled workers the employers need to succeed in a global economy. (WIOA Sec. 2(3))
2. To increase the prosperity of workers and employers in the United States, the economic growth of communities, regions, and states, and the global competitiveness of the United States. (WIOA Sec. 2(5))
3. For the purposes of subtitle A and B of title I, to provide workforce investment activities, through statewide and local workforce development systems, that increase the employment, retention, and earnings of participants, and increase attainment of recognized postsecondary credentials by participants, and as a result, improve the quality of the workforce, reduce welfare dependency, increase economic self-sufficiency, meet the skill requirements of employers, and enhance the productivity and competitiveness of the nation. (WIOA Sec. 2(6))

Goals

Goals for this work include:

- A. Promote and fill high-demand occupations in the health care, construction, skilled trades, or manufacturing sectors, including any Critical Occupations or relevant jobs along pathways to Critical Occupations.
- B. Building lasting, collaborative relationships between business, education, workforce development, economic development, and government and community organizations.
- C. Better serving employers, job seekers and students, including disadvantaged populations (e.g., veterans, justice involved, long-term unemployed, low-income, homeless, etc.).
- D. Expanding Registered Apprenticeship programs and other work-based learning opportunities such as internships, on-the-job training (OJT), job shadowing, and externships.

- E. Leveraging resources and funding to support the long-term sustainability of industry-driven sector partnerships and strategies for closing workforce gaps.
- F. Increasing education and credential attainment among the state's workforces.
- G. Increasing capacity among local and regional organizations to carry out sector partnerships.
- H. Aligning local, regional, and state priorities, plans, and initiatives to the needs of regional economies.
- I. Understanding workforce demands related to career pathways and work-based learning opportunities.

Authority

Utilizing funds reserved for statewide activities states may, implement innovative programs and strategies designed to meet the needs of all employers (including small employers) in the state, which programs and strategies may include incumbent worker training programs, customized training, sectoral and industry cluster strategies and implementation of industry or sector partnerships, career pathway programs, microenterprise and entrepreneurial training and support programs, utilization of effective business intermediaries, layoff aversion strategies, activities to improve linkages between the one-stop delivery system in the state and all employers (including small employers) in the state, and other business services and strategies that better engage employers in workforce investment activities and make the workforce development system more relevant to the needs of the state and local businesses, consistent with the objectives of this title. (WIOA Sec. 134(a)(3)(A)(i))

Intermediary & Convenors

To serve as an intermediary organization or a convener, they must define the boundaries of the identified region in which work will be focused. Intermediaries can include industry associations, economic development organizations, chambers of commerce, industry working groups, task forces, or other similar organizations formally representing the interests of employers or closely related stakeholders in the industry cluster or sector.

Workforce Development Boards

The Workforce Innovation and Opportunity Act of 2014 (WIOA) emphasizes the important role of sector strategies in a dynamic regional workforce development plan. Within WIOA, regional coordination and planning requirements include the necessity of a regional plan that supports the "development and implementation of sector initiatives for in-demand industry sectors or occupations in the regions." Oklahoma's six local workforce boards can act as the convener, bringing together stakeholders, industry leaders, and facilitating the strategic process to meet the ongoing and changing needs of employers within a specific sector, relative to their region.

Education and Career Pathways

Career Pathways are created by an industry-driven sector partnership and fulfilled by education providers. The term career pathway means a combination of rigorous and high-quality education, training, and other services that create a seamless transition from K12, Postsecondary, to Career. A quality career pathway must be system-led involving input from K12, Career Technology Education, Higher Education, and industry for the purpose of building clear road maps for employment or career progression. Career Pathways help to ensure that workers are trained in the skills employers say they require and provide opportunities for workers to advance in the industry. This creates more satisfied employees and healthier industries, which improves regional economies.

This process must involve all stakeholders with the goal of creating opportunities to explore pathways with intention, view a national career pathway model [here](#).

Goals for this work include:

- Prioritize support and resources for demand industries and career paths.
- Provide technical assistance to partners working to develop and implement sector partnerships and strategies for increasing credential attainment.
- Promote credentials of value, growth, and demand occupations, critical occupations in Oklahoma's Industry Clusters and industry-driven solutions for closing the states skills gaps.
- Develop and implement local and regional strategies to assist Oklahomans in entering critical occupations and closing skills gaps. Targeted populations include WIOA-defined specials populations, including ex-offenders, veterans, homes adults, long-term, unemployed, individuals with disabilities and at-risk youth.
- Blend and leverage resources and funding to support eh long-term sustainability of sector partnerships and strategies for increasing credential attainment.

Business Services

The Oklahoma Employment Security Commission, which administers WIOA title I, has revamped business services. In addition to providing additional resources to local areas to hire fulltime board staff dedicated to business services activities, required core services are being established to ensure consistency in services regardless of where a business is in the state.

Data informed business services strategies include:

- Sector Strategies
- Incumbent Worker Training
- Competency-Based Hiring Strategies
- Layoff Aversion Strategies, and
- Real-Time LMI Data Reports

(a) **Economic, Workforce, and Workforce Development Activities Analysis.** The Unified or Combined State Plan must include an analysis of the economic conditions, economic development strategies, and labor market in which the State's workforce system and programs will operate.

(1) **Economic and Workforce Analysis**

(A) *Economic Analysis.* The Unified or Combined State Plan must include an analysis of the economic conditions and trends in the State, including sub-State regions and any specific economic areas identified by the State. This must include—

- (i) Existing Demand Industry Sectors and Occupations. Provide an analysis of the industries and occupations for which there is existing demand.
- (ii) Emerging Demand Industry Sectors and Occupations. Provide an analysis of the industries and occupations for which demand is emerging.
- (iii) Employers' Employment Needs. With regard to the industry sectors and occupations identified in (A)(i) and (ii), provide an assessment of the employment needs of employers, including a description of the knowledge, skills, and abilities required, including credentials and licenses.

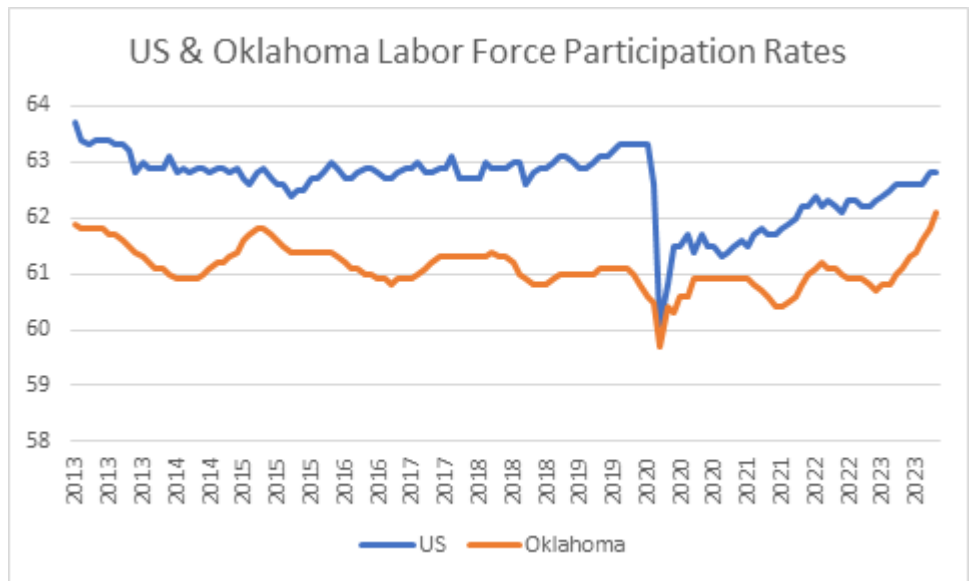

At the time of this writing there are many labor market indicators suggesting a rather robust economy. Even a simple run down of the statistics is impressive:

- Earlier this calendar year the state saw its lowest unemployment rate in the current BLS LAUS time series (back to 1976);
- In the household and establishment surveys our estimated employment are at historic highs;
- The state's employment to population ratio and our labor force participation rates have surged in recent months and are now at levels not seen in more than a decade;
- Claims for unemployment insurance are very low;
- There remain about two open jobs for every unemployed person in the state;
- The growth in private sector hourly wage rates is about twice the rate of consumer inflation.

Recent reports are showing higher rates of growth in our Goods-Producing sector (Oil & Gas, Construction, and Manufacturing) than in the far larger Private Service-Providing sector. This is to some degree a function of our current position in the economic cycle but our short-term and long-term industry and occupational projections give a fuller perspective on where job opportunities might be expected. This chart compares how the state and the nation have fared in terms of our unemployment rates. In the last few months Oklahoma has seen an increase in our rate but this was coupled with increases in employment as well as people enter the labor force.

These increases in the labor force participation rate are best illustrated in graphical form.

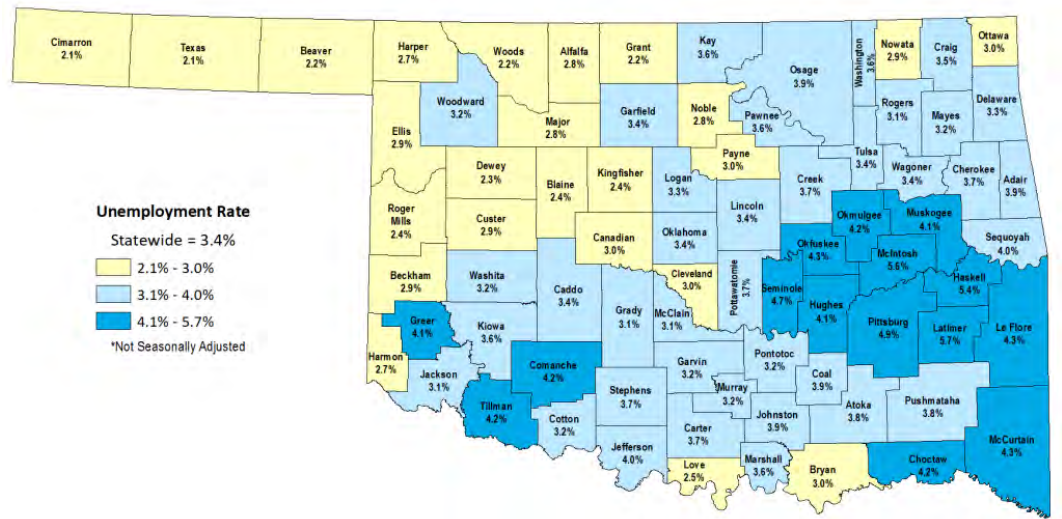

Oklahoma Seasonally Adjusted Unemployment Rate and Change from Previous Month's Total Nonfarm Employment

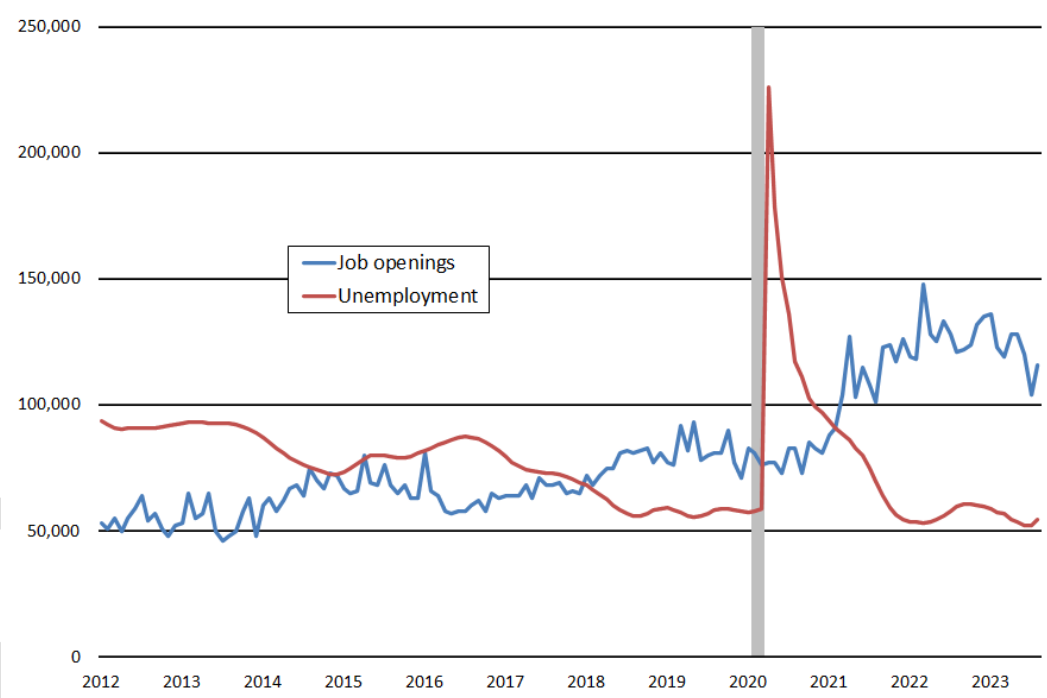

Unemployment Rates By County:

Oklahoma's unemployment rates by county continue to hover mostly below 4.0%. The largest population centers; Oklahoma, Tulsa, Cleveland, Canadian, and Rogers Counties all have unemployment rates at or below 3.4% as of September 2023. Many rural counties in western Oklahoma and the panhandle have unemployment rates approaching 2.0%.

Oklahoma Job Openings and Unemployment (Seasonally Adjusted)

Initial Claims 3/13/2021 to 10/21/2023

Continued Claims 3/13/2021 to 10/21/2023

(B) *Workforce Analysis*. The Unified or Combined State Plan must include an analysis of the current workforce in the State and within various state regions. Provide key analytical conclusions in aggregate as well as disaggregated among populations to identify potential disparities in employment and educational attainment and understand labor force conditions for items (i)-(iii) below. . Populations analyzed must include individuals with barriers to employment described in the first paragraph of Section II Analysis must include—

- (i) Employment and Unemployment. Provide an analysis of current employment and unemployment data, including labor force participation rates, and trends in the State.
- (ii) Labor Market Trends. Provide an analysis of key labor market trends, including across existing industries and occupations.

- (iii) Education and Skill Levels of the Workforce. Provide an analysis of the educational and skill levels of the workforce.
- (iv) Comparison of Economic and Workforce Analytical Conclusion. Describe areas of opportunity for meeting hiring, education, and skills needs identified in the economy compared to the assets available in the labor force in the state.

Veterans

In 2022 the employment situation for veterans in Oklahoma relative to the nation was not dissimilar from the larger population. Our unemployment rate for veterans was lower (2.1% vs 2.8%) but so was our labor force participation rate (42.5% vs 47.9%). There are an estimated 117,000 Oklahoma veterans in our state labor force.

Low Income

The labor force participation rate for individuals between 20 to 64 years is 74.9% in Oklahoma (2019 ACS 1 Year Estimates, Table ID S2301). For those at or above the poverty level, the labor force participation rate is 81.6%. The labor force population rate is much lower for individuals below the poverty level at 45.7%. Additionally, the 2019 unemployment rate for individuals below the poverty level was 16.0%, and the population at or above the poverty level was significantly lower at 2.9%. Together, the unemployment rate for 20-64 year old's was 4.0% in 2019.

Individuals with Disabilities

The civilian noninstitutionalized population (18-64 years old) in Oklahoma is approximately 2.3 million. Approximately 324,602 out of the 2.3 million are individuals with disabilities (2019 ACS 1-Year Estimates, Table ID B18120). The labor force includes both employed and unemployed individuals, and 43.4% of individuals with disabilities are in the labor force. 39.6% were employed, and 3.8% are unemployed.

Out of the employed individuals, 42,088 were individuals with a hearing difficulty, 34,701 were individuals with a vision difficulty, 37,614 were individuals with a cognitive difficulty, 41,794 were individuals with an ambulatory difficulty, 9,097 were individuals with a self-care difficulty, and 20,295 were individuals with an independent living difficulty. Out of the unemployed individuals, 2,108 were individuals with a hearing difficulty, 2,538 were individuals with a vision difficulty, 6,957 were individuals with a cognitive difficulty, 3,745 were individuals with an ambulatory difficulty, 795 were individuals with a self-care difficulty, 3,673 were individuals with an independent living difficulty.

Race and Ethnicity

The labor force participation rates and unemployment rates for race and ethnicity in 2019 for Oklahoma are provided in the table below (2019 ACS 1 Year Estimates, Table ID S2301, 16 years and older).

The highest labor force participation rate based on race (people of any race may be of any ethnic origin) was some other race alone at 70.9%. Conversely, American Indian and Alaska Native alone had the lowest labor force participation rate at 59.8%. Black or African American alone had the highest unemployment rate at 7.9% while Asian alone had the lowest unemployment rate at 2.1% in Oklahoma.

Race and Hispanic or Latino Origin <i>Hispanic ethnicity with any race had a labor force participation rate of 70.1% and an unemployment rate of 4.5%.</i>	2019 OK Labor Force Participation Rate	2019 OK Unemployment Rate
White alone	60.5%	3.8%
Black or African American alone	60.2%	7.9%
American Indian and Alaska Native alone	59.8%	6.3%
Asian alone	65.1%	2.1%
Native Hawaiian and Other Pacific Islander alone	Not Available	Not Available
Some other race alone	70.9%	3.3%
Two or more races	64.0%	6.3%
Hispanic or Latino origin (of any race)	70.1%	4.5%
White alone, not Hispanic or Latino	59.6%	3.7%
2019 ACS 1 Year Estimates, Table ID S2301, 16 years and older		

DRAFT

	2022 Average Employment	2022 Average Annual Earnings	Employment LQ
NAICS 3329 Other fabricated metal product manufacturing - Fed Govt	1,634	67,581	39.24
NAICS 4869 Other pipeline transportation	1,275	\$156,838	14.47
NAICS 2111 Oil and gas extraction	11,965	159,860	9.8
NAICS 4862 Pipeline transportation of natural gas	2,248	118,726	6.58
NAICS 2131 Support activities for mining	16,315	84,665	5.75
NAICS 1122 Hog and pig farming	1,636	49,110	5.21
NAICS 3334 Ventilation, heating, air-conditioning, and commercial refrigeration equipment manufacturing	6,429	58,148	4.18
NAICS 3324 Boiler, tank, and shipping container manufacturing	4,094	76,039	4.11
NAICS 3274 Lime and gypsum product manufacturing	607	68,555	3.62
NAICS 3262 Rubber product manufacturing	4,931	70,199	3.39
NAICS 9281 National security and international affairs	21,590	79,377	3.38
NAICS 3331 Agriculture, construction, and mining machinery manufacturing	7,493	72,907	3.27
NAICS 4245 Farm product raw material merchant wholesalers	1,960	39,219	2.59

NAICS 3312 Steel product manufacturing from purchased steel	1,567	73,056	2.58
NAICS 6211 Offices of physicians - Fed Govt	693	91,330	2.56
NAICS 3221 Pulp, paper, and paperboard mills	2,385	80,124	2.49
NAICS 3111 Animal food manufacturing	1,851	64,187	2.39
NAICS 3352 Household appliance manufacturing	1,785	47,029	2.37
NAICS 3271 Clay product and refractory manufacturing	926	53,039	2.35
NAICS 3364 Aerospace product and parts manufacturing	11,690	96,525	2.16
NAICS 3253 Pesticide, fertilizer, and other agricultural chemical manufacturing	870	114,517	2.14
NAICS 3116 Animal slaughtering and processing	11,834	49,125	2.06

Educational Attainment

Educational attainment employment data from the Census includes the population aged 25-64 years (2019 ACS 1 Year Estimates, Table ID S2301). The 2019 Labor force participation rates increased based on level of educational attainment:

- less than high school graduate was 56.8%,
- high school graduate (includes equivalency) was 69.6%,
- some college or associate's degree was 76.8%,
- and bachelor's degree or higher was 86.6%.

Similarly, the unemployment rates decreased based on level of educational attainment: less than high school graduate was 6.2%, high school graduate (includes equivalency) was 4.7%, some college or associate's degree was 3.8%, and bachelor's degree or higher was 1.8%.

List of Tables:

This section will provide both data and analysis of key industries and occupations in Oklahoma using official labor market statistics from the OESC, the BLS, and the Census Bureau.

- Industries with a Heavy Concentration in the State
- Occupations with a Heavy Concentration in the State
- Statewide Long-Term Industry Projections, 2020 – 2030
- Statewide Long-Term Occupational Projections, 2020-2030

It is well understood that some industries are more heavily concentrated in some geographic areas than in others as individual firms have realized advantages in being close to competitors, customers, supply chain sources, etc. Knowing this policy makers can profit by understanding the long-standing (and perhaps even the emerging) economic geography of their state and sub-state regions. Using location quotients we can identify those industries and occupation that already exist and are thriving within our state.

Utilizing 4-digit NAICS codes we have identified industries with at least 500 employees within the private and federal government sectors that have a relative employment concentration that is at least twice that of the nation.

Next is a table showing similar employment concentration data but from an occupational perspective. Here we are illustrating occupations that have LQs of at least 3.0 and at least 100 employees:

Occupational Title	Employment	Annual Average Wage	Employment LQ
Gambling Surveillance Officers and Gambling Investigators	1,700	31,310	14.94
Rotary Drill Operators, Oil and Gas	1,770	56,380	13.37
Gambling Cage Workers	1,310	25,740	10.27
Gambling Change Persons and Booth Cashiers	1,870	26,400	9.16
Explosives Workers, Ordnance Handling Experts, and Blasters	420	50,890	8.18
Roustabouts, Oil and Gas	3,370	44,660	7.94
Service Unit Operators, Oil and Gas	2,730	56,330	6.92

Crane and Tower Operators	53-7021	670	740	70	10.6	80
Industrial Truck and Tractor Operators	53-7051	7,390	7,750	360	4.9	850
Cleaners of Vehicles and Equipment	53-7061	4,460	4,890	430	9.7	690
Laborers and Freight, Stock, and Material Movers, Hand	53-7062	30,570	32,010	1,440	4.7	4,240
Machine Feeders and Offbearers	53-7063	330	380	60	16.8	50
Packers and Packagers, Hand	53-7064	3,610	3,530	-80	-2.2	480
Stockers and Order Fillers	53-7065	22,700	25,080	2,380	10.5	3,930
Gas Compressor and Gas Pumping Station Operators	53-7071	250	250	10	3.7	30
Pump Operators, Except Wellhead Pumpers	53-7072	740	840	110	14.6	100
Wellhead Pumpers	53-7073	1,020	1,450	430	41.7	180
Refuse and Recyclable Material Collectors	53-7081	2,140	2,320	180	8.4	310
Tank Car, Truck, and Ship Loaders	53-7121	250	270	20	8.5	30

Next, we transition to looking at the industry and occupational projections produced by the OESC's Economic Research & Analysis division in partnership with the federal DOL. These data products are produced every-other year in accordance with national standards. They provide labor market participants with an informed guide of how current trends may play out over the next decade. When coupled with the employment concentration data presented above they give a comprehensive picture of our key industries and occupations.

Here is a look at the long-term occupational outlook for employment for occupations in Oklahoma by where employment stood in 2020 versus what it is projected to be by 2030.

(iv) Skill Gaps

Currently, there is no standardized method for measuring workforce skills gaps by the Bureau of Labor Statistics or the U.S. Census Bureau.

- (2) Workforce Development, Education and Training Activities Analysis. The Unified or Combined State Plan must include an analysis of the workforce development activities, including education and training in the State, to address the education and skill needs of the workforce, as identified in (a)(1)(B)(iii) above, and the employment needs of employers, as identified in (a)(1)(A)(iii) above.

fThis must include an analysis of—

- (A) *The State's Workforce Development Activities*. Provide an analysis of the State's workforce development activities, including education and training activities of the core programs, Combined State Plan partner programs included in this plan, and required⁴ and optional one-stop delivery system partners.⁵

In prior years, Oklahoma has focused efforts on credential attainment as the top priority to address the education and skill needs of Oklahoma's employers and workforce. The state relied on Five Industry Clusters (Aerospace and Defense, Agriculture and Biosciences, Energy, Information and Financial Services, and Transportation and Distribution) and "growth and demand occupations" within these Clusters to guide the alignment of workforce and state economic development priorities. In addition, the State rallied around the goals of building stronger partnerships and coalitions, strengthening strategies, and building a strong state infrastructure as ways to move forward. While

⁴ Required one-stop partners: In addition to the core programs, the following partner programs are required to provide access through the one-stops: Career and

Technical Education (Perkins), Community Services Block Grant, Indian and Native American programs, HUD Employment and Training programs, Job Corps, Local Veterans' Employment Representatives and Disabled Veterans' Outreach Program, National Farmworker Jobs program, Senior Community Service Employment program, Temporary Assistance for Needy Families (TANF) (unless the Governor determines TANF will not be a required partner), Trade Adjustment Assistance programs, Unemployment Compensation programs, and YouthBuild.

⁵ Workforce development activities may include a wide variety of programs and partners, including educational institutions, faith- and community-based organizations, and human services.

noble and helpful, this wasn't creating the type of workforce driven system that was getting expected results in an expedited fashion.

In the spring of 2023, Governor Kevin Stitt created the Workforce Transformation Taskforce comprised of ten (10) individuals from both the private and public sectors to evaluate the current state of the workforce system in Oklahoma and make recommendations on strengths and challenges. These members were chosen based on subject matter expertise in areas that are integral to the creation and development of a new system for administering workforce initiatives. In their report, published on April 15, 2023, the Taskforce determined that as a participant in the system described it, "everyone in state government does workforce development, but no one owns it." This sentiment succinctly summarizes the central finding of the Task Force, and its recommendations focus on addressing this core deficiency.

The Task Force recommended the creation of a single state entity which has responsibility for Oklahoma's workforce development strategy. This workforce development "owner" should be a public-private partnership pursuing a results-oriented approach, and serving as a trusted central point of coordination and collaboration across the many stakeholders involved in workforce development in the state. The entity described in this report should work to ensure the state's workforce development efforts are aligned with the dual goals of economic development and individual empowerment.

On August 10, 2023 Executive Order 2023-21(EO) was filed with the Oklahoma Secretary of State moving the responsibility and authority to administer the WIOA Title I programs to the Oklahoma Employment Security Commission with the goal to "maximize our economic effectiveness, save taxpayer dollars, and assure that Oklahoma continues to be competitive with other states and countries." Furthermore, the EO highlighted that "Oklahoma has the talent, employers, and conditions necessary to be a top performer in workforce development nationally" and the workforce system must give the citizens "what they deserve" which is a "coordinated workforce system that enables job seekers to find careers and employers to staff needed talent."

The state continues to focus efforts on credential attainment as a top priority to address the education and skill needs of Oklahoma's employers and workforce. These efforts were coordinated under the Governor's broader workforce development initiative, Oklahoma Works, as well as through the implementation of the Workforce Innovation and Opportunity Act. During the previous WIOA State Plan years, Oklahoma spent time building stronger partnerships and coalitions, strengthening strategies, and building a strong state infrastructure on which to seek continuous improvement. Under the new Governor's administration, Oklahoma hopes to renew support for a state educational attainment goal and refocus efforts to achieve targeted improvements in the number of Oklahomans with postsecondary certificates and credentials of value.

The initiative's full array of workforce partners must align their efforts and take active roles in ensuring resources are used in ways that maximize, strengthen, and support the education to workforce pipeline for all Oklahomans.

(B) *The Strengths and Weaknesses of Workforce Development Activities.* Provide an analysis of the strengths and weaknesses of the workforce development activities identified in (A), directly above.

Oklahoma has many strengths. We have a fantastic workforce, many people within the workforce system with tremendous expertise and experience, along with many dynamic industries across all of the state's 77 counties.

As wonderful as those things are there are weaknesses within the state's workforce development activities:

Weaknesses include:

High school graduation requirements
300,000+ Oklahomans without high school diplomas
Disparate historical strategy or vision
Fragmented agencies with competing priorities
Siloed points of view in policy-making
Fragmented oversight groups with no absolute authority

Of course, many of the factors that contribute to Oklahoma's outcomes in key workforce metrics are outside of the scope of this report, but the misaligned structure of the systems Oklahoma tasks with workforce and talent development are a key contributor. Oklahoma is siloed in its governance and its workforce delivery system. Silos continue to exist between the K-12, career technology, and higher education systems. Even the state's federal WIOA funds and programming—explicitly designed in federal law to operate in a manner that is coordinated according to a statewide strategy—are distributed between several different state agencies with little to no coordination, a feature that, unfortunately, is unique to Oklahoma among state WIOA programs. **Without structural changes that bring alignment to the existing system, Oklahoma will fall behind as other states race ahead and labor market conditions only become more challenging.**

(C) *State Workforce Development Capacity.* Provide an analysis of the capacity of State entities to provide the workforce development activities identified in (A), above. A broad and diverse network of stakeholders is involved in overseeing and executing an array of different components that comprise the "workforce delivery system." We must align these components such that they work together in the most optimal way, to best serve Oklahomans.

Stakeholders:

- Oklahoma Employment Security Commission (OESC)
- Oklahoma Department of Career and Technology Education (CareerTech)
- Oklahoma Department of Rehabilitation Services (DRS)
- Oklahoma State Department of Education (OSDE)
- Oklahoma Department of Human Services (OHS/OKDHS)
- Oklahoma Department of Commerce (Commerce)
- Oklahoma Department of Corrections (ODOC)
- Oklahoma State Regents for Higher Education (OSRHE)
- Governor
- Lt. Governor

- Governor’s Council for Workforce and Economic Development
- Oklahoma Workforce Commission (OWC)
- State Chamber of Oklahoma
- Local workforce boards
- Local elected officials
- U.S. Department of Labor

(b) **State Strategic Vision and Goals.** The Unified or Combined State Plan must include the State’s strategic vision and goals for developing its workforce and meeting employer needs in order to support economic growth and economic self-sufficiency. This must include—

(1) **Vision.** Describe the State’s strategic vision for its workforce development system.

The Oklahoma Workforce Transformation Task Force has reviewed the challenges in workforce development and found that, as a participant in the system described it, “everyone in state government does workforce development, but no one owns it.” This sentiment succinctly summarizes the central finding of the Task Force, and its recommendations focus on addressing this core deficiency.

The Task Force recommends the creation of a single state entity which has responsibility for Oklahoma’s workforce development strategy. This workforce development “owner” should be a public-private partnership pursuing a results-oriented approach and serving as a trusted central point of coordination and collaboration across the many stakeholders involved in workforce development in the state. The entity described in this report should work to ensure the state’s workforce development efforts are aligned with the dual goals of **economic development** and **individual empowerment**.

- Key Principles and Attributes of Oklahoma’s new Workforce Delivery System:
- The need to have a public oversight component to the entity. There is not a need to create a new state agency, but rather a public oversight board which can receive public funds and provide accountability to the taxpayers.
- Appointed jointly by the Executive and Legislative branches to ensure durability of entity.
- Public Funds, public accountability, and ability to accept private funds.
- Private Sector vision and direction. As a body driven by innovation, the membership of the Workforce Commission should be comprised of business leaders.
- Public-Private partnership.
- Need for an Implementation Office. An agile structure focused on implementing the vision and consistently measuring success, modeled after Oklahoma Energy Resources Board.
- Coordination focused on the entire workforce ecosystem.
- Data driven. Independent and objective data to drive workforce transformation.
- The ability to invest in innovation. Leveraging funds to drive outcomes.
- A rapid response component. Ability to assist employers with workforce needs plan.
- Establish performance-based funding measures for investments.
- Providing information and recommendations to policy makers.
- Strategic annual report. Each year the entity should report to policy makers not only on expenditures, but also on progress. It is anticipated the entity will publish a list of targeted

workforce outcomes each year, invest in achieving those outcomes, and report on progress.

- Coordination of WIOA funds through the entity driving the state’s workforce strategy.
- Realignment of Oklahoma Employment Security Commission (OESC) and Oklahoma Office of Workforce Development (OOWD) into the new entity.

(2) Goals. Describe the goals for achieving this vision based on the analysis in (a) above of the State’s economic conditions, workforce, and workforce development activities. This must include—

(A) Goals for preparing an educated and skilled workforce, including preparing youth and individuals with barriers to employment⁶ and other populations.⁷ (B) Goals for meeting the skilled workforce needs of employers.

- Oklahoma’s evaluation of the state workforce system revealed the need for a top-down educational initiative detailing the intention, purpose, and financial stewardship of WIOA dollars.
- “Every dollar of WIOA funding spent on administrative functions is a dollar not invested in citizen development and employment.”
- Work in language for “preparing an educated and skilled workforce” and “meeting the skilled workforce needs of employers.” These two go hand-in-hand.
- Achieve innovation and efficiency through alignment, collaboration, and education. All entities are working together to drive collective and meaningful outcomes.
- Coordinated service delivery which includes collaboration at the Agency administrative levels and continues through to the frontline management of program referrals.
- Performance accountability and fiscal responsibility go hand in hand. Today, federal dollars come to the state administrator where administration expense is taken off the top. The state then sub-awards to locals who take another admin percentage off the top. Every dollar of WIOA funding spent on admin functions is a dollar not invested in citizen development and employment. The collective amount of overhead taken off the top of WIOA funds nationwide would be staggering if totaled. The system needs to push states to coordinate service partners more closely based on what those entities exist and are already funded to provide. This would mean more hands involved in planning and executing but fewer hands needing funding to participate.
- Local areas operating from a place of strategic alignment and not competition. All of us serve the same customers, the citizens of Oklahoma.
- Oklahoma’s Workforce Delivery System is a supply chain. We must measure its success against the outcomes the system is meant to deliver, and its ability to respond to and address challenges.

What do we hope to achieve in the long run?

- Increased labor force participation rate
- Decreased unemployment rate

⁶ Individuals with barriers to employment include displaced homemakers; low-income individuals; Indians, Alaska Natives, and Native Hawaiians; individuals with disabilities, including youth who are individuals with disabilities; older individuals; ex-offenders; homeless individuals, or homeless children and youths; youth who are in or have aged out of the foster care system; individuals who are English language learners, individuals who have low levels of literacy, and individuals facing substantial cultural barriers; eligible migrant and seasonal farmworkers (as defined at section 167(i) of WIOA and Training and Employment Guidance Letter No. 3514); individuals within 2 years of exhausting lifetime eligibility under the Temporary Assistance for Needy Families Program; single parents (including single pregnant women); and long-term unemployed individuals.

⁷ Veterans, unemployed workers, and youth and any other populations identified by the State.

- Growth of private businesses
- Successful economic development, including the retention and growth of existing businesses and the establishment of new businesses
- Improved educational awareness and exposure to workforce opportunities
- Robust opportunities for diverse career pathways for all Oklahomans – disabled, veterans, justice-involved, parents, etc. – to pursue gainful employment

(3) Performance Goals. Using the table provided in Appendix 1, include the State's expected levels of performance relating to the performance accountability measures based on primary indicators of performance described in section 116(b)(2)(A) of WIOA. (This Strategic Planning element only applies to core programs.)

DRAFT

Performance Measures		PY22-PY23	PY22	PY23
		State Negotiated Level	Performance Outcomes	Performance Outcomes
Employment 2nd Quarter after Exit	Title I - Adult	70.0%	74.6%	
	Title I - Dislocated Worker	73.3%	76.1%	
	Title I - Youth	73.0%	79.6%

Effectiveness in Serving Employers Pilot Approaches	Title I & III - Retention with Same Employer in the 2nd and 4th Quarters After Exit Rate	Not Applicable	64.3%	
	Title I & III - Employer Penetration Rate	Not Applicable	4.7%	
	Title I & III - Repeat Business Customers Rate	Not Applicable	34.0%	

- (4) Assessment. Describe how the State will assess the overall effectiveness of the workforce development system in the State in relation to the strategic vision and goals stated above in sections (b)(1), (2), and (3) and how it will use the results of this assessment, which may include evaluation findings, and other feedback to make continuous or quality improvements.

Oklahoma Workforce Transformation Taskforce began reviewing the state of the workforce development system in the fall of 2022, and subsequently released a report in on April 15, 2023. The purpose of the Task Force was to design a new workforce delivery system in Oklahoma and guide the state's transition from the current system to the new system. A new system can

maximize economic effectiveness, save taxpayer dollars, maximize funding through better coordination with key stakeholders, be more responsive to the needs of employers, and ensure that Oklahoma continues to be competitive through the utilization of best workforce development practices.

Chad Warmington, Taskforce member and President and CEO of the State Chamber of Oklahoma and Chad Mariska, Oklahoma Secretary of Commerce made these statements: "Oklahoma is not unique in the staggering workforce challenges it is facing..." and "Despite the significant challenge ahead of us, we are confident Oklahoma will succeed in this effort. Our work as a Task Force and the work completed by others in recent years have revealed that Oklahoma is ready to meet the moment. Stakeholders are aligned around the need for improved efficiency and coordination and are ready to engage. The recommendations in this report were designed in the mold of national best practices, after carefully considering the strengths and weaknesses of other analogous efforts."

"Seizing this opportunity" requires a paradigm change in the way our state's workforce development system is structured and operates, but that change is well within our reach, and well underway with the recommendations outlined in this report. The consequences of failing to take bold action in the face of this national challenge are stark."

(c) **State Strategy.** The Unified or Combined State Plan must include the State's strategies to achieve its strategic vision and goals. These strategies must take into account the State's economic, workforce, and workforce development, education and training activities and analysis provided in Section (a) above.

Include discussion of specific strategies to address the needs of populations provided in Section (a).

(1) Describe the strategies the State will implement, including industry or sector partnerships related to in-demand industry sectors and occupations and career pathways, as required by WIOA section 101(d)(3)(B), (D). "Career pathway" is defined at WIOA section 3(7) and includes registered apprenticeship. "In-demand industry sector or occupation" is defined at WIOA section 3(23).

Oklahoma has a workforce shortage problem. Left unaddressed, economic trends suggest the problem will grow worse, not better. A successful state workforce development system is the key to a strong and growing economy and empowers individuals to achieve their full potential. To be successful, Oklahoma must address both goals concurrently and in coordination with many stakeholders through a results-driven strategy.

Oklahoma is working with its system partners and the state workforce board to determine potential strategies around career pathways including registered apprenticeships.

Oklahoma has a robust Registered Apprenticeship program which has connected dozens of employers around the state with hundreds of apprenticeship opportunities.

(2) Describe the strategies the State will use to align the core programs, any Combined State Plan partner programs included in this Plan, required and optional one-stop partner programs, and any other resources available to the State to achieve fully integrated customer services consistent with the strategic vision and goals described above. Also describe strategies

to strengthen workforce development activities in regard to weaknesses identified in section II(a)(2).

A highly functioning workforce development owner in Oklahoma should include the following key attributes:

The need for rigorous public oversight. There is not a need to create a new state agency, but rather a public oversight board which can receive public funds and provide accountability to the taxpayers. This can be accomplished through the creation of a Workforce Commission. A single entity with statutory authority to receive workforce development funding and report back on its expenditures. A public body, subject to the Open Meetings Act, with transparency in expenditures. An example is the Texas Workforce Commission which serves as a public entity for coordination of workforce initiatives and receipt of federal funds. See **Appendix, Ex. 4**. Critically, this public board should not take on the trappings of a state agency, with staff, a state-owned building, and the like. Rather, the commission should 1) develop the state's workforce strategy based on direction from the Legislature and Governor and input from the myriad stakeholders in the workforce development ecosystem, 2) contract out execution and operationalization of that strategy, 3) oversee and hold accountable those contracted to execute the strategy, and 4) provide the public and its elected Legislature and Governor with regular reports on progress and results.

Direction and accountability from both the Executive and Legislative branches to ensure "buy-in and durability. In order to provide state appropriations to invest in solutions to address the workforce shortage it is important that the Legislature be involved in the strategic direction of the Commission. Utah is an example of a successful model in this regard; the state has created a single entity which receives funding and direction on workforce investments from the legislature, with input and involvement of the executive branch. See **Appendix, Ex. 5**.

Public funds, public accountability, and the ability to accept private funds. The Workforce Commission will need a revolving fund to receive state appropriations, but also the ability to accept private donations, federal grants, and foundation funding. The revolving fund will be a public fund, subject to reporting to the legislature and the executive branch. There are a number of funding sources available for workforce development including federal funds, competitive grants, foundation funding, and potential state appropriations. To truly transform the system, these investments need to be aligned with the short-term and long-term workforce needs of the state.

Private Sector vision and direction. As a body driven by innovation, the membership of the Workforce Commission should be comprised of business leaders. Senior leadership in key industries, appointed by the executive and legislative branches. The membership will need to be refreshed on a regular basis, through rotating appointments, to prevent stagnation and provide new perspectives. A model for this coordination of private sector input is the New York CEO Council. See **Appendix, Ex. 6**.

Public-Private partnership. The workforce development system needs to drive the development of a workforce strategy to address the needs of the current and future economy but also the empowerment of individuals to succeed. A public-private partnership coordinating both sides of these dual goals of a workforce development strategy is the ideal model for coordination and implementation. JobsOhio and Career Source Florida are both examples of highly effective public-private partnerships in workforce and economic development initiatives. See **Appendix, Ex. 7 and Ex. 8**.

Need for an high-functioning, efficient Implementation Office that drives execution of the State's strategy. There is a need for an agile structure focused on implementing the vision and

consistently measuring success. Rather than growing state government, it is the recommendation of the Task Force this be accomplished through a contracted entity with the ability to terminate the relationship if not effective and not achieving desired results. A model for this type of implementation structure comes from the Oklahoma Energy Resources Board (OERB). A public entity, established by the Oklahoma Legislature but implemented through a private not-for-profit foundation. **See Appendix, Ex. 9.**

Coordination focused on the entire workforce ecosystem. The owner-entity will need to have the authority to receive information from stakeholders across the system. The entity will need to have a results-driven approach and the ability to influence stakeholders involved in both future and current workforce needs. This principle is foundational to successful delivery systems, such as those in Florida, Ohio, Texas, Utah, and Alabama. **See Appendix, Ex. 10.**

Data driven. There is a need for independent and objective data to drive workforce transformation. In Oklahoma there are many data silos controlled by multiple stakeholders. Policymakers and stakeholders need a central, trusted source of data that functions as a labor market observatory, sharing data on skills in demand by employers and outcomes by training partners. The Kentucky Center for Statistics and Missouri Economic Research Information Center are useful examples. **See Appendix, Ex. 11 & 12.**

The ability to invest in innovation. There are many opportunities for innovation by using funds to drive outcomes. For example, establishing a “pay for success” model with private foundations for current workforce needs. There are also several proven success models at the local workforce development level which should be highlighted and replicated. Additionally, companies have been willing to invest in targeted workforce gaps such as Apple. **See Appendix, Ex. 13.**

A rapid response component. When a large employer is seeking to locate in Oklahoma, or an existing employer is seeking to expand; they need a source to turn to for a workforce needs assessment and plan. This entity would have the data needed to determine current workforce availability, the coordination with workforce stakeholders across the state to determine capacity to respond, and funding available to meet this challenge. This entity would become the source of a rapid workforce development plan for employer needs in a short time frame. The states consistently ranked the best in business development include this rapid response concept including Georgia’s Quick Start program, and Virginia’s FastForward and Virginia Talent Accelerator Program..

Establish performance-based funding measures for investments. State appropriations are driven by the need to have operational capacity, including staff and space, to meet a public mission. It is difficult to invest in new programs and then cut funding in subsequent years, regardless of effectiveness. This entity will have the ability to provide grants and one-time funding to address a critical need without the program becoming a recurring obligation. Funds will be contingent upon measured outcomes produced by a program. This data can then be provided to policy makers who can choose to reinvest in a program or not, based upon results. States such as Virginia and Pennsylvania have used this approach to invest in measurable outcomes to drive results, including WIOA funds. **See Appendix, Ex. 14 & 15.**

Providing information and recommendations to policy makers. With an independent board and an independent research capacity, this entity will be able to identify potential issues for policy makers and recommend solutions. There are barriers to workforce shortages including lack of quality childcare, occupational licensing restrictions and lack of coordinated credentials. This entity could assist policy makers with independent research of actual barriers and potential

solutions. As Oklahoma is competing with other states, and even countries, it is important to have the ability to identify trends and best practices across the country.

Regular strategic planning and reporting. Each year the entity should report to policy makers not only on expenditures, but also on progress. It is anticipated the entity will publish a list of targeted workforce outcomes each year, invest in achieving those outcomes, and report on progress. These targets should be updated on an annual basis.

Coordination of WIOA funds through the same entity responsible for the state's overall workforce development strategy. The lack of coordination of WIOA funds in the state of Oklahoma results in inefficiencies and duplication. Rather than WIOA funds flowing into four different agencies, the funds should flow into a single point and then distributed in a manner consistent with the state's broader strategic objectives. This coordination will result in streamlined administration and improved alignment of WIOA- funded programs.

Realignment of the Oklahoma Employment Security Commission (OESC) and Office of Workforce Development (OWD). OESC and OWD share similar missions and funding sources in assisting individuals transition into the workforce but are uncoordinated in sharing of data and resources. Efficiency and impact could be gained by combining the agencies and folding into the reporting structure of the new Workforce Commission. Such an arrangement is the norm across states; Oklahoma's siloing of these two functions is unique.

Federal Partnership Opportunities:

Oklahoma's workforce system continues to review details and prioritize partnerships in response to recent federal legislation since Covid-19. Oklahoma is excited about the future and becoming a Top Ten State. Oklahoma will evaluate opportunities and partnerships to leverage federal funds combined with the workforce development system to increase measurable outcomes.

Partnership with the Oklahoma Department of Transportation:

In September of 2023 OESC and the Oklahoma Department of Transportation partnered for a hiring event designed to match job-seekers with training opportunities and employment.

Prior to the event, ODOT offered free OSHA-10 and Forklift Driving Certification the week of the event. More than a dozen people participated in the first set of training.

A second training was held after the hiring event with almost 30 additional people. More than 200 job-seekers attended the main event and reported a wonderful experience.

This event provided a template for the future. Partnering with state agencies provides OESC with additional leverage in working with job-seekers and connecting them with available training.

Oklahoma's NEVI Plan

The Oklahoma Department of Transportation and the Oklahoma Secretary of Energy & Environment have partnered on the Oklahoma National Electric Vehicle Infrastructure (NEVI) Plan.

The NEVI Formula Program, funded by the Infrastructure Investment and Jobs Act (IIJA), is a \$5 billion program that plans to make historic investments in electric vehicle (EV) charging infrastructure across the country. The goal of this program is to establish a network of 500,000 EV chargers by 2030 along federally designated

alternative fuel corridors (AFC) in the United States (U.S.) and ensure a convenient, reliable, affordable and equitable charging experience for all users. To achieve this national goal, each state is required to develop an EV Infrastructure Deployment Plan (Plan) that describes how NEVI Formula Program funds will be used in conformity with guidance from the Federal Highway Administration (FHWA).

The Oklahoma NEVI plan was approved by FHWA on September 14th, 2022.

The Oklahoma NEVI Plan began in April 2022 and was led by the Oklahoma Department of Transportation (ODOT) and Oklahoma Secretary of Energy and Environment (OSEE), in coordination with state agencies, local Metropolitan Planning Organizations (MPOs), Regional Transportation Planning Organizations (RTPOs), Clean Cities Coalitions, utilities and public stakeholders, and committees per FHWA's recommended stakeholder groups from their 90-day guidance. The Plan presented in this document represents ODOT and OSEE's commitment to increasing access to EV charging infrastructure across the state.

Oklahoma NEVI Plan Goals: ODOT's goals for the NEVI Plan, in accordance with FHWA guidance, focuses on building out FHWA designated AFCs, then expanding to regional and local routes of significance, equity-based destination charging, and freight charging locations. ODOT's NEVI Plan goals are also in alignment with ODOT's stated goals and the Governor's goals.

- Goal #1: Develop an Electric Vehicle Charging Plan that puts Oklahoma in the Top 10 for Electric Vehicle Performance Measures in the United States.
- Goal #2: Develop and Implement Statewide Policies that Encourage the Responsible Development of Oklahoma's Natural Resources.
- Goal #3: Comprehensive Charging Plan:
- Goal #4: Data Gathering and Evaluation:
- Goal #5: Program Implementation and Administration:
- Goal #6: Develop and sustain Oklahoma's Workforce:
- Goal #7: Access to EV Charging Stations:

Tech Hubs Designations:

Oklahoma is participating in the [Tech Hubs Program](#) which aims to strengthen U.S. economic and national security with investments in regions across the country with assets and resources with the potential to become globally competitive in the technologies and industries of the future.

Oklahoma will benefit from two Tech Hubs, one in [Tulsa developing autonomous systems applications](#) and another serving [southern Oklahoma to develop and enhance semi-conductor supply chain infrastructure](#).

The Tulsa Hub for Equitable & Trustworthy Autonomy (THETA), led by Tulsa Innovation Labs, aims to become a global leader in developing and commercializing autonomous systems for use cases ranging from agriculture and pipeline inspections to regional transportation. Leveraging strong university-based research institutes in unmanned systems and cyber technologies, the Skyway Range flight corridor testing facility and existing capital investments, THETA will develop and innovate autonomous systems applications while increasing their security and integrity. In doing so, THETA seeks to strengthen national and economic security while connecting small manufacturers across the region with opportunities in the autonomous systems supply chain.

Meanwhile, several southern Oklahoma counties are part of a consortium led by Southern Methodist University (SMU) in Dallas.

The Texoma Semiconductor seeks to unify existing and planned semiconductor supply chain infrastructure by enhancing regional collaboration and uplifting underserved communities through workforce expansion.

Leveraging its central location and robust transportation network, this Tech Hub offers a semiconductor manufacturing model that geographically consolidates the semiconductor manufacturing supply chain from bare wafers to products. By deploying a geographically-distributed “fablet” model—building targeted, accessible labs for electronic design, semiconductor manufacturing, packaging, and testing— the Texoma Semiconductor Tech Hub will foster a consolidated semiconductor innovation ecosystem with supply chain resilience.

The Tech Hubs program brings together diverse public, private, and academic partners into collaborative consortia focused on driving inclusive regional growth. With their existing innovation assets as a foundation, these Tech Hubs will build the workforce of the future; enable businesses to start and scale; and deploy and deliver critical and emerging technologies.

III. OPERATIONAL PLANNING ELEMENTS

The Unified or Combined State Plan must include an Operational Planning Elements section that supports the State’s strategy and the system-wide vision described in Section II(c) above. Unless otherwise noted, all Operational Planning Elements apply to Combined State Plan partner programs included in the plan as well as to core programs. This section must include—

(a) **State Strategy Implementation.** The Unified or Combined State Plan must include—

(1) **State Board Functions.** Describe how the State board will implement its functions under section 101(d) of WIOA (i.e., provide a description of Board operational structures and decision-making processes to ensure such functions are carried out).

(2) **Implementation of State Strategy.** Describe how the lead State agency with responsibility for the administration of each core program or a Combined State Plan partner program included in this plan will implement the State’s Strategies identified in II(c) above. This must include a description of—

(A) *Core Program Activities to Implement the State’s Strategy.* Describe the activities the entities carrying out the respective core programs will fund to implement the State’s strategies. Also, describe how such activities will be aligned across the core programs and Combined State Plan partner programs included in this plan and among the entities administering the programs, including using co-enrollment and other strategies, as appropriate.

(B) *Alignment with Activities outside the Plan.* Describe how the activities identified in (A) will be aligned with programs and activities provided by required one-stop partners and other optional one-stop partners and activities provided under employment, training (including Registered Apprenticeships), education (including career and technical education), human services and other programs not covered by the plan, as appropriate, assuring coordination of, and avoiding duplication among these activities.

(C) *Coordination, Alignment and Provision of Services to Individuals.* Describe how the entities carrying out the respective core programs, Combined State Plan partner programs included in this plan, and required and optional one-stop partner programs

will coordinate activities and resources to provide comprehensive, high-quality, customer-centered services, including supportive services (e.g. transportation), to individuals, including those populations identified in section II(a)(1)(B), and individuals in remote areas. The activities described shall conform to the statutory requirements of each program.

- (D) *Coordination, Alignment and Provision of Services to Employers.* Describe how the entities carrying out the respective core programs, any Combined State Plan partner program included in this plan, required and optional one-stop partner programs will coordinate activities and resources to provide comprehensive, high-quality services to employers to meet their current and projected workforce needs and to achieve the goals of industry or sector partners in the state. The activities described shall conform to the statutory requirements of each program.
- (E) *Partner Engagement with Educational Institutions and other Education and Training Providers.* Describe how the State's Strategies will engage the State's community colleges, adult education providers, area career and technical education schools, providers on the State's eligible training provider list, and other education and training providers, as partners in the workforce development system to create a job-driven education and training system. WIOA section 102(b)(2)(B)(iv). Include how the State's strategies will enable the State to leverage other Federal, State, and local investments to enhance access to workforce development programs at these institutions.
- (F) *Improving Access to Postsecondary Credentials.* Describe how the State's strategies will improve access to activities leading to recognized postsecondary credentials, including Registered Apprenticeship certificates. This includes credentials that are industry-recognized certificates, licenses or certifications, and that are portable and stackable.
- (G) *Coordinating with Economic Development Strategies.* Describe how the activities identified in (A) will be coordinated with economic development entities, strategies, and activities in the State.

(b) **State Operating Systems and Policies.** The Unified or Combined State Plan must include a description of the State operating systems and policies that will support the implementation of the State strategy described in section II **Strategic Elements**. This includes—

- (1) The State operating systems that will support coordinated implementation of State strategies (e.g., labor market information systems, data systems, communication systems, case management systems, job banks, etc.).

Oklahoma uses OKJobMatch.com as its statewide job bank and case-management system. The system is available for job-seekers looking for work in all 77 counties, provides employers a place to search for talent and post jobs, and coordinates case management for programs operated by OESC (Title III & Title I) under WIOA. Another component of OKJobMatch.com

used by the local areas is FiscalLink, a fully integrated fiscal management module that aids with tracking of training and career service costs per participant as well as producing reports.

Adult Education and Family Literacy at the Oklahoma Department of Career & Technical Education (ODCTE) currently utilizes LACES (Literacy, Adult and Community Education System) by Genius, a developer of data management systems for the public and nonprofit sectors. LACES is an online student data management software with the capability of generating daily reports. Engineered for providers of literacy, Adult Education and Family Literacy (AEFL), and correctional education programs. LACES allows case managers to easily set baselines, track program progress, student goals, and deliver results and streamline data reporting to state and federal agencies.

The Oklahoma Department of Rehabilitation Services (OKDRS) is utilizing the AWARE case management system by Alliance Enterprises. Alliance Enterprises, Inc. maintains the case management system used by more than 35 Vocational Rehabilitation state agencies throughout the country. In addition to serving as a tool for managing services for vocational rehabilitation programs under Title IV of the WIOA, it also produces reports to meet the reporting requirements of the U.S. Department of Education, Rehabilitation Services Administration.

(2) The State policies that will support the implementation of the State's strategies (for example, co-enrollment policies and universal intake processes where appropriate). In addition, provide the State's guidelines for State-administered one-stop partner programs' contributions to a one-stop delivery system and any additional guidance for one-stop partner contributions.

All Oklahoma Works workforce system policies will support the alignment of service delivery. Policy development and process is a collaborative approach, utilizing the System Oversight Subcommittee (SOS) members who draft and revise system policy as well as subject matter experts and workforce development stakeholders who provide feedback to policies as they are developed. The Workforce System Oversight Committee (WSOC) reviews all policy upon release and the Executive Committee is available as back-up if needed. The Governor's Council for Workforce and Economic Development ratifies all committee-approved policies. The full list of current policies can be accessed through the Oklahoma Works website at: <https://oklahomaworks.gov/localworkforce-boards/wioa-policy-center/>.

Guidance for partner program contributions to the one-stop delivery system are established at the local level and guided by OWDI #24-2017, Change 1 Memorandum of Understanding Guidance and MOU Toolkit Infrastructure Funding Agreements (IFAs) and the State Funding Mechanism (SFM), under the Workforce Innovation and Opportunity Act of 2014 (WIOA), Phase II. Further guidance is offered in GCWED Guidance Letter #02-2017 on Infrastructure Cost Sharing.

Consistent state level partner meetings of executive level core partner leadership and the collaboration of system partners on the System Oversight Subcommittee ensures that there is a process for feedback and alignment across the local areas on behalf of the state partners as additional policy and processes are developed to establish expectations for partner contributions.

State Policies:

The active policies that support implementation of state strategies are as follows:

OWDI 04-2021 Performance Incentive Awards for Local Workforce Boards: To outline the criteria for awarding incentives to Local Workforce Development Boards for Program Year performance.

OWDI 01-2021, Change 1 WIOA Case Management and Common Exit: To develop and implement procedures for the operation of the Period of Participation, Categories of Enrollment, Categories of Exits, Services, Career Services and Training Service Costs under WIOA and to clarify various aspects of the operational parameters and specifications of these categories.

OWDI 05-2021 Sub-grantee Risk Assessment: To establish a system of accountability to ensure an optimum return on federal funds invested in programs and activities administered by local workforce development areas (LWDAs).

OWDI 11-2020 Access for All Star Accessibility Framework Phase I – Initial Assessment: To provide guidance for the initial implementation of the Access for All Star Accessibility Framework for the review of certified comprehensive and affiliate Oklahoma Works American Job Centers.

OWDI 08-2020 Special Issue and Investigative Monitoring: To communicate and implement the process for Special Issue/Investigative monitoring for recipients of federally-funded programs and grants administered by the Oklahoma Office of Workforce Development.

OWDI 04-2020 Selective Service Registration: To provide guidance regarding selective service registration requirements for potential participants in WIOA Title I programs.

OWDI 03-2020 Fraud and Incident Reporting: To provide guidance on expectations and requirements for immediately reporting information and complaints involving criminal fraud, waste, abuse, or other criminal activity in accordance with TEGL 2-12 and 20 CFR 683.620.

OWDI 02-2020 Sanctions and Resolution Process: To communicate and implement the sanctions and resolution processes for sub recipients of federal and state grants administered by OESC.

OWDI 01-2020 Business Services To provide guidance to the local workforce development boards and core partners for the provision of Business Engagement and Business Services.

OWDI 08-2019 Adult and Dislocated Worker 40% Minimum Training Expenditure Rate: To provide guidance for the State's required 40% minimum training expenditure rate of the Title I Adult and Dislocated Worker funds.

OWDI 09-2019 Incumbent Worker Training Services: To provide guidance to local workforce development boards (LWDBs) regarding participant eligibility for Incumbent Worker Training (IWT) and employer eligibility for IWT reimbursement.

OWDI 07-2019 Use of Grant Funds to Pay for the Cost of Meals, Food, Coffee or Other Refreshments: To provide guidance to the Local Workforce Development Boards on the provision of utilizing Federal funding to provide meals for external customers and employees.

OWDI 06-2021 Poverty Guidelines & LLSIL: To communicate the updated poverty guidelines released by the United States Department of Health and Human Services that may be used to calculate income levels to determine eligibility for participation in various state and federally funded programs and to prioritize services. This policy is updated annually as new federal guidelines are released.

OWDI 02-2021 WIOA Core Performance Measures and Performance Success: To communicate Oklahoma's guidelines under which Local Workforce Development Boards (LWDBs) must develop and implement procedures for the operation of the performance accountability system under WIOA. This guidance clarifies various aspects of the operational parameters and specifications of performance indicators.

OWDI 05-2018, Change 1 Oklahoma Works Waiver Request Policy: To provide guidance to Oklahoma's program practitioners, workforce development boards, partner organizations and others to clarify the state's policy and procedures on requests for WIOA flexibility waivers.

OWDI 01-2018, Change 1 Nondiscrimination and Equal Opportunity Complaint Procedures: To provide guidance on the WIOA Section 188 Discrimination and Complaint Procedures.

OWDI 05-2019 Nondiscrimination and Equal Opportunity Corrective Actions and Sanctions: To inform grant recipients of the sanctions that may be imposed for violation of the nondiscrimination and equal opportunity provisions of the Workforce Innovation and Opportunity Act (WIOA), and to outline the procedures to achieve voluntary compliance via corrective action/remedy.

OWDI 14-2017, Change 2 Rapid Response Activities and Layoff Aversion: To communicate the State Policy concerning Rapid Response and Layoff Aversion activities conducted by the State and/or Local Rapid Response Teams and to establish a basic standard of service statewide.

OWDI 04-2019 Assessments: To provide guidance on the assessment practices that are to be utilized by the Oklahoma Works one-stop centers in the assessments of WIOA participants.

OWDI 03-2019 Individual Employment Plan: To communicate Oklahoma's processes and procedures for the development of an Individualized Employment Plan (IEP) for each individual determined to be eligible for Title I Adult and Dislocated Worker programs. This policy establishes the minimum standards for procedures to be developed and adopted by each local workforce development area.

OWDI 01-2019, Change 1 Oklahoma Works One-Stop American Job Center Certification Policy: To communicate Oklahoma's process and procedures for evaluating and certifying comprehensive and affiliate Oklahoma Works - A Proud Partner of the American Job Center Network (One-Stop) Centers.

OWDI 03-2021 Local Board Certification: To provide guidance and process for the Local Workforce Development Board two-year certification process.

OWDI 10-2020 Regional and Local Planning Instructions: To communicate Oklahoma's instruction for the local and regional plans under the Workforce Innovation and Opportunity Act.

OWDI 02-2019, Change 2 Oklahoma Data Validation and Source Documentation

Requirements: To provide guidance to the workforce system on the State of Oklahoma's Data Validation and Source Documentation Requirements for the WIOA Title I Programs and the Wagner-Peyser Employment Services as amended by Title III.

OWDI 23-2017, Change 1 Conflict of Interest: To provide guidance to the workforce system to ensure that WIOA Title I workforce development activities are conducted in a manner to prevent conflict of interest.

OWDI 09-2018 WIOA Title I Formula Programs and Job Corps Coordination: To provide guidance to allow coordination between WIOA Title I formula fund program operators in the State's three workforce development areas where Job Corps centers are physically located.

OWDI 08-2017, Change 2 Oklahoma Data Integrity and Secure Stewardship of Personally Identifiable Information (PII): To communicate Oklahoma's guidelines under which Local Workforce Development Boards (LWDBs) must develop and implement procedures for the oversight, monitoring, and review of participant data entered in OKJobMatch.

OWDI 07-2018 Supplemental Information Collection: To provide guidance for the use of supplemental information within the Oklahoma Works workforce development system for the Chief Local Elected Officials (CLEOs) and the Local Workforce Development Boards (LWDBs) in carrying out the performance accountability requirements under WIOA section 116.

OWDI 06-2018 Effectiveness in Serving Employers: To provide guidance for the Effectiveness in Serving Employers requirements within the Oklahoma works workforce development system for the Chief Local Elected Officials (CLEOs) and the Local Workforce Development Boards (LWDBs) in carrying out the performance accountability requirements under WIOA section 116.

OWDI 07-2020 Adult Dislocated Worker Programs: To clarify the coordination of training funds from other grant sources, including Federal Pell grants and other types of grant assistance for education and training services. Clarifications have also been made to the definition of Dislocated Worker Category I; to the Individual Employment Plan section regarding the documentation of case management activities; and to the determination of "unmet need". Finally, information has been added regarding the inability to utilize WIOA funds to pay for the cost of training for individuals who have a Federal Student Loan in default status.

OWDI 16-2017, Change 1 Grievance and Complaint Process: To communicate Oklahoma's instructions for the grievance and complaint process under WIOA.

OWDI 04-2018 Worksite Agreement: To update the Worksite Agreement from WIA to WIOA; provide a standardized three-part Worksite agreement; and allow for the use of an alternative worksite time and attendance report, if applicable.

OWDI 03-2018 Roles and Responsibilities: To communicate the roles and responsibilities of various entities created as a result of the Workforce Innovation and Opportunity Act.

OWDI 13-2017, Change 2 Nondiscrimination EO Policy: To communicate Oklahoma's process and procedures regarding nondiscrimination and equal opportunity procedures.

OWDI 22-2017 Transitional Jobs: To provide guidance to the workforce system on developing Transitional Jobs as a workforce strategy within the title I Adult and Dislocated Worker programs.

OWDI 20-2017 Oklahoma Works Branding: To communicate Oklahoma's common identifier, Oklahoma Works a Proud Partner of the American Job Center Network, and provide guidance on the usage of the Oklahoma Works a Proud Partner of the American Job Center Network brand as part of all external communications.

OWDI 18-2017 Negotiation Performance Goals: To provide Local Workforce Boards the State of Oklahoma's Performance Negotiation process for the WIOA Title I Programs and the Wagner-Peyser Employment Services as amended by Title III.

OWDI 02-2016, Change 2 WIOA Title I Youth Program Guidance: To communicate State youth policy and provide WIOA Title I youth formula program technical guidance on the activities associated with the implementation of WIOA.

OWDI 17-2017 Limited English Language Proficiency: To communicate Oklahoma's process and procedures regarding the prohibition against national origin discrimination as it affects persons with Limited English Proficiency (LEP).

OWDI 09-2020 Eligible Training Provider List: To identify actions that meet requirements for training providers and training program eligibility for the state eligible training provider list, as described in WIOA Section 122 and 20 CFR part 680. WIOA and its regulations established the allowable types of training, including both work-based and classroom instruction, with the goal of ensuring provider performance, job-driven training, informed customer choice, continuous improvement, and cost-effective investment of public funds.

OWDI 11-2017 Change 1 Governor's Oversight & Monitoring Plan: To communicate the Governor's instructions for developing and implementing an Oversight and Monitoring plan for recipients of federally-funded programs and grants administered by the Oklahoma Office of Workforce Development. This issuance also details the Governor's standards for local oversight and monitoring.

OWDI 10-2017 Fiscal, Procurement, and Contracting Policy: To communicate the State policy concerning fiscal requirements, procurement, and contracting.

OWDI 06-2017 MOU Policy: To provide guidance for the local development and execution of Phase I of a Memorandum of Understanding (MOU) with all of the required partners.

OWDI 03-2017 Oklahoma Works One-Stop Operator Procurement Instructions: To communicate Oklahoma's guidance for the procurement and selection of the local Oklahoma works One-Stop Operator under the Workforce Innovation and Opportunity Act.

OWDI 02-2017 Process for Local Area Redesignation within a Region, Consolidation, and/or Creation of a New Local Board: To provide guidance for local workforce development boards intending to redesignate within a region, consolidate, and/or become a new workforce area under WIOA.

OWDI 07-2016, Change 1 Transfer of Formula Funds Policy: To provide staff with specific policy, procedures, and guidelines for the transfer of funds between the Title I Adult and Dislocated Worker Programs of the Workforce Innovation and Opportunity Act.

OWDI 04-2016, Change 1 Local Elected Official (LEO) Consortium Agreement: To provide guidance relating to the LEO Consortium Agreement to ensure the necessary regulatory and operational elements are described, included, and understood.

OWDI 01-2016 Oklahoma Governor's Council for Workforce and Economic Development Policy Issuance Process: To provide a process whereby parties in the workforce development delivery system can have a voice in the issuances of policy and monitoring.

OWDI 07-2015 Process for Identification of Workforce Planning Regions: To provide guidance and process for the identification of Workforce Planning Regions in Oklahoma.

OWDI 06-2015 Process for Existing Local Workforce Development Area Conditional Designation: To provide guidance to current and local workforce areas that did not meet the qualifications for initial designation.

OWDI 04-2015 Workforce Innovation and Opportunity Act (WIOA) Youth Program: To provide staff with guidance on the changes to expenditure requirements, eligibility and program elements under WIOA to the Title I Youth Programs. This policy defines the criteria for the design and parameters of the Title I Youth Program with emphasis on priority of service to out of school youth.

OWDI 02-2015 Local Area Initial Designation: To provide guidance and process for the initial designation of Workforce Development Areas in Oklahoma, along with the process for appealing designation decisions.
State Guidelines for State-Administered One-Stop Partner Programs' Contributions to a One-Stop Delivery System

OWDI 24-2017, Change 1 provides local boards, chief elected officials and one-stop partners with guidance on determining equitable and stable methods of funding infrastructure in accordance with WIOA Sec. 121.

OWDI 24-2017, Change 1 provides:
Definitions for terms and practices commonly associated with infrastructure agreements; A description of the differences between one-stop operating costs specific infrastructure costs; A list of the required one-stop partners with agency or entity information specific to Oklahoma; Options for allocation methodologies; The required aspects of the Infrastructure Funding Agreement; The differences between the Local Funding Mechanism (LFM) and the State Funding Mechanism (SFM) as well as the potential impacts of using either mechanism; Procedures the state will follow if one or more WDAs requires the SFM including, and; Several tools to be used by local boards, chief elected officials, and local one-stop partners while negotiating Infrastructure Funding Agreements using the LFM.

(3) State Program and State Board Overview.

- (A) *State Agency Organization.*** Describe the organization and delivery systems at the State and local levels for the programs covered in the plan, including the organizational structure. Include an organizational chart.
There are four core programs in Oklahoma. The Oklahoma Employment Security Commission (OESC) serves as the Governor's grant recipient and administrative entity

for Oklahoma's WIOA Title I programs: Adult, Dislocated Worker, and Youth. They also manage various discretionary grants and National Emergency Grants (NEG) that have been awarded. Wagner-Peyser is also administered by the OESC. Vocational Rehabilitation is administered by the Oklahoma Department of Rehabilitation Services (DRS), and Adult Education and Family Literacy is administered by the Oklahoma Department of Career and Technology Education (ODCTE).

These core partners work closely together as well as with the State Workforce Development Board - referred to in Oklahoma as the Governor's Council for Workforce and Economic Development (GCWED). The GCWED advises the Governor on workforce priorities and initiatives while also overseeing workforce activities across the state and assisting in the development and implementation of the WIOA State Plan.

OESC provides staffing support for the Governor's Council and its committees, provides technical assistance to four planning regions and six local workforce development boards, and monitors their activities. It is responsible for workforce system planning and policy, and partner and resource development. It coordinates workforce system projects and provides strategic guidance to Local Workforce Development Boards. The office also coordinates Rapid Response activities for the state.

OESC is under the direction of the Governor and the Cabinet Secretary of Workforce Development. An Executive Director directs the office in the day-to-day operations.

Oklahoma's workforce development system is focused on creating the innovation needed to create and retain jobs, to raise the education and skill levels of its citizens, and to connect employers with the workforce they need. Oklahoma's ultimate goal is a comprehensive workforce development system that is fully integrated and accountable.

- (B) *State Board.* Provide a description of the State Board activities that will assist State Board members and staff in carrying out State Board functions effectively. Also, provide a membership roster for the State Board consistent with 20 CFR 679.110-120, including members' organizational affiliations and position titles.

Oklahoma brings together leaders from business, government, education, and non-profit sectors to jointly develop ways to coordinate workforce development with economic development. This is done through Oklahoma's State Workforce Development Board, which is called the Governor's Council for Workforce and Economic Development (GCWED). The GCWED works to develop creative solutions that expand and improve Oklahoma's workforce, providing better jobs for workers and a skilled workforce for business and industry.

The interrelation of agencies within Oklahoma's workforce system starts with the Governor's Council for Workforce and Economic Development. The Governor's Council serves as Oklahoma's lead workforce development entity and its statewide Workforce Innovation and Opportunity Board. The Governor, in accordance with Section 101 of the Workforce Innovation and Opportunity Act, established the State Council as an

advisory body to the Governor, and the body was codified by the Oklahoma Legislature in 2006 (WIA) and in 2015 (WIOA).

The Governor's Council includes private and public sector individuals from all areas of the state that work together to support the governor's economic and workforce development vision, Oklahoma Works. It is business-led with a majority of the members coming from private sector employers with optimum policymaking or hiring authority.

The Governor's Council meets quarterly; however, interaction between its members occurs on a regular basis. Initiatives that involve long-standing partnerships between private companies and public agencies are ongoing. The governor appoints private sector representatives.

The governor establishes terms of appointment or other conditions governing appointment or membership on the council. Members are appointed for staggered terms. Members continue to serve until a replacement is appointed by the Office of the Governor. If vacancies occur during a term of office, the Office of the Governor makes new appointments for the duration of the term. All initial terms of office start on November 1 after receiving notification by letter from the Office of the Governor specifying an explanation of the term structure.

Private and public sector representatives also serve on Governor's Council committees charged with developing and recommending initiatives to enhance and implement Oklahoma's workforce and economic development strategy. Standing committees are: Executive Committee, Workforce System Oversight Committee, and Healthcare Workforce Committee. There are several ad hoc committees including the Youth Program Committee and a Career Pathways Committee and other committees as the need arises. Recommendations are taken to the full Council for action.

Leadership

The chair (appointed by the Governor) of the Governor's Council is longtime Council member Chuck Gray, Director of Strategic Solutions, AMG Engineering and Machining.

The Council also has an Executive Committee, the Workforce System Oversight Committee, the Career Pathways Ad Hoc Committee, and a Healthcare Workforce Committee.

Governor's Council Standing Committees

Executive Committee

Purpose according to the Governor's Council Bylaws: The Executive Committee shall act in place of the Governor's Council only when necessary and with subsequent full board review, action, and ratification. It shall convey to the Governor recommendations posed by the Council, approve the direction of and develop the Strategic Plan, develop the areas for tasks required for committees as warranted, appoint committee composition (Council members and at-large community members) and co-chairs, respond to the needs of the Council and its members, conduct an annual review of the Executive Director, and make staff capacity recommendations.

The Executive Committee is comprised of business members of the Council, including at minimum: the Chair, Vice-Chair, and the Co-Chair (private sector representative)

from each of the Council's committees, excluding those who are non-members of the Council.

Workforce System Oversight Committee

Purpose according to the Governor's Council Bylaws: Makes decisions on program governance, policy and capacity building for the Local Workforce Development Boards and partnerships. The Committee serves as an oversight board and will ensure compliance with WIOA.

Goals/Objectives: **1)** Certify Workforce Development Boards in compliance with the Workforce Innovation and Opportunity Act (WIOA). **2)** Continue designing, aligning and integrating Oklahoma's workforce/talent development and delivery system. **3)** Set system-wide metrics and performance expectations. **4)** Identify and conduct service delivery efficiency pilot projects. **5)** Research and identify operational and organizational strategies that will help make workforce boards stronger and service delivery better. **6)** Develop guidance to make the workforce system more effective and efficient. **7)** Development of the State Plan, and the Annual Report. **8)** Work with regional planning areas to develop planning documents.

Action Items: **1)** Coordinate and ensure support at the local and state level to the state vision. **2)** Through a partner supported subcommittee, provide guidance in the form of policy and technical assistance to ensure compliance to WIOA local areas and designated local planning regions, to ensure statewide metrics and required performance are met. **3)** Convene statewide workforce development partners and local workforce development boards and provide venues and opportunities for continued system building. **4)** Support and facilitation for pilot projects to provide models for the statewide system. **5)** Plan and develop statewide summits for the Local Elected Officials and board members to continue regional planning. **6)** Provide guidance to assist local areas in achieving compliance.

Healthcare Workforce Committee

Purpose according to the Governor's Council Bylaws and Oklahoma Statute: Inform, coordinate and facilitate statewide efforts to ensure that a well-trained, adequately distributed, and flexible healthcare workforce is available to meet the needs of an efficient and effective healthcare system in Oklahoma.

Goals/Objectives: **1)** Statewide health workforce efforts are being coordinated through a single, centralized entity. **2)** Labor demand and program supply for 20 critical healthcare occupations are identified and quantified through the development of a longitudinal, multi-sourced data set that is available for public use. **3)** Strategies are in place to reduce identified supply gaps for 20 critical health occupations. **4)** At least five recommended policies and programs that support and retain an optimized health workforce have been implemented.

Action Items: **1)** Conduct data analysis and prepare reports on health workforce supply and demand. **2)** Research and analysis of state health professional education and training capacity. **3)** Recommend recruitment and retention strategies for areas determined by the Oklahoma Primary Care Office or the Oklahoma Office of Rural Health to be areas of high need. **4)** Assessment of health workforce policy, evaluation of impact on Oklahoma's health system and health outcomes and developing health workforce policy recommendations.

THIS LIST IS CURRENT AS OF SEPTEMBER 30, 2023.

Council Member	Title	Representing
Adams, Terry	Director, OK Aviation Academy	Norman Public Schools
Banks, Brian	Owner/CEO	Providence Home Care
Booker, Stan	Mayor of Lawton, OK	City of Lawton, Office of Mayor
Choquette, Michelle	Chief Human Resource Officer	Gateway First Bank
Coleman, Bill	State Senator	Oklahoma State Senate
Curry, Jimmy	President	AFL-CIO
DeHart, Weston	President	CMS Willowbrook, Inc.
DeLozier, Dan	Rogers Co. Commissioner, D#1	Rogers County
Donica, Gayle	Director, Human Resources	Noble Research Institute
Fruendt, Melinda	Executive Director	OK Dept. of Rehabilitation Services
Fusselman, Christopher	Vice President, Sales	Tyler Media
Gray, Chuck, Chair	Director, Strategic Solutions	AMG Engineering & Machining, Inc.
Hager, Geoffrey	CEO	Big Elk Energy Systems
Haken, Brent	State Director	CareerTech
Hays, Dee	President & CEO	Excellence Engineering, LLC
Hodgen, Gregory	President & CEO	Groendyke Transport Inc.
Huggins, Teresa	CEO	Stigler Health and Wellness Center, Inc.
Kendrix, Gerrid	State Representative	OK House of Representatives
McCabe, Stan	Managing Partner	Key Personnel
McDugle, Kevin	State Representative	OK House of Representatives
Morey, Jenna	Executive Director	ReMerge of Oklahoma County
Rahill, Trae	Executive Director	Oklahoma Employment Security Commission
Regan, Stephanie Vickers	Community Relations Administrator	AAON
Sattar, Tariq	Co-founder & CEO	Anthem Capital Partners
Shepelwich, Steven	Senior Community Affairs Adv.	Federal Reserve Bank of KC-OKC Branch
Smith, Hopper	Interim Executive Director	OK Dept. of Commerce
Stewart, Cliff	Training Director	Electrician's Training Center
Stewart, Dave	Chief Administrator	Oklahoma Ordnance Works Authority (MidAmerica Industrial Park)
Stitt, Gov. J. Kevin or Designee	Governor	State of Oklahoma
Thomas, Jason	Human Resources Manager	Boeing Company
Thompson, Kristen	State Senator	OK State Senate
Thompson, Valerie	Director	Urban League of Greater Oklahoma City, Inc.

Wilcox, Dewayne	Bus. Mgr./Financial Secretary	IBEW Local 1141

(4) Assessment and Evaluation of Programs and One-Stop Program Partners.

(A) *Assessment of Core and One-Stop Program Partner Programs.* Describe how the core programs will be assessed each year based on State performance accountability measures described in section 116(b) of WIOA. Describe how other one-stop delivery system partner program services and Combined State Plan partner programs included in the plan will be assessed each year. This State assessment must include the quality, effectiveness, and improvement of programs broken down by local area or provider. Such state assessments should take into account local and regional planning goals.

The state and local areas will be assessed based on a comparison of the actual performance level with the adjusted level of performance annually. The regional Memorandums of Understanding that are negotiated with each partner will further detail locally-identified requirements for integrated service delivery. Each region will create a plan to measure agreed upon success factors, which will include continuous improvement strategies to ensure high quality customer service at the Oklahoma Works American Job Centers.

(B) *Previous Assessment Results.* For each four-year state plan and state plan modification, provide the results of assessments of the effectiveness of the core programs and other one-stop partner programs and Combined State Plan partner programs included in the Unified or Combined State plan during the preceding 2-year period (i.e. the 2-year period of the plan modification cycle), in accordance with methods described in 4(A). Describe how the State is adapting its strategies based on these assessments.

The State will measure the overall effectiveness of the system as follows:

- The WIOA performance measures applicable to the WIOA Core Partners include measures for education, credentials and progress in education for both youth and adults.

As the state collects the information quarterly, Oklahoma Works will be able to assess the progress of the partners in meeting the State's vision and goals.

- The Governor's Council, including WIOA Core Partners, will establish an annual review of Cabinet and State Workforce Board performance metrics.

- Biennial certification of local workforce boards will assure that the boards are fully appointed and include individuals with optimum policy making authority and expertise providing appropriate oversight and policy guidance to the local system.

- Annual program and fiscal reviews of the seven local boards.
- Monitor expenditure levels of the local areas and the core partners to assure services are flowing to participants.
- Monitor the level of workforce-related complaints which reach state level review.
- Certification of local one-stop centers as required by WIOA.
- Assure the local one-stops are accessible and accommodate individuals with disabilities by monitoring attainment of newly created STAR Accessibility Certification.
- Requiring that Eligible Training Providers provide assurances through their applications for inclusion in the State List of Eligible Training Providers that their facilities are accessible and that reasonable accommodations are made for students as needed.
- Assure continuous improvement strategies are identified through ongoing research and evaluation and implemented at the state and local levels.

The local boards and state partners are very familiar with continuous improvement principles. Results of assessments both positive and negative will be communicated to the local boards and partners. As appropriate, corrective action including plans for improvement will be requested in accordance with continuous improvement principles and evaluated for their likelihood of success. Where performance, programmatic, or fiscal integrity is of concern, the State will communicate directly with the local board chair and the chief elected official.

- (C) *Evaluation.* Describe how the State will conduct evaluations and research projects of activities carried out in the State under WIOA core programs; how such projects will be coordinated with, and designed in conjunction with, State and local boards and with State agencies responsible for the administration of all respective core programs; and, further, how the projects will be coordinated with the evaluations provided for by the Secretary of Labor and the Secretary of Education under WIOA (WIOA Section 116(e)).

Under the authority of the GCWED, OESC will conduct research and evaluation projects in collaboration with WIOA partners and stakeholders including, but not limited to: local workforce development boards, service providers, program participants, impacted advocacy and interest groups, and public. Rigorous, academic-

based methodologies will be applied using, as appropriate, current, and historical programmatic data, formal literature reviews of existing research on pertinent topics, and information gathered through research tools such as surveys, focus groups, interviews, and 96 meetings. Findings will be shared with appropriate DOL representatives, partners, research participants and, if appropriate, the public via OESC's website.

(5) Distribution of Funds for Core Programs. Describe the methods and factors the State will use in distributing funds under the core programs in accordance with the provisions authorizing such distributions.

(A) *For Title I programs*, provide a description of the written policies that establish the State's methods and factors used to distribute funds to local areas for—

(i) Youth activities in accordance with WIOA section 128(b)(2) or (b)(3),

In accordance with WIOA Section 128 (b)(3), the State of Oklahoma uses a discretionary allocation formula to successfully distribute funding for WIOA Title I Youth activities. Using the flexibility prescribed in WIOA enables the state to distribute funding based on required economic data as well as economic data specific to Oklahoma including historically low unemployment rates, regional variations, as well as barriers unique to Oklahoma's workforce.

Upon receipt of the federal Notice of Award (NOA), OESC calculates an 85% minimum amount of the state's total youth allocation to distribute to the designated local Workforce Development Areas (WDAs) in Oklahoma. The following factors and weighted values determine the amount of funding to be awarded to each area for Title I Youth Activities:

Areas of Substantial Unemployment – 23.333%

An Area of Substantial Unemployment (ASU), as defined by WIOA and the Bureau of Labor Statistics is a contiguous geographic area sufficient in size and scope to sustain a program of workforce investment activities, with a population of at least 10,000 and an unemployment rate of at least 6.5%. Oklahoma uses county level data to determine ASUs in Oklahoma.

The number of unemployed individuals with an ASU is summed and weighted calculating the appropriate dollar amount each ASU is to receive. A county that does not meet the criteria for an ASU does not receive funding for this formula factor.

Data Source: Data used to calculate ASUs is sourced by the BLS, Local Area Unemployment Statistics and the United State Census Bureau.

Excess Unemployment – 23.333%

Excess Unemployment is the number of unemployed individuals over 4.5% of the civilian labor force. Oklahoma uses county level data to determine excess unemployment in Oklahoma.

The number of unemployed individuals in excess of the calculated 4.5% in each county is divided by the total number of excess unemployed individuals calculating the appropriate dollar amount each county is to receive. A county that does not have an excess of unemployed individuals does not receive funding for this formula factor.

Data Source: Data used to calculate Excess Unemployment is sourced by the BLS, Local Area Unemployment Statistics.

Disadvantaged Youth – 23.333%

A Disadvantaged Youth is an individual aged 16 through 21 who received an income or is a member of a family that received a total family income, that does not exceed the poverty line or 70 percent of the lower living standard income level. Oklahoma uses county level data to determine the number of Disadvantaged Youth in Oklahoma.

The number of disadvantaged youth in each county is divided by the total number of disadvantaged youth in Oklahoma calculating the appropriate dollar amount each county is to receive. A county that does not have any disadvantaged youth does not receive funding for this formula factor.

Data Source: Data used to calculate Disadvantaged Youth is sourced by the United State Census Bureau as provided by the United States Department of Labor Employment & Training Administration.

Excess Youth Poverty – 30%

The percentage of population for whom poverty status is determined in Oklahoma is historically higher than that of the United States. Due to the significant impact living in poverty has on families and individuals, distributing funds to geographic areas with excessive poverty ensure resources are made available to WDAs who workforce faces additional obstacles.

Excess Youth Poverty is the relative number of individuals, under the age of 18, living below the poverty level in a geographic area in which the percentage of population for whom poverty status is determined is greater than the state's percentage. Oklahoma uses county level data to determine the number of youth living in excess poverty.

The number of excess youth poverty in each eligible county is divided by the total number of excess poverty in all eligible counties across the state calculating the appropriate dollar amount each county is to receive. A county whose percentage of population for whom poverty status is determined less than or equal to the state's percentage does not receive any funding for the final formula factor.

Data Source: Data used to calculate Excess Youth Poverty is sourced by the Unites State Census Bureau.

To calculate the initial formula allocation for each area, the dollar amount calculated for each factor is summed by county then by WDA.

In the event the initial formula allocation determines an area is to receive less than 90% of the average percent share of the previous two year's percent share, the amount needed to increase said area(s) to the 90% minimum will be ratably reduced from those areas whose initial formula allocation is higher than the 90% minimum award. This process ensures award amounts from year

to year do not result in the often extreme fluctuations of unemployment, population, and poverty data. Additional information regarding the methodology for adjusting local area allocations in this fashion is available in OOWD Technical Assistance number TA-02-2016.

In the event the criteria for one or more formula factors prevents the state from distributing funding for said factor(s), an adjustment to the 90% methodology described above is made. Under these circumstances, each area under the 90% minimum's allocation will be raised to meet the minimum. The undistributed balance is then disbursed based on their current percentage of the calculated total.

- (ii) Adult and training activities in accordance with WIOA section 133(b)(2) or (b)(3),

In accordance with WIOA Section 128 (b)(3), the State of Oklahoma uses a discretionary allocation formula to successfully distribute funding for WIOA Title I Adult activities. Using the flexibility prescribed in WIOA enables the state to distribute funding based on required economic data as well as economic data specific to Oklahoma including historically low unemployment rates, regional variations, as well as barriers unique to Oklahoma's workforce.

Upon receipt of the federal NOA, OESC calculates an 85% minimum amount of the state's total adult allocation to distribute to the designated local WDAs in Oklahoma. The following factors and weighted values determine the amount of funding to be awarded to each area for Title I Adult Activities:

Areas of Substantial Unemployment – 23.333%

An ASU, as defined by WIOA and the Bureau of Labor Statistics is a contiguous geographic area sufficient enough in size and scope to sustain a program of workforce investment activities, with a population of at least 10,000 and an unemployment rate of at least 6.5%. Oklahoma uses county level data to determine ASUs in Oklahoma.

The number of unemployed individuals with an ASU is summed and weighted calculating the appropriate dollar amount each ASU is to receive. A county that does not meet the criteria for an ASU does not receive funding for this formula factor.

Data Source: Data used to calculate ASUs is sourced by the BLS, Local Area Unemployment Statistics and the United State Census Bureau.

Excess Unemployment – 23.333%

Excess Unemployment is the number of unemployed individuals over 4.5% of the civilian labor force. Oklahoma uses county level data to determine excess unemployment in Oklahoma.

The number of unemployed individuals more than the calculated 4.5% in each county is divided by the total number of excess unemployed individuals calculating the appropriate dollar amount each county is to receive. A county that does not have an excess of unemployed individuals does not receive funding for this formula factor.

Data Source: Data used to calculate Excess Unemployment is sourced by the BLS, Local Area Unemployment Statistics.

Disadvantaged Adults – 23.333%

A Disadvantaged Adult is an individual aged 22 through 72 who received an income, or is a member of a family that received a total family income, that does not exceed the poverty line or 70 percent of the lower living standard income level. Oklahoma uses county level data to determine the number of Disadvantaged Adults in Oklahoma.

The number of disadvantaged adults in each county is divided by the total number of disadvantaged adults in Oklahoma calculating the appropriate dollar amount each county is to receive. A county that does not have any disadvantaged adults does not receive funding for this formula factor.

Data Source: Data used to calculate Disadvantaged Adults is sourced by the United State Census Bureau as provided by the United States Department of Labor Employment & Training Administration.

Excess Adult Poverty – 30%

The percentage of population for whom poverty status is determined in Oklahoma is historically higher than that of the United States. Due to the significant impact living in poverty has on families and individuals, distributing funds to geographic areas with excessive poverty ensure resources are made available to WDAs who workforce faces additional obstacles.

Excess Adult Poverty is the relative number of individuals, aged 18 to 64, living below the poverty level in a geographic area in which the percentage of population for whom poverty status is determined is greater than the state's percentage. Oklahoma uses county level data to determine the number of adults living in excess poverty.

The number of excess adult poverty in each eligible county is divided by the total number of excess poverty in all eligible counties across the state calculating the appropriate dollar amount each county is to receive. A county whose percentage of population for whom poverty status is determined less than or equal to the state's percentage does not receive any funding for the final formula factor.

Data Source: Data used to calculate Excess Adult Poverty is sourced by the United State Census Bureau.

To calculate the initial formula allocation for each area, the dollar amount calculated for each factor is summed by county then by WDA.

In the event the initial formula allocation determines an area is to receive less than 90% of the average percent share of the previous two year's percent share, the amount needed to increase said area(s) to the 90% minimum will be ratably reduced from those areas whose initial formula allocation is higher than the 90% minimum award. This process ensure award amounts from year to year do not result in the often extreme fluctuations of unemployment, population, and poverty data. Additional information regarding the

methodology for adjusting local area allocations in this fashion is available in OOWD Technical Assistance number TA-02-2016.

In the event the criteria for one or more formula factors prevents the state from distributing funding for said factor(s), an adjustment to the 90% methodology described above is made. Under these circumstances, each area under the 90% minimum's allocation will be raised to meet the minimum. The undistributed balance is then disbursed based on their current percentage of the calculated total.

- (iii) Dislocated worker employment and training activities in accordance with WIOA section 133(b)(2) and based on data and weights assigned. In accordance with WIOA Section 133(b)(2), Oklahoma uses a six factor formula to distribute funding for WIOA Title I Dislocated Worker activities. The formula factors use available data that most accurately describes the economic status and need for dislocated worker funding across Oklahoma.

Upon receipt of the federal NOA, the OESC calculates a 60% minimum amount of the state's total dislocated worker allocation to distribute to the designated local WDAs through the state. The following factors and weights values determine the amount of funding to be awarded to each area for Title I Dislocated Worker activities:

Unemployment Insurance – 25%

Unemployment Insurance, as a formula factor, is an average of the number of allowed unemployment claims filed over a 12-month period in a geographic area. Oklahoma uses county level data to determine the number of allowed unemployment claims filed.

The average number of unemployment claims filed over a 12-month period in each county is divided by the total average number of unemployment claims filed over a 12-month period calculating the appropriate dollar amount each county is to receive.

Data Source: Data used to calculate Unemployment Insurance is sourced by the Oklahoma Employment Security Commission.

Long-Term Unemployment – 20%

Long-term unemployment is the number of individuals who have been unemployed for 15 weeks or more in each county in relation to the number of individuals who have been unemployed for 15 weeks or more across the state. Oklahoma uses county level calculations to determine the number of long-term unemployment in Oklahoma.

The number of long-term unemployed individuals calculated for each county is divided by the total number of long-term unemployed individuals in the state determining the appropriate dollar amount each county is to receive.

Data Source: Data used to calculate Long-term Unemployment is sourced by the Bureau of Labor Statistics.

Unemployment Concentrations – 20%

Unemployment Concentrations, as a formula factor, is the number of unemployed individuals in each county in relation to the number of unemployed individuals across the state, above the state's unemployment rate.

The number of unemployed individuals in each county with an unemployment rate above the state's is divided by the total number of individuals calculating the appropriate dollar amount each county is to receive.

Data Source: Data used to calculate Unemployment Concentrations is sourced by the Bureau of Labor Statistics, Local Area Unemployment Statistics.

Declining Industries – 15%

Declining Industries data shows consistent job loss, within industry clusters, in a geographic region. Oklahoma uses county level data to calculate Declining Industries.

The number of jobs lost in each county is divided by the total number of jobs lost across the state calculating the appropriate dollar amount each county is to receive. A county that experience overall job growth, instead of loss, does not receive funding for this formula factor.

Data Source: Data used to calculate Declining Industries is sourced by the Oklahoma Employment Security Commission.

Farmer/Rancher Economic Hardship – 20%

Farmer/Rancher Economic Hardship is an even split of two key agriculture economic indicators: Net Cash Farm Income and Hired Farm Labor. Oklahoma uses county level data to calculate Farmer/Rancher Economic Hardship.

Net Cash Farm Income, as a formula factor, is any negative change in income between the most current Census of Agriculture and the previous Census of Agriculture. The change in income for each county with a negative change is divided by the total negative change in the state to calculate the appropriate dollar amount each county is to receive.

Hired Farm Labor, as a formula factor, is any negative change in the number of hired farm workers between the most current Census of Agriculture and the previous Census of Agriculture. The change in works in each county with a negative change is divided by the total negative change in the state to calculate the appropriate dollar amount each county is to receive.

Data Source: Data used to calculate Farmer/Rancher Economic Hardship is sourced by the United States Department of Agriculture, Census of Agriculture.

Mass Layoff – 0%

Mass layoff data is no longer available through the Bureau of Labor Statistics and the state does not track or report on this information. Therefore, the final formula factor is weighted at zero (0) and no funding is distributed for Mass Layoff data.

To calculate the initial formula allocation for each area, the dollar amount calculated for each factor is summed by county then by WDA.

In the event the initial formula allocation determines an area is to receive less than 90% of the average percent share of the previous two year's percent share, the amount needed to increase said area(s) to the 90% minimum will be ratably reduced from those areas whose initial formula allocation is higher than the 90% minimum award. This process ensure award amounts from year to year do not result in the often extreme fluctuations of unemployment, population, and poverty data. Additional information regarding the methodology for adjusting local area allocations in this fashion is available in OOWD Technical Assistance number TA-02-2016.

Due to the differences and fluctuations in federal, state and local economic and unemployment situations the Governor will, if necessary, adjust the formula no more than once per program year to ensure that dislocated worker funding is awarded based on the most relevant circumstance and data in relation to the period of time for which the data is analyzed.

(B) *For Title II:*

- (i) Describe the methods and factors the eligible agency will use to distribute title II funds. Oklahoma has grouped each of its 77 counties into six Local Workforce Development Boards. ODCTE staff will determine an allocation amount for each Oklahoma county within the Workforce Development Areas by using demographic data. This allocation for each county will include the number of eligible individuals within each county. This will include population, eligible individuals 18-24 years of age that do not have a high school diploma or its recognized equivalent, and eligible individuals 25+ years of age that do not have a high school diploma or its recognized equivalent. A formula will be determined using these variables to determine an allocation amount for each county. Applicants will select which counties that they would like to serve. Eligible providers will compete for the allocation of their selected counties. Multiple providers may be granted an allocation within a specific county, and the allocation will be divided between those providers within that specific county. Multiple service providers may be selected within a county based on funding requested on dollars available.

Eligible providers will determine a budget for providing services in the counties requested and the ODCTE will evaluate these budgets. Negotiations will occur when more than one eligible provider is determined for a specific county.

Eligible provider means an organization that has demonstrated effectiveness in providing adult education and literacy activities. This may include the following:

- Local education agency;
- Community-based or faith-based organization;

- Volunteer literacy organization;
- Public housing authority;
- Institution of higher education;
- Public or private nonprofit organization;
- Library;
- Partnership between an employer and an entity previously described;
- Nonprofit institution that is not previously described and has the ability to provide adult education and literacy activities to eligible providers;
- Consortium or coalition of the agencies, organizations, institutions, libraries, or authorities previously described.

Awards may be based on multiple factors including reasonableness of the budget relative to the service area, quality of the eligible provider application, past performance including Measurable Skill Gain attainment relative to the state performance target, expected number of individuals to be served, workforce board recommendations, previous year allocation, past expenditures, and results from the pre-award risk assessment. The review panel will be comprised of both ODCTE and non-ODCTE individuals with expertise in areas related to adult education and family literacy. The review panel will review these factors and based on this information and allocation available for each Workforce Development Area. The ODCTE may decide to hold an additional grant competition for all or specific counties within the state based on the quality of the applications and to ensure equitable access of service offerings to eligible individuals. If there are unrequested portions of funds in a service area, the ODCTE may elect to redistribute those funds to other areas of need in the state. The ODCTE may also choose to reopen a competition for a specific unserved county. Priority will be given to those areas in the same region of where the unrequested funds came from.

The amount received by eligible recipients will be held steady for two years. After this period, allocation amounts for eligible provider will be determined using a formula that accounts for the eligible individuals within a county, performance of the service provider, and provider need.

In January 2022, the Oklahoma Department of Career and Technology Education held a competition to award funds in a multi-year competition for Adult Education & Family Literacy grants, Integrated English and Literacy and Civics Education (IELCE) grants, and Correctional Education grants. ODCTE hosted separate grant competition using three different RFP applications for each of those programs. Eligible agencies will have the option of applying for one or more these grants; however, they are not required to apply for all of the competitions. The RFP applications were due February 15, 2022. Eligible agencies had the option to apply for one or more counties in the Adult

Education & Family Literacy grants. For each competition, the same grant application and process will be used by all eligible applicants.

The ODCTE will fund Integrated English Literacy and Civics Education (IELCE) in conjunction with Integrated Education and Training (IET) activities. Components funded within this program are adult education and literacy activities, workforce preparation activities, and workforce training. An eligible recipient for either the IELCE or the Corrections Education grants do not have to be a recipient of the Adult Education & Literacy Education grant. Both IELCE and Corrections Education grants may or may not mirror that of the Adult Education & Literacy counties served.

The application will contain the local application criteria listed within Section 232 and the 13 considerations listed in Section 231(e) of the Workforce Innovation and Opportunity Act Title II Adult Education and Literacy.

To demonstrate past effectiveness, eligible providers will provide performance data on its record of improving the skills of eligible individuals, particularly eligible individuals who have low levels of literacy, in the content domains of reading, writing, mathematics, and English language acquisition. An eligible provider must also provide information regarding its outcomes for participants related to employment, attainment of secondary school diploma or its recognized equivalent, and transition to postsecondary education and training. There are two ways in which an eligible provider may meet these requirements:

- (1) An eligible provider that has been funded under Title II of the Act must provide performance data required under Section 116 to demonstrate past effectiveness.
- (2) An eligible provider that has not been previously funded under Title II of the Act must provide performance data to demonstrate its past effectiveness in serving basic skills deficient eligible individuals, including evidence of the following: Reading, Writing, Mathematics, and English language acquisition. Other subject areas relevant to the outcomes for participants including Employment, Attainment of secondary school diploma or its recognized equivalent, and Transition to postsecondary education and training.

The ODCTE will review each application to determine if the applicant has demonstrated effectiveness and will conduct a pre-award risk assessment for each eligible applicant. Local workforce development boards will review applications to determine alignment of the applications with their local plans and provide recommendations to the ODCTE. Applications will include criteria on how the eligible provider describes the steps to take to ensure equitable access to, and participation in, their federally assisted program for students,

teachers, and other program beneficiaries with special needs. The criteria will include how the applicant proposes to prevent barriers from occurring that can impede equitable access or participation for: gender, race, national origin, color, disability, or age. (Section 427 of GEPA)

A rubric will be developed, and the evaluation criteria will include the 13 considerations in 231(e) of the Workforce Innovation and Opportunity Act Title II Adult Education and Literacy, as well as other components deemed necessary to review the application.

The award cycle for all grants will be four years. Awards will be given for program years 2024-2025, and 2025-2026. The next grant competition will be held in January 2026. Priority will be given to programs offering IET activities.

- (ii) Describe how the eligible agency will ensure direct and equitable access to all eligible providers to apply and compete for funds and how the eligible agency will ensure that it is using the same grant or contract announcement and application procedure for all eligible providers.

Eligible providers will apply for the Adult Education and Literacy Education grant, Integrated English Literacy & Civics Education (IELCE) grant, and Correctional Education grant through the Oklahoma Department of Career and Technology Education (ODCTE). ODCTE will ensure that all parties potentially interested in the grant shall have direct and equitable access to apply for one or more of the grants. Notification of the RFP will first occur on the ODCTE website. Core WIOA partners and one-stop partners will also be notified when the RFP is published on the website. The application will be available as a fillable document that can be downloaded from the ODCTE website. The completed application will be emailed to the ODCTE Adult Education & Family Literacy Division at abe@careertech.ok.gov. The ODCTE staff will notify the applicant within two business days that the ODCTE has received the application. Each applicant will complete the same application and submit their application through the same process. This will ensure direct and equitable access to all eligible providers.

Only applications determined to be complete and from an eligible provider of “demonstrated effectiveness” will be evaluated and scored by a review panel. The review panel will be comprised of both ODCTE and non-ODCTE individuals with expertise in areas related to adult education and family literacy. A review panel will review and score each application using a rubric and consistent review procedures ensuring an equitable review process.

- (C) *Vocational Rehabilitation Program:*

In the case of a State that, under section 101(a)(2)(A)(i) of the Rehabilitation Act designates a State agency to administer the part of the Vocational Rehabilitation (VR) services portion of the Unified or Combined State Plan under which VR services are provided for individuals who are blind, describe the process and the factors used by

the State to determine the distribution of funds among the two VR agencies in the State.

The Oklahoma Department of Rehabilitation Services (OKDRS) is the single Designated State Agency for these funds and is a combined agency, no distribution is required.

(6) Program Data

(A) *Data Alignment and Integration.* Describe the plans of the lead State agencies with responsibility for the administration of the core programs, along with the State Board, to align and integrate available workforce and education data systems for the core programs, unemployment insurance programs, and education through postsecondary education, and to the extent possible, the Combined State Plan partner programs included in this plan. The description of the State's plan for integrating data systems should include the State's goals for achieving integration and any progress to date. Describe data-collection and reporting processes used for all programs and activities, including the State's process to collect and report data on co-enrollment, and for those present in the one-stop centers.

- (i) Describe the State's plans to make the management information systems for the core programs interoperable to maximize the efficient exchange of common data elements to support assessment and evaluation. OESC, operating Title I and Title III programs, uses one case management/reporting system that uses real time data across programs to prevent duplication of services, tracks program services and calculates integrated performance data while DRS (Title IV) and OCTAE (Title II) each have their own systems meeting specific organizational and programmatic requirements. Oklahoma has made strides in developing more integrated information access through collaboration with DRS resulting in a process for flat file transfer of data that allows for wage matching and performance reporting as required by WIOA. In the coming year, the Title II program will also complete this process for transferring data between respective case management systems to allow for improved ease of reporting performance. For many years, Oklahoma has recognized the impact of the one system/ common intake approach to service delivery.

Now, more than ever before, the state is positioned to move ahead...meet six (6) 'success factors for effective workforce development owner' of Governor Stitt's Workforce Transformation Task Force Report published in April of 2023: 1) **Authority.** Ability to set strategic objectives and deploy resources accordingly improves efficiency and effectiveness. 2) **Accountability.** Leveraging performance-based funding and reporting improves efficiency and effectiveness. 3) **Coordination.** An owner entity coordinating key functions such as execution and information management improves efficiency and effectiveness. 4) **Information.** A single point of contact for all information and data about workforce in the state ensures a single, shared source of truth for the system, improving efficiency and effectiveness. 5) **Agility.** Ability to quickly respond to stakeholder feedback and changing circumstances enhances responsiveness, improving efficiency and effectiveness. 6) **Durability.** The owner should provide continuity and

be effective over time, across changing leadership in the state and in its own organization.

- (ii) Describe the State's plans to integrate data systems to facilitate streamlined intake and service delivery to track participation across all programs included in this plan.

Oklahoma is committed to the goals of eliminating duplication of services and addressing the needs of common intake and case management. The core partners are working to increase the exchange of data to the maximum extent possible. Data sharing MOUs address the use of wage record data to successfully comply with WIOA performance accountability measures and state indicators of performance. Integrated information access providing real-time data was recently developed to provide a platform for linking data across core partners. The WIOA Core Partners including the GCWED will continue integration efforts for intake, performance, and reporting, adding to the collaboration team the newly formed Oklahoma Workforce Commission (OWC). Oklahoma expects to report advances in this area by the time of the WIOA State Plan Two-Year Modification.

- (iii) Explain how the State board will assist the governor in aligning technology and data systems across required one-stop partner programs (including design and implementation of common intake, data collection, etc.) and how such alignment will improve service delivery to individuals, including unemployed individuals.

Oklahoma is dedicated to developing a roadmap toward greater data alignment and integration of participant and performance data across core programs with the ultimate goal of providing effective and efficient services that leads to the participants' credential attainment and employment. The development and implementation of a data system that will allow the sharing of participant information and services across core programs will make benchmarking a reality.

Under the current Governor's administration, technology modernization is a priority. Over the past few years, Oklahoma has worked with the State Regents for Higher Education, the State Department of Education, the Oklahoma Department of Career and Technology Education, the Oklahoma Employment Security Commission, the Department of Rehabilitation Services, and the Oklahoma Office of Management and Enterprise Services to develop plans for data connectivity. Effective collection and utilization of education, workforce, and economic data is essential to Oklahoma's ability to decrease the gap between labor supply and demand. The state is exploring how the newly formed Oklahoma Workforce Commission can help further technology and data system alignment goals.

Integrated information access was recently developed to provide a platform for linking data across data-generating agencies, necessary to improve data

collection and dissemination, and to inform and support the strategies of the Governor's Council. Existing WIOA formula funds can be used, at the Governor's discretion, to assist with data collection and research projects at the state and local levels that are conducted and/or guided by the Governor's Council.

Representatives from all WIOA core programs, Title I, Adult Basic Education, Department of Rehabilitation Services, and The Oklahoma Employment Security Commission, have all participated in workgroups, with representatives meeting with State Board staff either collectively or program to program. To date, the workgroup has done all of the following:

- Exchanged information about common data elements that support assessment and evaluation.
- Exchanged information about data systems in-use and extant performance reporting processes.
- Shared information on WIOA performance metrics, reporting requirements, regulations, and guidelines.

- (iv) Describe the State's data systems and procedures to produce the reports required under section 116, performance accountability system. (WIOA section 116(d)(2)).

The State is working to re-establish a WIOA Data Group which will be affiliated with the newly formed Oklahoma Workforce Commission and in alignment with the GCWED and the Local Workforce Development Boards all working together with one (1) common goal: To ensure compliance of WIOA section 116 (D) (2) is maintained, processes are streamlined, and public "dashboard-style" metrics are agreed upon as we further refine "How do we know we've had a good day?"

OESC: OESC Title I and Title III programs utilize America's Job Link Alliance - Technical Support (AJLA- TS) which provides Oklahoma with a vendor hosted management information system, OKJobMatch. OKJobmatch houses data collecting applications: **1) JobLink** – a self-service labor exchange system that provides job matching and workplace information service for employers and job seekers. Job seekers can establish an account to manage their job search activities, register with labor exchange activities, and explore career pathways utilizing the O*NET system to deliver highly relevant and precise job and resume matches. Employers can establish an account to manage job openings and view job seeker resumes. Staff can create and manage job orders on behalf of employers. **2) ServiceLink** – a client management application that allows case managers to track their caseload and report information required under Labor Exchange, Re- Employment Services, WIOA, TAA (TRA Adjustment Act) and other federal programs. It provides the ability to manage eligibility, maintain program registration, maintain enrollment records, store required and relevant documentation, and provides staff a standardized process for following participants through the workforce development system network. It fully supports all state and federal program, grant, and reporting requirements. **3) ProviderLink** – provides the integrated statewide Eligible

Training Provider (ETP) list, allowing training providers and providers of youth services to create and manage self-service accounts, allows local area and state review processes of ETP eligibility requests, and provides federal program reporting requirements. **4) FiscalLink** – provides an integrated fiscal management system to provide a real-time fiscal system for one-stop case management. Allowing participant and vendor financial management, accruals, payments, and fiscal reports. The State is increasingly utilizing this information to determine costs for services and returns on investment for the public workforce system. **5) Tableau** – a web-based, comprehensive workforce program data management system that allows OESC the ability to validate data and resolve and identified errors prior to submitting quarterly and annual performance reports to the Department of Labor (DOL). ReportLink is updated as needed to implement new edit checks and logic rules development by the Departments. Each data collection application is compliant with WIOA Section 116 which requires the establishment and operation of a fiscal and management accountability information system based on guidelines established by the Secretaries of Labor and Education.

OESC also works with AJLA-TS to ensure that data is collected in accordance with WIOA Section 116 and The Participant Information Record Layout (PIRL) established by the Secretaries of Labor and Education. AJLA-TS provides the appropriate PIRL files for WIOA Title I Adult, Dislocated Worker, Youth, and Discretionary Grants. Title I utilizes ReportLink to verify the data and verify any errors present within the data, once errors are corrected and data is verified the files are then uploaded and submitted to the Department of Labor.

OCTAE: Adult Basic Education at the Oklahoma Career & Technical Education (OCTEA) currently utilizes LACES (Literacy, Adult and Community Education System) by LiteracyPro Systems, a developer of data management systems for the public and nonprofit sectors. LACES is an online student data management software with the capability of generating daily reports. Engineered for providers of literacy, Adult Basic Education (ABE), and correctional education programs, LACES allows case managers to easily set baselines, track program progress, student goals, and deliver results and streamline data reporting to state and federal agencies. ODCTE anticipates quarterly reports to local WDBs to demonstrate performance for decision making.

OKDRS: The Oklahoma Department of Rehabilitation Services (OKDRS) is utilizing the AWARE case management system by Alliance Enterprises. Alliance Enterprises, Inc. maintains the case management system used by more than 35 Vocational Rehabilitation state agencies throughout the country. In addition to serving as a tool for managing services for vocational rehabilitation programs under Title IV of the WIOA, it also produces reports to meet the reporting requirements of the U.S. Department of Education, Rehabilitation Services Administration.

Planning Note: States should be aware that Section 116(i)(1) requires the core programs, local boards, and chief elected officials to establish and operate a fiscal and management accountability information system based on guidelines established by the

Secretaries of Labor and Education. States should begin laying the groundwork for these fiscal and management accountability requirements, recognizing that adjustments to meet the elements above may provide opportunity or have impact on such a fiscal and management accountability system.

- (B) Assessment of Participants' Post-Program Success. Describe how lead State agencies will use the workforce development system to assess the progress of participants who are exiting from core programs in entering, persisting in, and completing postsecondary education, or entering or remaining in employment. States may choose to set additional indicators of performance.

The core workforce partners will utilize the WIOA Performance Measures for the Core Programs to monitor and improve all WIOA core programs. These performance measures include Employment (Second Quarter and Fourth Quarter after Exit), Median Earnings, Credential Attainment Rate, Measurable Skill Gains, and Effectiveness in Serving Employers. Performance for each of these measures will be segmented by Adults, Dislocated Workers, Youth, Adult Education, Wagner-Peyser, and Vocational Rehabilitation. State and local workforce boards will utilize these performance measures in measuring the progress of the core partners in their area. These measures will assist Oklahoma in determining the effectiveness of its workforce development system and allow the state to continuously improve this system.

The state will use the Eligible Training Provider (ETP) system to monitor the completion and employment rate of all participants receiving training services through the workforce system. The ability to review educational programs to ensure that participants are becoming employed in the occupations in which they are trained will assist both the educational system and the workforce system in determining the effectiveness of the training programs being developed and offered in our state. Programs eligible to receive workforce funding for the training of participants will be reviewed on a bi-annual basis and the programs not meeting performance levels set by the state will be removed.

- (C) Use of Unemployment Insurance (UI) Wage Record Data. Explain how the State will meet the requirements to utilize quarterly UI wage records for performance accountability, evaluations, and as a source for workforce and labor market information, consistent with Federal and State law. (This Operational Planning element applies to core programs.)

The state is currently working on MOUs with core partners as well as reviewing state statutes to allow for data sharing among core partners. Some agreements have been made while others are in process. Although agreements have not been made with all partners, Oklahoma has used UI wage records for many years for performance accountability and for labor market information. Currently, wage records are used to calculate performance measures for Title I and Title III programs as prescribed in WIOA.

- (D) Privacy Safeguards. Describe the privacy safeguards incorporated in the State's workforce development system, including safeguards required by section 444 of the General Education Provisions Act (20 U.S.C. 1232g) and other applicable Federal laws. Data security and privacy is key to ensuring Oklahoma statewide core partner operations are available as authorized to share vital data that is necessary for WIOA and Oklahoma Works partner activities.

The State of Oklahoma consolidated data and operational systems and provides a centralized CyberCommand Security Operations Center within the Office of Management and Enterprise Services Information Services (OMES IS) that protects workforce systems from cyber threats. Automated tools assist with protecting the network. OMES IS ensures that all workforce systems provide security authorization and user authentication. The data retention policies are required by the Oklahoma Records Management Act for agencies to identify, and adopt a records retention schedule for the retention of documents and data following state and federal mandates. Due to the nature of consolidated operations the state adheres to the U.S Department of Defense standards for data protection and end of life destruction.

The privacy requirements for Family Educational Rights and Privacy Act (FERPA) outlined in section 444 of the General Education Provisions Act (20 U.S.C. 1232g) are enforced through role based user operations that ensure separation of duties and data disclosure. The state mandates the local system staff must be compliant and must sign state confidentiality agreements following data security training. All data sharing agreements and Memorandum of Understanding (MOU) documents are strictly enforced and utilized for all data sharing.

Aggregated data is used to ensure user privacy unless approved agreements allow for participant data that support workforce or education operational and reporting needs. To further protect personally identifiable information collected in WIOA, Unemployment Insurance (UI), and statewide reporting or operational systems including OKJobMatch and ServiceLink, have implemented state level security measures. These include limiting and logging physical access to database servers, 128-byte encryption, SSL and individual password protection to guard against unauthorized access as mandated by state laws and guidelines enforced by OMES.

(7) Priority of Service for Veterans.

- (A) Describe how the State will implement the priority of service provisions for covered persons in accordance with the requirements of the Jobs for Veterans Act, codified at section 4215 of 38 U.S.C., which applies to all employment and training programs funded in whole or in part by the Department of Labor.
- (B) Describe how the State will monitor priority of service provisions for veterans.
- (C) Describe the triage and referral process for eligible veterans and other populations determined eligible to receive services from the Jobs for Veterans State Grants (JVSG) program's Disabled Veterans' Outreach Program (DVOP) specialist/Consolidated Position.

In Oklahoma, veterans and others eligible for services under Jobs for Veterans State Grants (JVSGs) are identified at various points of entry into Oklahoma's workforce

development system. All customers so identified receive priority of service. Through an assessment process using a state provided military registration checklist designed to determine significant barriers to employment, eligible veteran customers at Workforce Centers determined to have significant barriers to employment or designated as eligible by the U.S. Department of Labor are referred for services to a Disabled Veterans Outreach Program Specialist (DVOP) when and where available. Those veterans served at Centers lacking an assigned DVOP, or if the DVOP is not available, are referred to other Workforce Center staff for services. Workforce Centers are also required to have a flowchart describing the process for veteran customers being served and how a significant barrier to employment is determined and if eligible, when the veteran is referred to the DVOP for services. When veterans are registered in OKJobMatch, the state job match and case management system, Workforce Center staff can identify those significant barriers to employment for referral to DVOPs.

All local office staff and workforce system partners performing labor exchange through the current Oklahoma electronic workforce system are required to provide veterans and other eligible persons with priority of service. Close monitoring through system reports, field visits, and training is conducted to ensure legislative requirements for veterans are followed. Additionally, all Local Workforce Development Boards (LWDBs) are required by state policy OETI-25-2009 (Oklahoma Employment and Training Issuance) to ensure that priority of service is applied throughout their respective service delivery systems, including service delivery points maintained by all sub-recipients. The State priority of service policy obligates LWDBs to monitor local service delivery operations to ensure that their internal policies and procedures result in compliance with the priority of service requirements. Furthermore, OETI-25-2009 requires LWDBs to have policy and procedures in place for priority of service for veterans in their area.

The State assures that veterans and others eligible for JVSG-funded services will be afforded employment and training activities authorized in section 134 of the Workforce Innovation and Opportunity Act, and the activities authorized in Chapters 41 and 42 of Title 38 U.S.C. The State assures that it will comply with the Priority of Service for Veterans established in the Job for Veterans Act (Public Law 107-288). The State and the Veterans Employment and Training Service have a memorandum of understanding to ensure services will be provided to veterans as described in Title 38 U.S.C., Chapters 41, 42 and 43; at 20 CFR Chapter IX, CFR, codified at 20 CFR 1001, 100; and all applicable Training and Employment Guidance Letters (TEGLs) and Veterans' Program Letters (VPLs).

All four workforce regions follow TEGL 10-09 and TEGL 19-16 regarding Priority of Service for Veterans. Oklahoma's Adult and Dislocated Worker Policy, OWDI 19-2017 provides guidance for the Priority of Services for Veterans and Eligible Spouses in accordance with TEGL 19-16.

A special committee, OKMilitaryConnection, was formed in prior years consisting of cross agency members from OESC (Title I and III), ODCTE, Oklahoma Department of Veterans Affairs, and the Oklahoma National Guard, who worked on various efforts to coordinate services and to plan hiring events for returning military personnel and their families.

The State continues its collaboration with employer councils, trade associations, the State Chamber, local chambers, state and federal agencies and education/training providers to connect transitioning service members, veterans and other eligible persons with quality training and employment. Efforts with Oklahoma's ODCTE technology centers, community colleges, and four-year institutions to develop fast-track credentialing and degree programs that offer credit for experience gained during military service continue and the Oklahoma Workforce Commission and GCWED will be partners in future endeavors.

- (8) Addressing the Accessibility of the One-Stop Delivery System for Individuals with Disabilities. Describe how the one-stop delivery system (including one-stop center operators and the one-stop delivery system partners), will comply with section 188 of WIOA (if applicable) and applicable provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) regarding the physical and programmatic accessibility of facilities, programs, services, technology, and materials for individuals with disabilities. This also must include a description of compliance through providing staff training and support for addressing the needs of individuals with disabilities. Describe the State's one-stop center certification policy, particularly the accessibility criteria.

Access for All Initiative

The Access for All initiative within Oklahoma Works places a focus on recruitment, hiring, and promotion of individuals with disabilities in the state of Oklahoma's workforce. Access for All focuses on the Oklahoma Works system partners as well as employers in the state. This initiative provides training, consulting, and resources to ensure that individuals with disabilities are intentionally included in efforts to achieve greater household wealth for Oklahomans.

Access for All equips Oklahoma's Workforce System with knowledge and resources to make it more accessible to individuals with disabilities that utilize one-stop system programs in person, on the phone, or through the web. In 2021, The Star Accessibility Framework was implemented that operationalizes the Access for All system strategy by providing an assessment tool for the continuous improvement of the workforce system in the areas of customer service, training, outreach, and physical accessibility. The Star Accessibility Framework Rubric is designed to be a tool in support of continuous improvement at American Job Centers and system efforts including but not limited to center certification and strategic planning. In Phase I of implementation of the Star Accessibility Framework, local workforce development areas conducted an initial assessment of centers.

Oklahoma Works center staff routinely refer individuals with disabilities to the DSA for more intensive training and job placement opportunities.

DSA has six certified Social Security Administration (SSA) Work Incentive Counselors working and rotating between the Workforce Centers and DSA offices. Staff collaborates to assist job seekers receiving SSA benefits, specifically when referred by center staff. A DSA Benefits Planner will explain the importance of working at the highest possible level and above SSA's Substantial Gainful Activity benchmark. Job-seekers are provided general information concerning the impact of work on SSA disability benefits. Upon applying for VR services, these individuals would then also receive detailed reports illustrating the impact of work on other benefits and services the individual may be receiving, such as TANF, SNAP, UI compensation, Veteran's benefits, etc. DSA Benefits Planners address concerns of individuals with disabilities

about the possibility of losing benefits and help them understand and maximize their work incentives.

Business and Employer Outreach Oklahoma's Workforce System recognizes opportunities to reach Oklahoma's businesses and employers with a powerful message of Access for All. Through relationships old and new, DSA and OKABT lead the workforce partners in working to arrange and deliver training to businesses and employers that will reduce their hesitation to hire job seekers with disabilities and to identify ways to educate about the benefits of directly recruiting and hiring job seekers with disabilities.

DSA utilizes its ADA Coordinator as a resource to provide consultation, technical assistance, and site reviews to identify accessibility issues to all workforce system partners and other agencies, entities, and businesses and employers. These services are available in order to advance the promotion of equal access for individuals with disabilities in programs, services, and buildings statewide.

- (9) Addressing the Accessibility of the One-Stop Delivery System for Individuals who are English Language Learners. Describe how the one-stop delivery system (including one-stop center operators and the one-stop delivery system partners) will ensure that each one-stop center is able to meet the needs of English language learners, such as through established procedures, staff training, resources, and other materials. Describe how English language learners will be made aware of the opportunity to enroll and/or co-enroll in all the core programs for which they are eligible.

The one-stop delivery system will meet the needs of English Language Learners through a variety of methods.

OESC complies with Section 188 of the Workforce Innovation and Opportunity Act of 2014 (WIOA) [29 CFR 38]. National origin discrimination includes Limited English Proficient individuals under 29 CFR Section 38.9 and specifically states that in providing any aid, benefit, service, or training under a WIOA title I-financially assisted program or activity, a recipient must not, directly or through contractual, licensing, or other arrangements, discriminate on the basis of national origin, including LEP which includes English Language Learners (ELL).

Additionally, 29 CFR Section 38.41 added "LEP and preferred language" to the list of categories of information that each recipient must record about each applicant, registrant, eligible applicant/registrant, participant, and terminee.

It is the policy of the State to provide services and information in a language other than English for customers with Limited English Proficiency (LEP) in order to effectively inform or enable those customers to participate in departmental programs or activities. Limited English Language Proficiency Policy (OWDI 17- 2017) requires LWDBs to take reasonable steps to ensure that LEP individuals have meaningful access to their program and activities. Reasonable steps (29 CFR Section 38.9(b)(1)) may include, but are not limited to, the following:

1. Conducting an assessment of an LEP individual to determine their language assistance

needs.

2. Providing oral interpretation or written translation of both hard-copy and electronic materials, in the appropriate non-English languages, to LEP individuals

3. Conducting outreach to LEP communities to improve service delivery in needed languages.

LWDBs must ensure that above all, these services are free of charge and provided in a timely manner. An LEP individual must be given adequate notice about the existence of interpretation

and translation services and that they are available free of charge. For LEP individuals who enter an Oklahoma Works (One-Stop) Center, language assistance services must be timely, and

with adequate notice, where feasible. Language assistance will be considered timely when it is provided at a place and time that ensures equal access and avoids the delay or denial of any aid,

benefit, service, or training. When a LWDB determines a significant proportion of the population

eligible to be served are more likely to be directly affected by a program/activity needs information in a single language other than English, the LWDB must translate its written vital program materials into that language and provide effective oral interpretation services to members of the significant LEP group. The State can also provide oral interpreters for LEP customers who are not part of a significant group in order to provide the customer meaningful access to programs and services. When an interpreter for the needed language cannot be located, the Language Line Solutions (1-866- 874-3972) is used to serve the customer. Language assistance services are also provided to customers accessing virtual services at the One-Stop.

For LEP individuals needing to file unemployment claims in Spanish or Vietnamese, the Oklahoma Employment Security Commission's (OESC) Interactive Voice Response (IVR) system includes a full range self-service experience from filing the initial claim to getting updated information about an existing claim. For LEP individuals needing to file claims in other languages, the OESC has a full-service contract with Language Associates Inc. The interpreter services through Language Associates are also available for employers and have been used during Employer Council meetings.

LWDBs must not require an LEP individual to provide their own interpreter. Furthermore, LWDBs must not rely on an LEP individual's minor child or adult family or friend to interpret or facilitate communication, except for the following circumstances:

1. In emergency situations while awaiting a qualified interpreter;
2. When the information conveyed is of minimal importance to the services to be provided;

or

3. When an LEP individual specifically requests that an accompanying adult provide language assistance and they agree to provide assistance to the individual. If a Local

Area permits an accompanying adult to serve as an interpreter for an LEP individual, it

must make and retain a record of the LEP individual's decision to use their own interpreter.

Finally, where precise, complete, and accurate interpretations or translation of information and/or testimony are critical for adjudicatory or legal reasons, LWDBs can still provide their own, independent interpreter, even if an LEP individual wants to use their own interpreter as well. This also applies in cases where the competency of the interpreter requested by the LEP individual is not established. (29 CFR Section 38.9(f))

LWDBs must also include a Babel Notice, indicating that language assistance is available in all communications of vital information. This includes letters or decisions in hardcopy or electronic formats. (29 CFR Section 38.9(g)) OESC provides technical assistance to LWDBs regarding Babel Notices in TA-02-2019.

IV. COORDINATION WITH STATE PLAN PROGRAMS. Describe the methods used for joint planning and coordination among the core programs, and with the required one-stop partner programs and other programs and activities included in the Unified or Combined State Plan.

The Unified or Combined State Plan must include assurances that:

1.	The State has established a policy identifying circumstances that may present a conflict of interest for a State Board or local board member, or the entity or class of officials that the member represents, and procedures to resolve such conflicts;
2.	The State has established a policy to provide to the public (including individuals with disabilities) access to meetings of State Boards and local boards, and information regarding activities of State Boards and local boards, such as data on board membership and minutes;
3.	The lead State agencies with optimal policy-making authority and responsibility for the administration of core programs reviewed and commented on the appropriate operational planning elements of the Unified or Combined State Plan, and approved the elements as serving the needs of the populations served by such programs;
4.	<p>(a) The State obtained input into the development of the Unified or Combined State Plan and provided an opportunity for comment on the plan by representatives of local boards and chief elected officials, businesses, labor organizations, institutions of higher education, the entities responsible for planning or administering the core programs, required one-stop partners and the other Combined Plan programs (if included in the State Plan), other primary stakeholders, including other organizations that provide services to individuals with barriers to employment, and the general public, and that the Unified or Combined State Plan is available and accessible to the general public;</p> <p>(b) The State provided an opportunity for review and comment on the plan by the State Board, including State agency official(s) for the Unemployment Insurance Agency if such official(s) is a member of the State Board;</p>
5.	The State has established, in accordance with WIOA section 116(i), fiscal control and fund accounting procedures that may be necessary to ensure the proper disbursement of, and accounting for, funds paid to the State through allotments made for the core programs to carry out workforce development activities;
6.	The State has taken appropriate action to secure compliance with uniform administrative requirements in this Act, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the uniform administrative requirements under WIOA section 184(a)(3);
7.	The State has taken the appropriate action to be in compliance with WIOA section 188, Nondiscrimination, as applicable;
8.	The Federal funds received to carry out a core program will not be expended for any purpose other than for activities authorized with respect to such funds under that core program;
9.	The State will pay an appropriate share (as defined by the State board) of the costs of carrying out section 116, from funds made available through each of the core programs;

10.	The State has a one-stop certification policy that ensures the physical and programmatic accessibility of all one-stop centers with the Americans with Disabilities Act of 1990 (ADA);
11.	Service providers have a referral process in place for directing Veterans with Significant Barriers to Employment (SBE) to DVOP services, when appropriate; and
12.	Priority of service for veterans and eligible spouses is provided in accordance with 38 USC 4215 in all workforce preparation, development or delivery of programs or services funded directly, in whole or in part, by the Department of Labor.

V. COMMON ASSURANCES (for all core programs)

DRAFT

VI. PROGRAM-SPECIFIC REQUIREMENTS FOR CORE PROGRAMS

The State must address all program-specific requirements in this section for the WIOA core programs regardless of whether the State submits either a Unified or Combined State Plan.

Adult, Dislocated Worker, and Youth Activities under Title I-B. The Unified or Combined State Plan must include the following with respect to activities carried out under subtitle B—

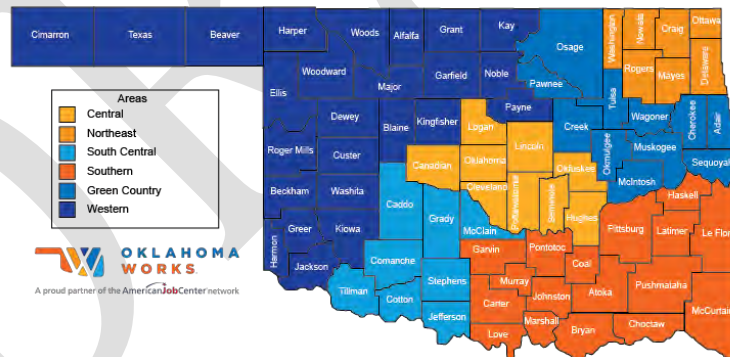

(a) General Requirements

(1) Regions and Local Workforce Development Areas.

- (A) Identify the regions and the local workforce development areas designated in the State.

Oklahoma has six Local Workforce Development Boards that make up the state’s public workforce system. These boards: 1) Link Oklahomans with workforce services and resources to develop the talent of the state’s workforce; 2) Serve as connectors to local Oklahoma Works, American Job Centers that deliver services to workers and employers; 3) Develop regional strategic plans and set funding priorities for their area; 4) Facilitate partnerships between local businesses with similar training needs; and 5) Provide analysis of labor market information to develop strategies that focus resources on particular high growth industry for their area.

Local Workforce Development Boards are business led and have a membership that is more than 50 percent private business. In addition, Local Workforce Development Boards are required to have representation from local community colleges and other training providers, as well as elected officials and workforce program leaders. This ensures that current skill needs of local businesses are communicated to relevant training programs.

- (B) Describe the process and policy used for designating local areas, including procedures for determining whether the local area met the criteria for “performed successfully” and “sustained fiscal integrity” in accordance with 106(b)(2) and (3) of WIOA. Describe the process used for identifying regions and planning regions under section 106(a) of WIOA. This must include a description of how the State consulted with the local boards and chief elected officials in identifying the regions.

The Governor’s Council recommends designations of local workforce development areas.

The Local Area Initial Designation Process state policy provides guidance for the application and appeal for initial designation decisions. Once a completed application is

received, the Governor's Council for Workforce and Economic Development Workforce System Oversight Committee (WSOC), in collaboration with the appropriate staff from the OESC will verify the information provided in the application. The WSOC will use the results of this assessment to determine whether to recommend approval or denial of the application. Existing state policies include: 1) Local Area Initial Designation Process; 2) Process for Existing Local Workforce Development Area Conditional Designation; and 3) Process for Local Area Redesignation within a Region, Consolidation, and/or Creation of a New Local Board.

“Performed successfully” and “Sustained fiscal integrity”

The criteria of “performed successfully” and “sustained fiscal integrity” are defined in the Local Area Initial Designation Process policy as follows:

- “performed successfully” as a local area having achieved at least 80 percent of their local performance goal on each performance measure for PYs 2012 and 2013.
- “sustained fiscal integrity” as such that the local area has not been found in violation of one or more of the following during PYs 2012 or 2013: 1) Final determination finding(s) from audits, evaluations, or other reviews conducted by State or local governmental agencies or the Department of Labor identifying issues of fiscal integrity or mis-expended funds due to the willful disregard or failure to comply with any WIA requirement, such as failure to grant priority of service or verify participant eligibility; or 2) Gross negligence - defined as a conscious and voluntary disregard of the need to use reasonable care, which is likely to cause foreseeable grave injury or harm to persons, property, or both; or 3) Any failure to observe accepted standards of administration. Local areas must adhere to the uniform administrative requirements set forth in Title 2 CFR Part 200, and Title 29 CFR Parts 95 and 97. Local areas must have fully met their federally mandated responsibilities for the two previous program years and including timely reporting of WIOA participant and expenditure data, timely completion and submission of the required annual single audit, and have not been placed on cash hold for longer than 30 days. [In alignment with WIOA Section 106(e)(2).]

Additionally, the Process for Local Area Redesignation within a Region, Consolidation, and/or Creation of a New Local Board policy outlines necessary assurances related to determining “performed successfully” and “sustained fiscal integrity” criteria have been met: 1) The new board shall comply with the applicable uniform cost principles included in the appropriate circulars or rules of the Office of Management and Budget (OMB). [WIOA Section 184(a) (3)]; 2) All financial reporting shall be done in compliance with federal and state regulations, and guidance (i.e., directives and information notices). Failure to comply with financial reporting requirements will be subject to potential cash hold. [29 Code of Federal Regulations (CFR) 97.21(g)]; 3) All close out reports will comply with the policies and procedures listed; 4) The new board will comply with the audit requirements specified in Title 2 CFR Subtitle A Chapter II Part 200 Subpart F. Failure to comply may result in sanctions imposed by the State; 5) The new board will

maintain and provide to auditors, at all levels, accounting and program records including supporting source documentation; 6) No funds received under WIOA will be used to assist, promote, or deter union organizing. [WIOA Section 181(b)(7)]; 7) The new board will comply with the nondiscrimination provisions of WIOA Section 188, including the collection of necessary data; 8) Funds will be spent in accordance with written United States Department of Labor guidance, and other applicable federal and state laws and regulations; 9) The board's procurement procedures will avoid acquisition of unnecessary or duplicative items, software, and subscriptions. (In alignment with 2 CFR Part 200.318); 10) The new board will comply with future State Board (GCWED) policies and guidelines, legislative mandates and/or other special provisions as may be required under federal law or policy, including the WIOA or State legislation; 11) Priority shall be given to veterans, recipients of public assistance, other low-income individuals, and individuals who are basic skills deficient for receipt of career and training services funded by WIOA Adult funding. [WIOA Section 134(c)(3)(E) and Training and Employment Guidance Letter 10-09]; and 12) If the new board is located within a planning region they will be required to meet the regional planning requirements of WIOA Section 106 (c) (1).

- (C) Provide the appeals process and policy referred to in section 106(b)(5) of WIOA relating to designation of local areas.

The appeals process relating to designation of local areas is outlined in the Local Area Initial Designation Process policy. An area may appeal the denial of its request for initial designation to the Workforce System Oversight Committee (WSOC) of the Governor's Council for Workforce and Economic Development by requesting an appeal and hearing within 20 calendar days from the mailing date of the notice of denial of initial designation. The written appeal request must specify the grounds on which the appeal is sought and why the appellant should be initially designated. Within five (5) calendar days of the receipt of the appeal, the WSOC will contact the appellant and schedule a hearing date. The WSOC will conduct the hearing process and provide a written decision no later than five (5) calendar days after the hearing. The approval or denial will be sent as a recommendation to the Governor, with whom the final decision rests. A second level of appeal may be submitted to the U.S. Department of Labor [WIOA Section 106(b)(5)] within 14 days, with a copy provided to the Dallas ETA Regional Administrator.

- (D) Provide the appeals process and policy referred to in section 121(h)(2)(E) of WIOA relating to determinations for infrastructure funding.

The appeals process relating to WIOA determinations for infrastructure funding is outlined in OWDI 24-2017. One-Stop partners have the right to file an appeal of the Governor's determination regarding the one-stop partner's portion of funds to be provided for one-stop infrastructure costs under the SFM. The appeal process related to the SFM is a modified version of the complaint and grievance procedures found in OWDI #16-2017, Change 1.

Within 5 business days from the notification of contributions under the SFM, appeals may be sent by email to deanna.smith@oesc.ok.gov, or mail to: Oklahoma Employment Security Commission P.O. Box 52003 Oklahoma City, OK 73152-2003

An opportunity for an informal resolution and a hearing to be completed within 60 days of the filing of the appeal. The Contents of the Appeal must contain a clear and concise statement of the facts describing the appeal. The statement of facts should include enough information to allow the entity to determine whether provisions of WIOA, the WIOA regulations, grant or other agreements under WIOA believed to have been violated; The remedy sought by the complainant.

Informal resolution: An attempt must first be made to informally resolve the complaint to the satisfaction of all parties. Informal resolution must be completed within 10 business days from the date the complaint was filed. If all parties are satisfied, the complaint is considered resolved and a letter outlining the funding agreement is attached to the appeal and sent to the parties.

Hearing: Any party dissatisfied with the determination from the informal resolution or no determination is made, any party may request a hearing for the appeal in writing within 2 business days from the close of the 10-day informal resolution period. The request for a hearing must be filed in writing to deanna.smith@oesc.ok.gov or to: Oklahoma Employment Security Commission PO Box 52003 Oklahoma City, OK 73152-2003.

Upon receipt of the request for a State hearing, the Executive Director of OESC or his/her designee shall review the appeal and shall provide an opportunity for a hearing. The Executive Director of OESC or his/her designee shall notify the complainant and the respondent within 10 business days of receipt of the hearing request.

Hearing Procedure: In any hearing conducted pursuant to a SFM appeal, all parties shall be afforded an opportunity for a hearing with the Appellate Panel after reasonable notice. Such notice shall include: 1) The date, time, and place of the hearing, in writing at least 10 business days prior to the date of hearing; 2) The original appeal filed and documentation of informal resolution attempts; 3) Relevant sections of WIOA or any other federal regulations involved; 4) If not in the original filed appeal, a statement of the foundation for the appeal. The statement must accurately reflect the content of the appeal as submitted by the complainant. However, clarifying notes may be added to ensure the appeal is addressed accurately; and 5) The right of the parties to be represented by an attorney or another designated representative (at their own expense).

The hearing is conducted in an informal manner in front of the Appellate Panel with strict rules of evidence not being applicable. Both parties have the right to present written and/or oral testimony and arguments; the right to call and question witnesses; the right to request and examine records and documents relevant to the issues; and the right to be represented. All evidence and a list of witnesses must be made available in advance to all parties five (5) business days prior to the hearing. Prior to the hearing, the Chair of the Appellate Panel will inform the parties, in writing, the hearing process (i.e., order of arguments, rebuttals, time restrictions, etc). The hearing will be recorded electronically.

The hearing process will be completed within 60 days from the date the appeal/request for hearing was received by OESC.

Composition of Appellate Panel: The Appellate Panel will consist of three (3) members who are appointed by the Executive Director of OESC, along with two (2) alternates. Where feasible, the Panel may include a representative from the Governor's Council for Workforce and Economic Development, a State Agency partner, and a Local Area Staff member of any of the WIOA Core Programs. Alternates may be any combination chosen from any of the above entities, including OESC staff or hired entities. The Chief Executive Officer of OESC or his/her designee will oversee the hearing.

Final Decision by Appellate Panel: Unless precluded by law, informal disposition or resolution may be made of any individual proceeding by stipulation, agreed settlement, consent order, or default.

If informal disposition or resolution is not achieved, the Appellate Panel shall, within 60 calendar days from the date the complaint was filed, mail electronically and via the United States Postal Service, a written decision to both parties. The decision shall contain the following information: 1) The names of the parties involved; 2) A statement of the SFM appeal and issues related to the appeal; 3) A statement of the facts; 4) The State Appellate Panel's decision and the reasons for the decision; and 4) A statement of the action, if any, to be taken. The determination by the Appellate Panel for the SFM is considered final.

(2) Statewide Activities.

(A) Provide State policies or guidance for the statewide workforce development system and for use of State funds for workforce investment activities.

The Oklahoma Employment Security Commission (OESC) oversees the administration of the

Workforce Innovation and Opportunity Act (WIOA) Title I programs. As administrator, OESC issues policy guidance through its series of Oklahoma Workforce Development Issuances (OWDIs) and formal memos that are posted online on the Oklahoma Works website at <https://oklahomaworks.gov/local-workforce-boards/wioa-policy-center/>.

State funds are used to support Oklahoma Works which is the umbrella entity for both workforce and education coordination. In addition, the funds are used to augment funds at the local level to provide incentives for performance and for statewide activities that might be identified by the Governor.

The Workforce Innovation and Opportunity Act provides opportunities for use of funds to support integrated workforce activities across the state. Oklahoma will follow all applicable Federal regulations and guidance pertaining to the use of each individual funding source while allowing limited amount of funding for statewide initiatives at the discretion of the Governor.

Funding will be primarily used in the support and development of strong regional sector strategies. Also, planning regions that share administrative costs will allow

more resources to be prioritized toward training individuals for the state's most in-demand occupations.

System governance policies and guidance are collaboratively developed by the System Oversight Subcommittee of the Workforce System Oversight Committee of the Governor's Council for Workforce and Economic Development. This group is composed of core and required partners who work collaboratively to develop policy for the state system. Additional partners and workforce system stakeholders are consulted through a task force model and have the opportunity to provide feedback to policy drafts based on areas of subject matter expertise. When released, all policies are located on the Oklahoma Works website.

The Governor's set aside funding is used to lead efforts in expanding and enhancing the state's workforce system. These efforts include access to data, sponsoring events to bridge the gaps existing between education and business & industry. While spending occurs at the state level the impact of the use of the set aside funding spreads across the state, reaching regions and local areas. Examples of this impact, as funded with the Governor's set aside funding include:

Monitoring & Technical Assistance: In addition to the required monitoring for WIOA Title I programs, the Governor's set aside funds additional technical assistance for financial, programmatic and strategic operations. These efforts continue to be a priority for the state.

Non-formula Local Area Awards: The State uses a portion of the Governor's set aside funds to provide various awards to Local Workforce Development Areas. These awards include but are not limited to: discretionary awards for system improvements as prioritized and outlined in WIOA; performance incentive awards; and programmatic pilot efforts as allowable with WIOA and federal regulations.

Software & Systems: Set aside funding is used to purchase licenses to, and maintain, various software and systems. These systems allow the state to provide an extensive case management and labor exchange system, increase accessibility to data, operate electronic grants management processes, increase the accessibility of state resources to local areas and system partners, and improve the effectiveness and efficiencies of state administration. Examples of these systems, as funded by the Governor's set aside, include but are not limited to: America's Joblink Alliance via contract with the Oklahoma Employment Security Commission, OKGrants via contract with Agate Software, and others.

Sponsorships: Set aside funding used to sponsor events throughout the state is used only on events that encourage collaboration and partnerships between business & industry, education and the WIOA system partners. One outstanding example is the Oklahoma Education and Industry Partnership initiative. This initiative strives to bridge the gap between the needs of the private sector and education. The closer we can bring all of the partners, the further each generation of workforce will be able to carry Oklahoma's economy. The Oklahoma Works Partners Conference is another

yearly sponsorship that brings individuals with a variety of positions from the partners together for education, professional development and collaboration.

Subject matter experts including representatives from different federal agencies are present to offer their expertise, improving the knowledge of the individuals working to serve Oklahoma's population.

- (B) Describe how the State intends to use Governor's set aside funding for mandatory and discretionary activities, including how the State will conduct evaluations of Title I Adult, Dislocated Worker, and Youth activities.

Oklahoma recognizes the weaknesses it has faced in the past regarding access to and the possession of data critical for the success of the workforce system. Increased capacity, aggressive efforts to coordinate the resources expended on evaluations, and expansion of the available tools at both the state and local level to lead the way in strengthening the aligned efforts of the core program partners, required partners, and additional partners within the workforce system. Engaging system partners in both research and evaluation will be critical for the evolution of the workforce system. A priority on our research and evaluation efforts will strengthen future strategic planning efforts in our post pandemic recovery as a state.

- (C) Describe how the State will utilize Rapid Response funds to respond to layoffs and plant closings and coordinate services to quickly aid companies and their affected workers. States also should describe any layoff aversion strategies they have implemented to address at risk companies and workers.

The Oklahoma Employment Security Commission assumes responsibility for all statewide Rapid Response efforts. These activities are provided as part of a comprehensive workforce investment system designed to respond quickly when a layoff and/or plant closure appears imminent. Staff members at the Oklahoma Employment Security Commission (OESC), local WDBs, Oklahoma Department of Career and Technology Education (ODCTE), Rehabilitation Services and other system partners respond quickly to employer, employee and community needs when layoffs and/or plant closures occur. The objective of the Rapid Response team is to help workers transition from notification of layoff to re-employment as soon as possible.

Oklahoma maintains a database of WARN layoffs and plant closings. This database captures the number and job titles of workers laid off, the reason for layoff, presence of a labor union, and tracks the services provided to the employers and affected workers. This information is available to the public at www.okjobmatch.com. When the layoff or closure involves organized labor, Rapid Response works closely with organized labor representatives in conducting Rapid Response activities.

The vast majority of companies in Oklahoma do not fall under the WARN Act provisions, so most are not statutorily required to file a WARN notification. Notices of impending layoffs received from these employers are informal in nature. These may include telephone calls from local elected officials, local workforce area service providers, economic development professionals, the employer, news media, social

media, or the affected workers themselves. The affected workers in this situation are also offered Rapid Response services.

Once a notification of a layoff happens, a telephone call or personal visit is made to the company to gather information about the layoff, explain Rapid Response services and processes, and set up employee meetings. The remainder of the Rapid Response team (including the partners listed previously) is then notified. The team makes every effort to work with the employer to set up meetings during the affected workers' shifts so workers can continue to be paid while learning about the various services available.

This often results in Rapid Response meetings held during early morning hours, on weekends, and late in the evenings. If it is not possible to conduct Rapid Response meetings on company time, then the workers are notified by announcement at the workplace and/or through the news media of the time and place for the meetings.

A team of workforce professionals and other service providers present information to affected workers at all Rapid Response meetings. Affected workers receive a 40- page handbook - Tools and Resources for Transitioning to Your Next Job. The handbook includes information about services and resources to help them get through the layoff and move to new employment as quickly as possible, including: programs and assistance available at their local Oklahoma Works American Job Center, tips for job searches, including resume development and interviewing skills, community services like consumer credit counseling, healthcare, and childcare, access to helpful websites, and physical locations of local Oklahoma Works American Job Centers.

During the meetings, workers are told which documentation they will need to register for Oklahoma Works and Unemployment Insurance programs/benefits, and they are given an approximate timetable on how quickly services can be provided. In many cases, job fairs are scheduled and held for the affected workers on the day of the Rapid Response meeting. All materials are available in both English and Spanish. Each presenter receives a handout reminding them of effective presentation techniques for the meeting. Records are kept on all rapid response events, including sign-in sheets, number of employees in attendance, an initial inventory of each employee's needs, and a satisfaction survey related to the meeting. Rapid Response events are consistently rated at 3.6 out of a possible 4.

Because receipt of a WARN notice is not sufficient, in most cases, for helping avert a layoff, proactive layoff aversion strategies are needed. Oklahoma has a number of strategies in place, including: 1) Incumbent Worker Training to help avert layoffs; 2) Oklahoma Works Rapid Response staff monitor news feeds, maintain relationships with business and industry across the state, and touch base with workforce teams and economic developers at the local level for information related to Oklahoma companies that may be in distress. When companies are identified, contact is made with the company and/or local economic development officials to offer support and needed services; 3) Local Workforce Development Boards (LWDBs) have strong relationships with local economic development staff and the companies in their area. These relationships sometimes allow the LWDB to become aware of challenges a company is experiencing and provides an opportunity to offer layoff aversion assistance; 4) Oklahoma Employment Security Commission (OESC)- Local Oklahoma Works Centers often hear about companies in their area that may be struggling. Working with local

and/or state economic developers allows for proactive efforts to avert potential layoffs; 5) Oklahoma Department of Commerce - Rural Development Specialists (RDSs) live and work in their assigned areas across the state. They call on companies, provide resource referrals as needed, and build relationships with the companies. When companies experience difficulties, they often turn to the RDSs, who bring in a variety of resources to help solve problems. The Commerce Research Team provides research services for companies as needed. For example, a company in rural Oklahoma was having supply chain issues. The Commerce research team pulled together information and resources to help the company find additional/alternative supply chain resources. Without that assistance, layoffs may have been necessary. Proactive communications and call trips to corporate headquarters of Oklahoma companies, often by the Governor, help Oklahoma know of any issues corporate offices see at the local level. Issues can then be addressed effectively; and 6) Oklahoma's Career and Technology Education system (CareerTech) consisting of 29 technology center districts with 59 campuses provides technical, management, safety, and process improvement training for incumbent workers in Oklahoma companies. CareerTech also provides startup training when qualifying companies that are expanding and hiring new employees for that expansion.

Layoff Aversion/Business Retention and Expansion is ultimately about keeping existing businesses strong and growing. Oklahoma's workforce system strives to ensure we have the business relationships necessary to understand employer needs, to be aware of challenges they are experiencing, and be able to assist them in getting to the resources they need to succeed. This includes the assurance of access to a talent pipeline that has the skills and credentials demanded by employers.

- (D) Describe the State policies and procedures to provide Rapid Responses in cases of natural disasters including coordination with FEMA and other entities.

The state will provide Rapid Response services to areas that have natural disasters affecting the ability to be employed and receive income. The intent will be to provide assistance to employees until they are able to work again and their employer is able to provide a place of employment. This will be accomplished by coordinated efforts of core partners, emergency management partners, charitable service providers and business services providers.

The Rapid Response Coordinator will discuss with the Oklahoma Employment Security Commission Area Manager, the Local Workforce Development Board Director, and the local and state emergency management agencies what services are required and what businesses are impacted. The group will also discuss if a National Emergency Grant is needed. If required the group will also provide the Governor's office with necessary information.

OESC will track and identify needs, notify the Business Services representatives at Local Workforce Development Boards. The Business Services representative will contact the affected business to determine the types and scale of needs. Frequently the business site may not be available, so the local Business Services representative will need to secure a meeting place. The Business Services representative will coordinate with partners to provide services as needed by the employees.

This should include:

- Oklahoma Employment Security Commission Area Manager or their designated representative
- The local One-stop operator
- Unemployment Insurance Department of OESC or their designated representative
- Oklahoma Department of Insurance
- Local and State Emergency Management Agencies

If needed this will also include:

- Veteran Services Department of OESC
- Tribal Governments
- FEMA
- Oklahoma Department of Rehabilitation Services
- Local charitable service providers like Red Cross, Salvation Army, etc.

Information and reports will be provided to concerned partners to assist employers getting back up and operating as soon as possible.

- FEMA
- Oklahoma Department of Commerce
- Local Economic Development groups
- SBDC

- (E) Describe how the State provides early intervention (e.g., Rapid Response) and ensures the provision of appropriate career services to worker groups on whose behalf a Trade Adjustment Assistance (TAA) petition has been filed. (Section 134(a)(2)(A) and TAA Section 221(a)(2)(A) .) This description must include how the State disseminates benefit information to provide workers in the groups identified in the TAA petitions with an accurate understanding of the provision of TAA benefits and services in such a way that they are transparent to the dislocated worker applying for them (Trade Act Sec. 221(a)(2)(A) and Sec. 225; Governor-Secretary Agreement). Describe how the State will use funds that have been reserved for Rapid Response to provide services for every worker group that files a TAA petition and how the state will ensure the provision of appropriate career service to workers in the groups identified in the petition (TAA Sec. 221(a)(2)(A)).

If there is an existing petition, a pending petition or if it is suspected that a petition needs to be filed prior to a layoff, the Trade Adjustment Assistance (TAA) representative or their designee from the Oklahoma Employment Security Commission will attend the Rapid Response event explaining the benefits and services TAA will provide. The other departments and partners will still enroll the individuals for the appropriate other programs since a petition may take weeks to approve or may not be approved. While the benefits of TAA may be greater, the time limits of TAA, may be shorter than some other benefits offered.

Upon certification of a TAA petition, the state TRA Coordinator obtains a list of affected workers from the layoff employer and issues a TAA eligibility letter to each worker. The letter directs the worker to the nearest Workforce office, where they will be advised of TAA benefits and services.

If a petition is approved after the original Rapid Response event, and TAA was not fully discussed in the original Rapid Response, the Business Services representative shall host an additional Rapid Response event

centered on TAA and its benefit. In all cases if the petition is approved several weeks after the original Rapid Response event, another one should be held.

When the Rapid Response occurs after the layoff, efforts will be made to contact the employees through the company, through social media, public media, and at Oklahoma Works locations. The Rapid Response meeting will be held at a suitable location like a Career Tech or some other public space.

The TAA Coordinator, the State Rapid Response Coordinator, and the Local Business Services representatives will keep each other up to date on their activities.

The TAA Coordinator and the Rapid Response Coordinator will ensure that all Local Business Services representatives fully understand TAA so they can spot companies that need a petition filed.

(b) Adult and Dislocated Worker Program Requirements.

- (1) Work-Based Training Models. If the State is utilizing work-based training models (e.g. on-the-job training, incumbent worker training, transitional jobs, and customized training) as part of its training strategy and these strategies are not already discussed in other sections of the plan, describe the State's strategies for how these models ensure high quality training for both the participant and the employer.

Through Oklahoma's American Job Centers, the core partners and other workforce partner entities develop, offer, and deliver quality business services that assist businesses and industry sectors in overcoming the challenges of recruiting, retaining, and developing talent for the regional economy. These services are facilitated through the local workforce development boards (LWDBs). Each LWDB's local plan includes a description of the strategies and services used to:

- Facilitate engagement of employers in workforce development programs, including small employers and employers in in-demand industry sectors and occupations;
- Support a local workforce development system that meets the needs of businesses in the local areas;
- Coordinate workforce development programs and economic development; and
- Strengthen connections between the one-stop delivery system and unemployment insurance programs.

Local plans also describe strategies and services that are used in the local area to implement initiatives such as incumbent worker training, on-the-job training programs, customized training programs, industry and sector strategies, career pathway initiatives, utilization of effective business intermediaries, and other business services and strategies.

Oklahoma prioritizes diversifying and expanding work-based learning opportunities as a vital component of strengthening career pathways, increasing credential attainment, and closing the skills gap. To do this, OESC's partner agencies collaborate to implement the policies and v necessary to support work-based learning strategies like Registered Apprenticeships, on-the-job training (OJT), work experience, and job shadowing.

LWDBs are tasked with identifying employers who can provide quality work experiences to assist individuals with barriers in obtaining unsubsidized employment while ensuring there is

no displacement of current employees and that WIOA funds will not be utilized to fill openings resulting from labor disputes.

Local boards develop strategies to utilize transitional jobs (a type of work experience) as a gateway to unsubsidized employment for individuals who are chronically unemployed or have inconsistent work history, such as formerly incarcerated individuals, low-income individuals who must meet employment or training requirements to receive Supplemental Nutrition Assistance Program (SNAP) benefits, out-of-school youth, veterans, and other individuals with barriers to employment.

Oklahoma allows for the stacking of work-based training. One such example is when a work experience or transitional job participant is hired for an on-the-job training position that results in full time unsubsidized employment with the OJT employer. Hiring an individual in an OJT continues to be a successful strategy for delivering training services through the adult and dislocated worker funding streams, allowing businesses to provide specific job training to new employees in a normal work environment.

Incumbent Worker Training (IWT) is utilized to increase the competitiveness of employers by developing a highly skilled workforce that will result in increased financial viability, stability, competitiveness, and productivity for the employer/business. To avert the risk of a business closing, IWT may be developed with a business or business association to maintain their competitive status, incorporate new technology, or prevent downsizing. Process improvements that contribute to the competitiveness and productivity of a business are allowed as a component of IWT, when combined with training that results in new skills attainment for incumbent workers. The competitiveness of workers participating in IWT is increased by enhancing existing skills, learning new skills, and earning employer or industry-recognized credentials, in addition to retaining employment, maintaining their careers, and/or increasing their earnings potential. An ideal Incumbent Worker Training project allows the opportunity for employers to promote incumbent workers with increased skill levels, which creates backfill opportunities for other WIOA participants, such as less skilled or underemployed employees within the company, or for other individuals seeking employment.

(2) Registered Apprenticeship. Describe how the State will incorporate Registered Apprenticeship into its strategy for service design and delivery (e.g., outreach to sponsors and prospective sponsors, identifying potential participants and connecting them to apprenticeship opportunities).

Registered Apprenticeship (RA) enables Oklahoma to prioritize education and training resources to support placement into high demand occupations through hands-on training and technical instruction while helping employers build the skilled workforce their businesses need to succeed.

Oklahoma has developed apprenticeship outreach and communications plans to increase public awareness, conducted engagement activities with industry partners, and initiated collaborations with several businesses to explore innovative work-based learning solutions. This includes the creation of an Oklahoma Work-Based Learning Guide to explain the benefits and procedures to register apprenticeships and work-based learning programs.

Using U.S Department of Labor grant funds, apprenticeship program officers will focus on creating and expanding RA opportunities within the industries that demonstrate a need for skilled workers and a high potential for growth. These industries were identified using data

from the Oklahoma Works Ecosystem Gap Analysis report published in February 2017, the Oklahoma's Talent Pipeline Report published by Oklahoma Works in May 2019, data from Emsi Labor Market Analytics and Dun & Bradstreet Econovue to identify industry sectors for outreach. Staff reviewed the skills gap, occupational growth rate, the percent of workers who are 55+ to total jobs, and the potential for opportunities for special populations based on licensing requirements and safety regulations. The ten (10) industry sectors staff are targeting for program registration include: Finance, IT, Public Service/Government, Retail, Childcare, Food Service, Public Utilities, Alternative Energy, Aerospace, and Health Care.

Strategies for expansion and diversification also include outreach to specific underserved populations such as women, individuals with disabilities, formerly incarcerated individuals, minorities, veterans, and out of school youth. OESC staff are developing collaborative partnerships with the Oklahoma Department of Rehabilitative Services, the State Department of Veterans Affairs, the Oklahoma State Regents for Higher Education, Tribal Career Services, the Oklahoma Department of Career and Technical Education, and non-profit organizations to develop Registered Apprenticeship Programs targeted to non-traditional and underserved populations.

Youth Apprenticeship Expansion

Youth apprenticeship is a strategy for building a more inclusive economy by creating affordable, reliable, and equitable pathways from high school to good careers and college degrees. It allows students to complete high school, start their postsecondary education at little to no cost, get paid work experience alongside a mentor, and embark on a path that broadens their options for the future. Youth apprenticeship programs equip young people with postsecondary credentials, credits, and degrees, and the work experience, mentorship, and networks they need to thrive in a rapidly changing economy. For employers, youth apprenticeship is a cost-effective talent strategy, as apprentices build skills to meet evolving business needs and contribute to their employers' bottom line.

In June of 2019, OOWD was invited to participate in the Partnership to Advance Youth Apprenticeship (PAYA) Network. The PAYA Network is a national learning collaborative designed to link dynamic, place-based partnerships that are working to launch, expand, and improve apprenticeship opportunities for high school-aged youth. Through the PAYA Network, this group of innovators will share best practices and co-develop solutions to common challenges. To support their goals, PAYA will work with network members to organize and host a range of activities including national working groups as well as virtual and in-person convenings. PAYA will also share opportunities to accelerate members' work and identify avenues to promote members' accomplishments to local, state, and national audiences.

Led by New America, the Partnership to Advance Youth Apprenticeship (PAYA) is a multi-year, multi-stakeholder initiative established in 2018 to assist innovative partners around the country in developing robust youth apprenticeship programs that can be scaled and replicated to connect the learning needs of youth with the talent needs of industry. New America created PAYA to strengthen the link between education and economic mobility. PAYA convenes experts and partners, publishes and disseminates research, supports a network of practitioners, and provides grants and direct assistance to promising youth apprenticeship programs in states, cities, and regions across the U.S. PAYA includes eight National Partner organizations from across the education, workforce, and policy sectors: Advance CTE, CareerWise Colorado, Charleston Regional Youth Apprenticeship, Education Strategy Group, JFF, National Alliance for Partnerships in Equity, National Fund for Workforce Solutions, and the National Governors Association.

- (3) Training Provider Eligibility Procedure. Provide the procedure, eligibility criteria, and information requirements for determining training provider initial and continued eligibility, including Registered Apprenticeship programs (WIOA Section 122).

Oklahoma's eligible training provider list (ETPL) is designed to maximize customer choice and ensure all priority groups under WIOA are served. The ETPL is administered in a manner to ensure significant numbers of competent providers offering a wide variety of training programs and occupational choices are available to customers. Oklahoma's ETPL is disseminated electronically through OKJobMatch.com.

Oklahoma's process for determining eligible training providers and programs for adults, dislocated workers, and out-of-school youth aged 16-24 includes identifying training providers whose performance qualifies them to receive WIOA training funds through Individual Training Accounts (ITAs). An eligible training provider (ETP) is the only type of entity that may receive funding for training services through an ITA. The following types of entities may qualify as ETPs: 1) Institutions of higher education that provide programs leading to recognized postsecondary credentials; 2) Registered Apprenticeship program sponsors, per 50 Stat. 664, chapter 663I 29 U.S.C. 50 et seq.; and 3) Other public or private providers of programs of training services, which may include joint labor-management organizations, as well as eligible providers of adult education and literacy activities under Title II if such activities are provided in combination with occupational skills training.

Local workforce development board (LWDBs) and/or service providers assist individuals in the selection of training programs that are directly linked to employment opportunities in their local area. Each local board must establish, maintain, review and update annually a list of existing or emerging occupations that are determined by the LWDB to: 1) Be part of the sector of the economy that has a high potential for sustained demand or growth in the local area; 2) Target industry clusters within the local area; 3) Support economic growth priorities; and 3) Address industry-specific shortages.

Based upon the initial or continued eligibility criteria listed later in this section, training providers in these occupations may be approved to provide programs of training that prepare individuals for the existing or emerging occupations determined by the LWDB. On-the-job training, internships, paid or unpaid work experience, and transitional employment are not required to be listed on the ETPL.

Eligible Training Provider List Procedure

Training providers must apply for inclusion on the statewide ETPL through Oklahoma's virtual case management system, OKJobMatch.com. By creating an account in OKJobMatch, training providers may enter and edit information about their training institutions and the programs they offer. Once a provider applies online and is approved by the State, the local workforce board reviews the program entered by the provider and recommends approval for programs that meet local criteria and the requirements stipulated in State policy.

An ETP must ensure their ability to provide training programs that are physically and programmatically accessible for individuals who are employed and individuals with barriers to employment, including individuals with disabilities. Assurances must be signed by each ETP that it and all of the provider's employees responsible for providing training services will comply fully with all nondiscrimination and equal opportunity provisions of the laws, including

WIOA Section 188, Title IV of The Civil Rights Act of 1964, Section 504 of The Rehabilitation Act of 1973, which prohibits discrimination against qualified individuals with disabilities, The Americans with Disabilities Act (ADA) of 1990, The Age Discrimination Act of 1975, Title IX of The Education Amendments of 1972, and The Oklahoma Act Against Discrimination. If the training provider does not check YES to all assurances above, they will not be able to complete the application for inclusion on the ETPL. Except for Registered Apprenticeship programs, training providers must comply with the criteria, information requirements, and procedures established under WIOA Section 122 to be included on the list of eligible providers of training services. Registered Apprenticeship (RA) programs are exempt from performance and reporting-related requirements to enable these evidence-based programs to be placed on the statewide ETPL with minimal burden. These programs have already gone through a rigorous assessment as part of the registration process with the U.S. Department of Labor, Office of Apprenticeship (DOLETA/OA). If openings for new apprenticeships exist in the local area, the RA sponsor's programs will automatically be considered in-demand training and will be included and maintained on the ETPL as a statewide demand occupation for as long as the openings remain unfilled.

Initial Eligibility

New training providers may seek initial eligibility electronically through OKJobMatch. Approved providers will remain eligible and listed on the ETPL for only 1 year for a particular program. After the first year, if the provider/program meets subsequent approval requirements, continued eligibility will be reviewed every two years. The criteria and information requirements established by OESC require a provider and/or program to provide verifiable information pertaining to: 1) A detailed description of each program of training to be offered, including the cost of training; 2) Program-specific performance related to the indicators of performance; 3) A description of the provider's partnership with at least one business, if such partnership exist; 4) Other factors that indicate high-quality training services, such as accreditation, registration and /or state licensing requirements specific to the industry, and whether the training leads to a recognized postsecondary credential; and 5) Information addressing the alignment of the training services with in-demand industry sectors and occupations, to the extent practicable, as evidenced by the Occupational Information Network Standard Occupation Classification (O*NET-SOC) code(s) and a Classification of Instructional Programs (CIP) code. An exception to the program specific performance requirement will be made for new programs that the ETP has never provided before.

The ability for ETPs to upload documents to OKJobMatch was made available in December of 2017. The number of private vocational schools that have uploaded documentation pertaining to approval, licensing or registration from their oversight organization or agency continues to increase as new training facilities are added to the ETPL. This process helps to ensure quality training providers and programs for individuals seeking training. State Institutions of Higher Education are not required to upload proof of accreditation but are required to list their accrediting agency in the initial application.

A new ETPL policy will be released in the first quarter of PY20. It will include language to require documentation of a prospective ETP's financial sustainability prior to initial approval. This requirement is intended to help to ensure quality training providers and programs.

Continued (Subsequent) Eligibility

The following factors must be considered by Local Workforce Development Boards (LWDBs) when electronically recommending subsequent eligibility approval to the State: 1) The specific economic, geographic, and demographic factors in the workforce areas in which providers

seeking eligibility are located; 2) The characteristics of the population served by providers seeking eligibility, including the demonstrated difficulties in serving such populations, where applicable; 3) The degree to which training programs relate to in-demand industry sectors and occupations within the state; 4) The performance of a provider of program(s) of training services as outlined by OESC; 5) The program cost of training services; and 6) The involvement of employers in the establishment of skill requirements for the training program.

Each training program must meet subsequent approval requirements after the initial year of eligibility. Continued eligibility will then be reviewed every two years. In the previous State Plan, it was stated that the program-specific performance required for continued eligibility) included the number participated, number completed, number employed after leaving the program, credentials attained, and median and average earnings pertaining to the All-Student population. With the change of WIOA performance indicators for continued eligibility now requiring the number employed in the second and fourth Quarters after exit, median earnings, and credential attainment, OESC is exploring setting new benchmarks for subsequent approval. Performance is still required to be entered biennially, at a minimum, by the training provider (or by their oversight agency through a data exchange process) for each training program. Local workforce boards cannot require training providers to update information more frequently once per year, provided the information is accurately submitted. All Student and WIOA performance data will be captured through OKJobMatch and reported to ETA via the Workforce Integration Performance System (WIPS). Additional factors that may be considered by local workforce boards prior to the electronic submission of training programs to the State for subsequent approval, include: 1) Specific economic, geographic and demographic factors in the workforce area in which the providers seeking eligibility are located; 2) Characteristics of the population served by providers seeking eligibility, including the demonstrated difficulties in serving such populations; 3) The degree to which training programs relate to in-demand industry sectors and occupations within the state; 4) The performance of the provider's training programs; 5) The program's cost of training; 6) The involvement of employers in the establishment of skills requirements for the training program; and 7) The impact provider performance will have on State-negotiated WIOA performance measures for all program participants.

Continued eligibility is based on information, reported by the ETP, for the All-Student population of each program of training service (program of study) on the ETPL. The All-Student data is reviewed by the local area for a local determination, and then by the state for approval.

Information reported to state agencies on federal and state training programs other than WIOA Title I-B programs: the Oklahoma Employment Security Commission (OESC) reports all required ETP wage data. This data does not include the names or other personally identifying information.

MOUs have been signed with the Oklahoma State Regents for Higher Education (OSRHE) and the Oklahoma Department of Career and Technology Education (ODCTE) for the provision of performance data from Oklahoma colleges and technology centers, respectively, based on their All Student populations. When the process is in place with America's JobLink Alliance (AJLA), the state's vendor for the ETPL system, data will be "dropped" into the system, allowing for a more accurate reporting of performance, as well as protecting the personally identifying information of their students. The mechanism for collecting the All-Student performance information is anticipated to be in place by end of calendar year 2020.

Timeliness and accuracy of ETP's performance reports: An Eligibility Expiration Notification is automatically generated to ETPs for each approved training program 45 days prior to the date their continued eligibility renewal is due. ETPL coordinators also receive notification of when program performance is due to be updated. A list of Eligibility Expiration Notifications is found on the local ETPL Coordinators Approval Menu page. Local coordinators are encouraged to contact the ETP within the 45-day period as a courtesy reminder and to prevent removal of programs from the ETPL. The state considers failure of the training provider to accurately update program performance within 60 days a substantial violation of the requirement to submit timely information for continued performance. Exceptional circumstances beyond the ETP's control, such as natural disasters, unexpected personnel transitions, and unexpected technology-related issues will be taken into consideration, however. Providers who substantially violate the requirement to timely and accurately submit all required information will be removed from the ETPL.

Access to training services throughout the state (including rural areas and through technology use): Oklahoma's eligible training provider lists includes programs of study that are offered onsite, online, or a combination of the two. This is especially important due to the rural nature of the state. Oklahoma is fortunate to have 25 public colleges and universities offering instruction at 49 campuses throughout the state, as well as 29 technology center districts operating on 58 campuses. In addition, private vocational training facilities are located in several counties. Out-of-state providers and programs are also included on the ETPL, including online programs and brick and mortar facilities located in bordering states. The latter may be closer for individuals opting for onsite training that is closer than programs in neighboring counties. It is also important to note that many ETPs offer onsite training during daytime hours, evening hours, and weekends.

An ETP's ability to offer industry recognized certifications and credentials: Providers are required to enter the name(s) of the entity (or entities) that authorizes, approves, licenses, and/or accredits their school and their programs. ETPL approval is not granted unless this information is entered. OSRHE, ODCTE, and the Oklahoma Board of Private Vocational Schools each have requirements for ensuring their training programs result in industry-recognized certifications and credentials. Eligible training and education providers strategize with the state and local workforce development areas on how to be more job-driven and meet the needs of employers. Using the state's strategies, OESC collaborates with the state's educational leaders and partners to create accessible training programs that meet the needs of our WIOA eligible individuals and provide them with meaningful training, including training that results in industry-recognized certifications and credentials.

Oklahoma continues to explore solutions to lessen the annual reporting burden on ETPs and on the local workforce boards, through the aforementioned MOUs and by exploring the effect of reducing the initial eligibility requirements from the seven indicators of performance that currently require entries in OKJobMatch. As stated earlier, the state is in the process of re-evaluating the current performance benchmarks for ETPL eligibility, including continued eligibility requirements. Oklahoma is considering program completion rate and the credential attainment rate as the indicators of program performance used for ETPL eligibility determinations and, with the aid of the State entities responsible for oversight of the training providers including ODCTE, OSRHE and the Oklahoma Board of Private Vocational Schools (OBPVS) with input from the local workforce development boards, will determine a reasonable increase in the levels of each performance benchmark. This is intended to ensure quality training providers and programs on the ETPL, as well as better performance outcomes. Once the mechanism for collecting All-Student performance information is in place, AJLA will provide the information to populate the annual performance report to DOL.

Until there is an established process for capturing the performance of WIOA-only participants in the approved training programs, OESC will require the local areas to develop a process for tracking and entering the data into OKJobMatch.

The current performance benchmarks for eligible training programs, except for Registered Apprenticeships, are based on the All-Student population: 1) Number of students who completed training - 20%; 2) Entered Employment Rate, defined as the percentage of training program participants who are in unsubsidized employment in the 2nd quarter after exit from the program – 20%; 3) Employment Retention Rate: The percentage of training program participants who are in unsubsidized employment in the 4th quarter after exit -20%; 4) Number of students that attained credentials – 20%; 5) Median Earnings: The median earnings of training program participants who are in unsubsidized employment during the second quarter after exit- minimum wage or based on local policy requirements, whichever is higher; 6) Average Earnings in the 2nd quarter after exit; and 7) Average Earnings in the 4th quarter after exit.

Conditions For Removal

The State may remove a program or programs from the ETPL for failing to meet the established criteria or for not providing all required performance information for subsequent eligibility. Removal is also appropriate if the program has failed to attain or has lost the accreditation required for professional licensure. A training provider that is removed from the list for reasons stated above may reapply for continued eligibility when they can demonstrate that they meet all requirements. Any providers that willfully supply false performance information, misrepresent costs or services, misrepresents their financial stability relating to the ability to provide training services, or violate requirements of WIOA law, including the provisions addressed in the Assurances section of the ETPL application regarding nondiscrimination, will be removed from the ETPL by the State for a period of not less than two years. Providers are liable to repay all adult, dislocated worker, and youth funds received during the period of non-compliance. No training provider debarred by the Federal Government may be permitted to be placed or remain on the ETPL. In the case of a training provider or a program of training services that is removed from the list while WIOA participants are enrolled, the participants may complete the program unless the provider or program has lost state licensing, certification, or authorization to operate by the appropriate state oversight agency. This section does not apply to Registered Apprenticeship programs, whose registration status is required to be assessed by OESC on a biennial basis at a minimum.

Appeal Process

Training providers can choose to appeal the rejection of their program for inclusion on the ETPL, or its subsequent termination of eligibility. The appeal must be submitted in writing via email to OESC within 14 days after notification of the decision. The appeal must include the justification for the appeal in the request. The provider must also have the right to request a hearing to discuss their appeal. If a hearing is requested, a board will be convened consisting of OESC management, the OESC ETPL Administrator, and the LWDB Director. A decision will be made within 60 days of appeal. This will be a final decision and, if the removal is upheld, the program will be prohibited from reapplying for one year from the date of the final decision or for two years if the removal was for submittal of false information.

State Responsibilities

OESC is responsible for: 1) The development, maintenance and dissemination of the State list of providers and programs; 2) Ensuring programs meet the eligibility criteria and performance levels established by the State; 3) Verifying the accuracy of submitted information; 4) Removing programs that do not meet established program criteria or performance levels; 5) Ensuring performance and cost information relating to each provider is available to the public; 6) Finalizing approval for providers and programs recommended by the Local Workforce Development Boards (LWDB); 7) Ensuring Registered Apprenticeship program sponsors are contacted to voice their willingness to be part of the ETPL (with assistance from DOLETA/OA); 8) Verifying the registration status of Registered Apprenticeship programs on at least a biennial basis; and 9) Ensuring new Registered Apprenticeship programs are placed on the ETPL in a timely manner.

Local Workforce Board Responsibilities

The LWDB is responsible for carrying out the following procedures assigned by the State: 1) Identification of in-demand sectors or occupations for the local area using relevant labor market information; 2) Reviewing new and subsequent training providers and programs of training services to ensure accurate eligibility criteria and performance information has been provided prior to submission to the OESC for final approval; 3) Recommending the termination of providers due to the provider's submission of inaccurate eligibility and/or performance information; 4) Working with the State to ensure that sufficient numbers of providers of training services have the expertise in assisting individuals with disabilities and training providers are available to assist adults in need of adult education and literacy activities; and 5) Making recommendations to OESC for approval or denial of providers and/or programs based on the local area's demand occupation information and the program's performance.

Except for Registered Apprenticeships, LWDBs may require additional information and/or set higher levels of performance for providers to become or remain eligible for provider services in their area. If a Local Board establishes minimum standards in local policy, the Local Board may direct the removal of a provider's program from the eligible programs in that local area for failure to meet established criteria. The appeal process outlined in this section must be followed for rejected training providers or those providers removed for cause.

- (4) Describe how the State will implement and monitor for the Adult Priority of Service requirement in WIOA section 134 (c)(3)(E) that requires American Job Center staff, when using WIOA Adult program funds to provide individualized career services and training services, to give priority of service to recipients of public assistance, low-income individuals, and individuals who are basic skills deficient (including English language learners).

Oklahoma's Adult and Dislocated Worker policy addresses the priority requirements of WIOA sec. 134 for public assistance recipients, other low-income individuals, and individuals who are basic skills deficient. As with all DOL-funded job training programs, veterans and eligible spouses continue to receive priority of service for individualized career services and training services authorized under WIOA Chapter 3 sec. 134(c). Due to the statutorily required priority for Adult funds, the following priority of service requirements must be adhered to in this order by local workforce development boards (LWDBs) regardless of the level of Adult Formula funds received: 1) To veterans and eligible spouses who are recipients of public assistance, or who are determined to be other low-income individuals, or individuals who are basic skills deficient; 2) To non-covered persons (that is, individuals who are not veterans or eligible spouses) who are public assistance recipients, determined to be low-income, or are basic skills deficient; 3) To veterans and eligible spouses who are not included in WIOA's priority

groups; 4) To priority populations established by the LWDB; and 5) To non-covered persons outside the groups given priority under WIOA.

As part of regular monitoring and oversight responsibilities, the State ensures that all LWDBs have developed and implemented an Adult Priority of Service policy. Additionally, each local area addresses the adult priority of service in their Adult and Dislocated Worker Policy. Additionally, each local area utilizes either a Priority Ranking Worksheet and/or an Adult and Dislocated Worker Eligibility Form, both of which must be uploaded into the virtual case management system as an enrollment document, along with supporting documentation that validates the priority of service. The State's Individual Employment Plan (IEP) policy also requires documentation of the Adult Priority of Service to ensure that IEPs target the specific needs of each eligible Title I Adult program participant. The IEP must include the appropriate combination of services needed to achieve each participant's employment goals and must describe how and when those services are provided. This process helps to ensure the needs of individuals who meet the requirements of at least one priority populations are addressed, especially those who are low-income, on public assistance, and/or have been determined to be basic skills deficient. Finally, monitoring of the priority of service is routinely completed by desk reviews throughout the program year, particularly in instances when a local area requests any technical assistance related to an adult's eligibility for individualized career services and/or training services funded by the Adult Formula program.

- (5) Describe the State's criteria regarding local area transfer of funds between the adult and dislocated worker programs.

WIOA allows LWDBs to transfer funds between the adult employment and training allocation and the dislocated worker employment and training allocation. 20 CFR 683.130 gives LWDBs the authority to transfer up to 100 percent of a program year allocation for adult employment and training activities, and up to 100 percent of a program year allocation for dislocated worker employment and training activities between the two programs. WIOA requires the Governor to establish criteria and factors for transfers and LWDBs must obtain written approval from the Governor prior to making any transfer previously described.

A LWDB must submit their Transfer of Funds Request via email to the OESC Executive Director.

Requests will be routed for approval to the Director of Programs, or their designated staff member, and to the Director of Fiscal Compliance and Operations, or their designated staff member.

OESC will review the LWDB's rationale for transfer and supporting documentation submitted with the request. Additionally, the conditions for approval must be met. OESC has the authority to approve the request, as is, approve a partial transfer, and deny the request. If approved, OESC will provide the LWDB with written approval within 15 days. Denials will also be provided within 15 days.

The Transfer of Funds Request will be made available to LWDBs via Memorandum. Updates will be made when necessary and OESC will ensure LWDBs have access to the most current version at all times.

Conditions for Approval:

- LWDBs may not transfer funds to or from the youth program;
- Transfers must be approved by the LWDB and documented in board meeting, or executive committee meeting, minutes; o Requests may be submitted prior to board approval with the date and time of the upcoming board or executive committee meeting. If requests are submitted without prior approval, OESC will approve or deny pending the submission of the required meeting minutes; Participants served with transferred funds will be subject to performance outcomes of the new funding source;
- All transferred funds are subject to priority of service requirements Rationale and Supporting Documentation Rationale for the transfer must be submitted with the Transfer of Funds Request.

The rationale must address the following:

1. Proposed services and a description of the participants affected;
 2. Justification that the funds will not negatively impact services to participants;
 3. If requesting a transfer from Dislocated Worker to Adult, an assessment of historical and potential WARN events and layoffs, including how the LWDB will provide services if a WARN or mass layoff occurs after the transfer; and
 4. A description of strategies attempted to serve clients prior to requesting a transfer.
- The Transfer of Funds Requests requires the submission of performance, financial, and programmatic data. Supporting documentation must be provided for each category provided on the Transfer of Funds Request.

Supporting documentation may include, but is not limited to:

- Certified Quarterly Reports;
- Reports downloaded/exported from the state's case management system;
- Historical performance and program data organized in a table;
- 9130 quarterly reports;
- Approved Expenditure Reports and/or Cash Advances downloaded/exported from the state's grant management system;
- Copies of applicable Notice of Award;
- Financial data organized in a table;
- Etc.

The format of the rationale is at the discretion of the LWDB and LWDBs must provide supporting documentation accordingly. In the review, OESC may request additional documentation or perform their own analysis to verify the information submitted. 3 Record Keeping and Reporting LWBs should keep a copy of their request and approval with their financial records. LWDBs must work with their Fiscal Agents to ensure accounting records properly demonstrate transfers and properly report expenditures allocated to transferred funds.

OESC recommends the following actions for LWDBs and their Fiscal Agents in order to properly account for transferred funds:

- Create a journal entry within the original funding stream showing the transfer/expense in the full amount;
- Establish a "Transfer" code in the chart of accounts; and
- Establish account codes specific to expenditures paid with transferred funds; LWDBs must include transferred funds expended on their monthly expenditure reports.

If dislocated worker funds are spent on adult employment and training activities, the amount for each month must be submitted to OESC. The same is true if adult funds are spent on dislocated worker activities. Expenditure reports are submitted by the Fiscal Agents in the state's grant management system. If a LWDB is not able to properly account for transferred funds, future requests may be denied by OESC. If a LWDB does not report transferred funds expenditures appropriately, future requests may be denied by OESC.

- (6) Describe the State's policy on WIOA and TAA co-enrollment and whether and how often this policy is disseminated to the local workforce development boards and required one-stop partners Trade Act Sec. 239(f), Sec. 235, 20 CFR 618.325, 20 CFR 618.824(a)(3)(i).

Excerpt from OWDI-07-2020 Change 1 Adult Dislocated Worker Programs: 20 CFR 618325(a)(1)] of the TAA Final Rule requires co-enrollment between the TAA Program and the WIOA DLW Program if the trade-affected worker is eligible for the DLW program. Data shows that co-enrollment between the TAA and Title I Dislocated Worker (DLW) programs results in better performance outcomes that are significant and consistent over time. Coordination between the Title I case manager and OESC's TAA staff is essential to ensure successful training completion and allows for the timely provision of individualized career services while improving the effectiveness of both the DLW and TAA Programs. When ES staff identify any supportive needs necessary for the success of TAA participants, they are required to refer TAA-eligible individuals to the appropriate Title I staff member. WIOA staff must then provide supportive services as per this issuance and local supportive services policy...A trade-affected worker has the option of declining co-enrollment with the WIOA DLW program. However, AJC staff must thoroughly explain the benefits of co-enrollment to individuals whose employment is affected by foreign trade. It is recommended that AJC staff obtain a written statement from trade-impacted workers who wish to decline enrollment in the WIOA Dislocated Worker program. The statement should be uploaded to the virtual case management system. Regardless of whether a written statement to decline co-enrollment was provided, AJC staff must document in case/program notes that the benefits of co-enrollment were explained, as well as the individual's stated reason for declining DLW services (i.e., co-enrollment). This policy is disseminated when changes are required/made.

- (7) Describe the State's formal strategy to ensure that WIOA and TAA co-enrolled participants receive necessary funded benefits and services. Trade Act Sec. 239(f), Sec. 235, 20 CFR 618.816(c)

In areas in which TAA participants are present, TAA and WIOA staff establish and implement Co-Enrollment procedures which identify which services should be provided by TAA staff and which should be provided by WIOA staff. This includes determining who is responsible for enrollment procedures, assessments, IEP development, training and supportive service costs, and case management services.

- (8) Describe the State's process for familiarizing one-stop staff with the TAA program. 20 CFR 618.804(j), 20 CFR 618.305.

When the state is experiencing a significant increase in TAA certifications, the state will conduct annual/semi-annual statewide training on TAA policy and procedures. More generally, the state provides one-on-one training to specific areas or local workforce offices

affected by a trade-impacted event. This includes in-person onsite training, as well as providing additional assistance via emails, phone calls, or electronic (Teams) meetings.

(c) **Youth Program Requirements.** With respect to youth workforce investment activities authorized in section 129 of WIOA, States should describe their strategies that will support the implementation of youth activities under WIOA. State's must-

(1) Identify the State-developed criteria to be used by local boards in awarding grants or contracts for youth workforce investment activities and describe how the local boards will take into consideration the ability of the providers to meet performance accountability measures based on primary indicators of performance for the youth program as described in section 116(b)(2)(A)(ii) of WIOA.⁸ Further, include a description of how the State assists local areas in determining whether to contract for services or to provide some or all of the program elements directly.

The state developed criteria for local boards to utilize in awarding grants for youth workforce investment activities is Oklahoma Workforce Development Issuance 10-2017 "Fiscal Requirements, Procurement, and Contracting." Local areas must also follow the procurement requirements in the Uniform Code at 2 CFR 200.320.

The local board will evaluate the ability of the solicited contractors to deliver the full array of youth services within the workforce development area. Ability/experience normally includes a background in service provision within WIOA programs including experience in making performance measures and a track record in meeting or exceeding mandated performance criteria. All local areas must explain how the 14 WIOA youth program elements will be available to youth on an as needed basis and must include the elements in their procurements.

EXCEPTIONS: A local board may award grants or contracts on a sole-source basis if such board determines there is an insufficient number of eligible providers of youth workforce investment activities in the local area involved (such as a rural area) for grants and contracts to be awarded on a competitive basis: "sole source procurement" occurs when one of these circumstances apply:

- The item or service is available from only a single source.
- An emergency that will not permit the time required for a competitive solicitation exists.
- After solicitation from several sources, competition is determined inadequate.

(2) Explain how the State assists local workforce boards in achieving equitable results for out-of-school and in-school youth. Describe promising practices or partnership models that local areas are implementing and the state's role in supporting and scaling those models within the state for both in-school and out-of-school youth.

The state of Oklahoma vision for a quality public workforce is inclusive of services and outcomes that enable Oklahoma's population of in-school and out-of-school youth the opportunity based on eligibility to enter our comprehensive programs consisting of the required 14 program elements, after receiving an assessment to determine any barriers to education and employment via multiple assessment types. For example, the TABE, OKCareer

⁸ Sec. 102(b)(2)(D)(i)(V)

Guide in partnership with the Oklahoma Department of Career Technical Education, prior assessments of basic skills completed by partner agencies which is in line with state and federal statute to provide the flexibility to local partners and the seamless service individual youth need to fully engage in the appropriate services. We allow reliable assessment instruments and provide reasonable accommodations to youth with disabilities in the assessment process. Local programs may use previous basic skills assessment results if such previous assessments have been conducted within the past six months. Our effort is to ensure equality in opportunities in the outcomes for all youth.

Oklahoma continues its focus on all qualified youth being enrolled, served, and having a positive outcome and impact on the public workforce system including youth identified as disabled and those with severe developmental disabilities by connection of the Central Oklahoma Workforce Innovation Board as an example with the Dale Rogers population of youth at the heart of our flexible assessment definition of basic skills deficient as described in the State Plan. We've also taken full advantage of the flexibility in Section 681 to allow all eligible youth to be served including juvenile offenders such as those currently enrolled or exited in Oklahoma's WIOA youth program including Central Oklahoma Juvenile Center youth. Our goal is to increase workforce participation in Oklahoma. Therefore, a comprehensive workforce system is an inclusive system developed for all eligible youth.

- (3) Describe how the State assists local workforce boards in implementing innovative models for delivering youth workforce investment activities, including effective ways local workforce boards can make available the 14 program elements described in WIOA section 129(c)(2); and explain how local areas can ensure work experience, including quality pre-apprenticeship and registered apprenticeship, is prioritized as a key element within a broader career pathways strategy.

Oklahoma requires local workforce development board front line staff to demonstrate and document that clients are informed of the fourteen (14) program elements, offered the 14 program elements instead of only offering the elements they feel appropriate for the specific client. The elements that tie to the ISS must also be included in the ISS, including the follow-up element that all clients are required to be recipients of. Front line staff must also reach out to the youth that are in the exit and follow-up stage and inform them and offer them follow-up services that don't require reenrollment. Oklahoma's WIOA Youth program is the 14 program elements:

- Tutoring, study skills training, instruction and evidence-based dropout prevention and recovery strategies that lead to completion of the requirements for a secondary school diploma or its recognized equivalent (including a recognized certificate of attendance or similar document for individuals with disabilities) or for a recognized postsecondary credential.
- Alternative secondary school services, or dropout recovery services, as appropriate.
- Paid and unpaid work experiences that have academic and occupational education as a component of the work experience.
- Occupational skill training, which includes priority consideration for training programs that lead to recognized postsecondary credentials that align with in-demand industry sectors or occupations in the local area involved, if the Local WDB determines that the programs meet the quality criteria described in WIOA sec. 123.
- Education offered concurrently with and in the same context as workforce preparation activities and training for a specific occupation or occupational cluster.

- Leadership development opportunities, including community service and peer-centered activities encouraging responsibility and other positive social and civic behaviors:
- Supportive services, including the services listed in § 681.570.
- Adult mentoring for a duration of at least 12 months that may occur both during and after program participation.
- Follow-up services for not less than 12 months after the completion of participation, as provided in § 681.580.
- Comprehensive guidance and counseling, which may include drug and alcohol abuse counseling, as well as referrals to counseling, as appropriate to the needs of the individual youth:
 - Financial literacy education.
 - Entrepreneurial skills training.
 - Services that provide labor market and employment information about in-demand industry sectors or occupations available in the local area, such as career awareness, career counseling, and career exploration services.
- Activities that help youth prepare for and transition to postsecondary education and training.

The current youth policy also addresses each of the 14 program elements in detail and the state has set the elements as service delivery requirements in accordance with the WIOA statute; provided definitions of each element in detail in policy, and we also in policy have provided Oklahoma Service Link uploading, data entry and source documentation requirements to ensure that our local boards have the technical resources needed to successfully apply these elements.

Our local boards have been made aware through our policy and monitoring component that the discretion to determine what specific program services a youth participant receives is based on each participant's objective assessment and individual service strategy (ISS).

Technical assistance has also been provided in policy and the monitoring component that our local programs staff are not required to provide every program service to each participant. Again, provision of the required elements is based on the objective assessment and ISS.

We have advised our local boards of the necessity of braiding resources and will continue to support local partnering with qualified organizations with documented success at providing the elements.

The goal is to introduce youth to outlets to aid them in graduating from high school and venturing into postsecondary education. The state expects the providers of youth elements to evolve into the process for the purpose of providing specific elements via WIOA funding and leveraged funds and agreement or referral to a provider of the unique services. Examples of these providers are the public school system, youth based contractors, nonprofit organizations such as Habitat for Humanity, Salvation Army and the Urban League, Career Tech & Community Colleges, State Housing Agencies, YMCA and civil authorities.

- (4) Provide the language contained in the State policy for “requiring additional assistance to enter or complete an educational program, or to secure and hold employment” criterion for out-of-

school youth specified in WIOA section 129(a)(1)(B)(iii)(VIII) and for “requiring additional assistance to complete an education program, or to secure and hold employment” criterion for in-school youth specified in WIOA section 129(a)(1)(C)(iv)(VII). If the state does not have a policy, describe how the state will ensure that local areas will have a policy for these criteria. Oklahoma developed the additional assistance criteria to include a low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment as follows:

- A youth with a parent or legal guardian that is currently or previously incarcerated for a felony conviction;
- A youth with a parent or legal guardian who lacks a high school diploma or GED;
- A youth who attends or has attended chronically under performing schools listed as a priority or targeted intervention school on the Oklahoma State Department of Education website <http://sde.ok.gov/sde/priority-schools>; or <https://sde.ok.gov/comprehensive-support-and-improvement>; and/or
- A youth between 18-24 years of age with a pattern of poor work history defined as a history that includes non-reoccurring employment income and sporadic employment.

(d) **Single-area State requirements.** In States where there is only one local workforce investment area, the governor serves as both the State and local chief elected official. In such cases, the State must submit any information required in the local plan (WIOA section 106(d)(2)). States with a single workforce area must include—

- (1) Any comments from the public comment period that represent disagreement with the Plan. (WIOA section 108(d)(3).)
- (2) The entity responsible for the disbursement of grant funds, as determined by the governor, if different from that for the State. (WIOA section 108(b)(15).)
- (3) A description of the type and availability of WIOA title I Youth activities and successful models, including for youth with disabilities. (WIOA section 108(b)(9).)
- (4) A description of the roles and resource contributions of the one-stop partners.
- (5) The competitive process used to award the subgrants and contracts for title I activities.
- (6) How training services outlined in section 134 will be provided through individual training accounts and/or through contracts, and how such training approaches will be coordinated. Describe how the State will meet informed customer choice requirements regardless of training approach.
- (7) How the State Board, in fulfilling Local Board functions, will coordinate title I activities with those activities under title II. Describe how the State Board will carry out the review of local applications submitted under title II consistent with WIOA secs. 107(d)(11)(A) and (B)(i) and WIOA sec. 232.
- (8) Copies of executed cooperative agreements which define how all local service providers will carry out the requirements for integration of and access to the entire set of services available in the one-stop delivery system, including cooperative agreements with entities administering Rehabilitation Act programs and services.

(e) **Waiver Requests (optional).** States wanting to request waivers as part of their title I-B Operational Plan must include a waiver plan that includes the following information for each waiver requested:

- (1) Identifies the statutory or regulatory requirements for which a waiver is requested and the goals that the State or local area, as appropriate, intends to achieve as a result of the waiver and how those goals relate to the Unified or Combined State Plan;
- (2) Describes the actions that the State or local area, as appropriate, has undertaken to remove State or local statutory or regulatory barriers;
- (3) Describes the goals of the waiver and the expected programmatic outcomes if the request is granted;
- (4) Describes how the waiver will align with the Department’s policy priorities, such as:
 - (A) supporting employer engagement;
 - (B) connecting education and training strategies;
 - (C) supporting work-based learning;
 - (D) improving job and career results, and
 - (E) other guidance issued by the Department.
- (5) Describes the individuals affected by the waiver, including how the waiver will impact services for disadvantaged populations or individuals with multiple barriers to employment; and
- (6) Describes the processes used to:
 - (A) Monitor the progress in implementing the waiver;
 - (B) Provide notice to any local board affected by the waiver;
 - (C) Provide any local board affected by the waiver an opportunity to comment on the request;
 - (D) Ensure meaningful public comment, including comment by business and organized labor, on the waiver.
 - (E) Collect and report information about waiver outcomes in the State’s WIOA Annual Report.
- (7) The most recent data available regarding the results and outcomes observed through implementation of the existing waiver, in cases where the State seeks renewal of a previously approved waiver.

TITLE I-B ASSURANCES

The State Plan must include assurances that:	
1.	The State has implemented a policy to ensure Adult program funds provide a priority in the delivery of training services and individualized career services to individuals who are low income, public assistance recipients and basic skills deficient;
2.	The State has implemented a policy to ensure local areas have a process in place for referring veterans with significant barriers to employment to career services provided by the JVSG program’s Disabled Veterans’ Outreach Program (DVOP) specialist;
3.	The State has established a written policy and procedure that set forth criteria to be used by chief elected officials for the appointment of local workforce investment board members;

4.	The State established written policy and procedures to ensure local workforce investment boards are certified by the governor every two years in accordance with WIOA section 107(c)(2);
5.	Where an alternative entity takes the place of a State Board, the State has written policy and procedures to ensure the alternative entity meets the definition under WIOA section 101(e) and the legal requirements for membership;
6.	The State established a written policy and procedure for how the individuals and entities represented on the State Workforce Development Board help to determine the methods and factors of distribution, and how the State consults with chief elected officials in local areas throughout the State in determining the distributions;
7.	The State will not use funds received under WIOA Title I to assist, promote, or deter union organizing in accordance with WIOA section 181(b)(7);
8.	The State distributes adult and youth funds received under WIOA equitably throughout the State, and no local area suffers significant shifts in funding from year-to-year during the period covered by this plan;
9.	If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser services, Adult and Dislocated Worker programs and Youth Programs under Title I;
10.	The State agrees to report on the impact and outcomes of its approved waivers in its WIOA Annual Report.
11.	The State has taken appropriate action to secure compliance with the Uniform Guidance at 2 CFR 200 and 2 CFR 2900, including that the State will annually monitor local areas to ensure compliance and otherwise take appropriate action to secure compliance with the Uniform Guidance under section WIOA 184(a)(3);

WAGNER-PEYSER ACT PROGRAM (Employment Service)

(a) Employment Service Staff.

- (1) Describe how the State will staff the provision of labor exchange services under the Wagner-Peyser Act, such as through State employees, including but not limited to state merit staff employees, staff of a subrecipient, or some combination thereof.

Oklahoma will continue to staff the provision of labor exchange services using state merit staff employees.

- (2) Describe how the State will utilize professional development activities for Employment Service staff to ensure staff is able to provide high quality services to both jobseekers and employers.

As the administrative agency for Wagner-Peyser, the Oklahoma Employment Security Commission (OESC) supports the professional development of staff. Training personnel, business services representatives, and program subject matter experts work together to meet the training demands of the workforce system customers, managers, and staff.

OESC understands the importance of continuous improvement and meets quarterly to determine training needs, a review of national program requirements, system and procedure matters, and other service delivery development opportunities.

OESC believes strongly in the WIOA partnership and sends staff to annual partner conferences and other state or national opportunities to learn about and weigh in on critical system initiatives. We will continue to review and strengthen our professional development approach and customer product box so staff will be best positioned to provide adequate resolution at the first point of customer contact.

- (3) Describe strategies developed to support training and awareness across core programs and the Unemployment Insurance (UI) program and the training provided for Employment Service and WIOA staff on identification of UI eligibility issues and referral to UI staff for adjudication. The Oklahoma Employment Security Commission (OESC) is a very active, involved partner in the delivery of services in the Centers. In Oklahoma, both the Unemployment Insurance (UI) and Wagner-Peyser/Employment Services (ES) programs are administered by OESC. As an agency, they have approached service delivery to customers by cross-training agency staff, both ES and UI staff, as well as Partner staff, on these two major Federal programs.

The following types of training have been and will continue to be provided to Center staff to assist with identification of potential UI eligibility issues and referral to UI for adjudication:

- What kinds of issues create eligibility problems for those claimants receiving UI? Some of the common UI issues covered in training: a) Ability to work; b) Availability to seek and accept work; c) Refusal of a job referral; d) How to report acceptance of employment; and e) Failure to report for a scheduled, required reemployment session.
- What kind of information is important to gather when it comes to “fact-finding” about potential UI issues? Some of the common topics covered in training: a) Instruction to all staff on how to conduct quality fact-finding when taking statements for UI purposes; and b) Instruction on how to add issues to or report issues about claims so they will be assigned to an Adjudicator for further investigation and subsequent determination.
- What are the processes for reporting of issues and subsequent Adjudication procedures? a) Information about reporting potential issues to UI staff such as using specified forms and emailing specified departments; b) Information on the Adjudication processes for reemployment services such as call-ins being sent to obtain claimant information when the claimant fails to report, when denials are issued on a claim, length of disqualifications; etc. c) Information on the process to be followed when a claimant reports to a required reemployment service after a disqualification has been issued.

- What are the steps to validate claimant identity? Center staff assist UI claimants with Identity Verification which is an integral part of the UI claims process. Staff members have been trained in the types of acceptable documents and how to identify non-legitimate or questionable documents.

We have launched a partnership between ES Staff in the American Job Centers and our UI Contact Center, in which several ES Center staff have received the same level of extensive training provided to UI Contact Center staff. This has expanded the capability of our ES Centers to provide a greater level of claims resolution to UI claimants visiting our centers. The trained ES Center staff are embedded in UI Contact Center operations on a regular cadence to foster expansion and retention of UI expertise.

In addition, reference material is provided to Center Staff and One-Stop Operators and/or Managers provide supplemental training to an integrated staff through weekly Center meetings. This detailed approach fosters an environment for knowledge growth and continues to keep Oklahoma focused on service delivery as defined by WIOA.

UI Contact Center staff have been trained to identify when UI claimants are out of compliance with the work registration requirement and are able to walk the claimant through the registration process.

(b) Explain how the State will provide information and meaningful assistance to individuals requesting assistance in filing a claim for unemployment compensation through one-stop centers, as required by WIOA as a career service.

Oklahoma continues its support of unemployed individuals by providing trained, knowledgeable, integrated staff members to help the customer through the claims filing process while leveraging technology. OESC has transitioned all initial unemployment insurance claims to an online platform in an effort to ensure more meaningful assistance is provided through support staff throughout the America Job Centers in Oklahoma. Meaningful assistance applies in every scenario where we communicate with an unemployed individual with the following staff assisted services:

- Informing claimants of their right to an Appeal. This may also include showing the claimants where/how to file.
- Providing resume assistance and/or guiding the claimant through their responsibility to register for work – Staff may provide the customer with step-by-step guidance on the OKJobMatch resume builder and/or help the claimant create a resume appropriate for upload. Any resume service should result in one or more soft or hard copy resume options of superior quality.
- Informing claimants of their right to receive (and signing them up for) other reemployment services such as the various job seeker skills development workshops or working with the claimant to create a detailed reemployment plan.
- Giving the customer information about their responsibility to search for work including where to find and how to fill out their work search log and/or advising customers on what constitutes an allowable work search item.
- Informing the customer about their responsibility to keep all scheduled appointments and return all requested documentation.
- Guiding the claimant through LinkedIn registration or other appropriate social media and job search tools that aid them in performing their work search responsibilities. In addition, ensuring claimants take advantage of getting OKJobMatch notifications of available jobs.

- Assistance with the filing of initial or weekly claims. This means sitting down with the customer and walking them through the Online Network Initial Claims (ONIC) online filing tool and pointing out the various self-service information options available to them.
- Informing the customer about their responsibility to accept offers of suitable work.

For those claimants who are Limited English Proficient, the online claims system has a language translator. Center staff can assist the customer in accessing the translator or use language lines to assist such individuals during the claims filing process. OESC has also enhanced our individual voice response system and Spanish and Vietnamese translations available. For those individuals who are deaf or hard of hearing, TTY services are also available.

(c) Describe the State’s strategy for providing reemployment assistance to UI claimants and other unemployed individuals.

In addition to other career services in the Oklahoma Works centers, Oklahoma provides Reemployment Services and Eligibility Assessment services to help Unemployment Insurance (UI) claimants and/or unemployed individuals return to work more quickly.

Reemployment Services and Eligibility Assessment (RESEA)

RESEA Reemployment Services and Eligibility Assessment (RESEA) is an individualized, one-to-one reemployment-focused process that provides reemployment services to claimants who are unlikely to return to their previous industry or occupation and who have been deemed likely to exhaust benefits. The RESEA program came into existence when it replaced the voluntary Unemployment Insurance (UI) Reemployment and Eligibility Assessment (REA) program that began in 2005. The RESEA program provides greater access to reemployment services in addition to the services previously provided by REA. In Fiscal Year 2018, amendments to the Social Security Act permanently authorized the RESEA program and implemented significant changes to the program. The permanent RESEA program has four purposes. 1. Reduce UI duration through improved employment outcomes, 2. Strengthen UI program integrity, 3. Promote the alignment of the vision of the Workforce Innovation and Opportunity Act (WIOA), 4. Establish RESEA as an entry point to other workforce system partners.

The RESEA programs targets UI claimants determined to most likely exhaust benefits and former U.S. military service members receiving Unemployment Compensation for Ex-service members (UCX). The permanent authorization of the RESEA program gives Oklahoma the flexibility to target any UI and UCX recipient. In addition to those who are most likely to exhaust benefits, we also target recipients in declining Industries. Claimants who are eligible for the program are identified early in the claim’s series and remain eligible for the program until they receive their fifth week of UI benefit. Once selected the claimant’s participation in RESEA is mandatory and failure to complete service may affect the claimant’s UI benefits.

RESEA services are administered through Oklahoma Works American Job Centers and is an entry point into the One-Stop System. Participants selected for RESEA will receive an individualized appointment with AJC staff to assist them with returning to work quickly. Services provided by staff includes but not limited to an online Orientation to Reemployment Services video; Reemployment Needs Inventory & Eligibility Review; Assessment of a claimant’s skills and career goals and assistance with establishing employment goals; Individual Reemployment Plan; resume assistance; Labor Market Information and Job referral; Referral to appropriate reemployment services; and 30-day Follow-up appointment. Appointments are conducted in person but may be completed virtually or by phone due to extenuating circumstances. In addition to these required services, RESEA participants are eligible to receive all available services provided by AJC to assist them with reentering the workforce.

(d) Describe how the State will use Wagner-Peyser Act funds to support UI claimants, and the communication between the Employment Service and UI, as appropriate including the following:

- (1) Coordination of and provision of labor exchange services for UI claimants as required by the Wagner-Peyser Act;
The Oklahoma Employment Security Commission (OESC) complies with this requirement to use Wagner-Peyser funds to support UI claimants. In Oklahoma both the Unemployment Insurance Program and Wagner-Peyser are administered by the same agency, OESC. Labor exchange services are provided to all customers accessing the workforce centers by Wagner-Peyser staff. In fact, there is a special emphasis placed on serving UI claimants to help connect them back to work as quickly as possible.
- (2) Registration of UI claimants with the State's employment service if required by State law;
In Oklahoma claimants must register for work in the state labor exchange system within seven days of filing their initial claim. Claimants are informed both when they file online and when they file via the Interactive Voice Response (IVR) system that they must complete the registration for work within the seven-day requirement. Claimants are required to read and acknowledge understanding of the Benefit Rights Interview (BRI), which has information regarding work registration, before completing their claim. If a claimant does not comply with this requirement, benefits will not be awarded until the requirement has been met. Any week(s) filed prior to compliance with the registration requirement are considered ineligible and will not be paid.
- (3) Administration of the work test for the State unemployment compensation system, including making eligibility assessments (for referral to UI adjudication, if needed), and providing job finding and placement services for UI claimants; and
Claimants in Oklahoma must now file their initial claims online via the Oklahoma Network Initial Claims (ONIC) system; however, they may file their continued weekly claim to receive benefit payment by telephone via the Interactive Voice Response (IVR) system or online.

Oklahoma has enhanced its online services to include robust service delivery around unemployment claims. The online service options for claimants are: 1) File your initial claim; 2) File your weekly claim for benefit payment; 3) Inquire on an existing claim; 4) Request a 1099; 5) Change your contact information i.e., address, phone number, and email; 6) Change your PIN; and 7) File your appeal. Claimants can also access frequently asked question documents, appeal information, the Reemployment Assistance for the Unemployed booklet, the work search form, and critical information about their debit card.

Through both filing processes, potential eligibility issues are identified based upon the claimants' response to questions during the application for benefits process.

Reemployment of claimants continues to be a priority for Oklahoma. OESC has modified and enhanced services to claimants to ensure the registration for work requirement is met along with required attendance at and completion of other reemployment assistance services. UI claimants receive reemployment information throughout their claims process to include but not limited to; information of available services in Oklahoma Works Centers, resume assistance, job referrals, job search workshops, work search review and access to skills-based training. Additionally, Oklahoma has incorporated within our employer customer service line, a main menu option, specifically for employers as an available avenue for toward employers who wish to report UI claimants who have

refuse work or fail to return to work following a temporary layoff. Regardless of the point of entry for the claimant, the result continues to be reemployment.

(4) Provision of referrals to and application assistance for training and education programs and resources.

Within the Oklahoma workforce development system, known as Oklahoma Works, is a network of Centers or One-Stop offices where employment, education and training providers are integrating services to assist both job seekers and employers. Job Seeker customers receive assistance preparing for and searching for work, making career decisions, and accessing training opportunities.

Most people who walk into an Oklahoma Works Center are in search of information such as where the job openings are located, what training opportunities exist, or what kinds of community services are available. They may also need a computer, phone, or fax.

These core services are available to everyone through the Centers, usually with limited assistance. In fact, there are full-service, comprehensive "Resource Rooms" set aside for self-help, or limited assistance, much like a community library. There are computers and software for customers to prepare a resume, for instance, with books, videos, and even staff nearby to answer basic questions or give limited guidance.

During center orientations, customers receive information regarding workforce services, programs, and partner resources. This includes information about internal and external training and educational programs, including referrals to WIOA. Customers have access to resources and handouts. Online, customers may research information about different training programs within their community, statewide, and nationally. Oklahoma Works Center representatives provide individualized information and resources that assist the customer in making the most informed choice.

For those individuals who require more in-depth assistance, Oklahoma requires applicants to complete questionnaires which will assist us in determining what services will best fit the customer's needs and which agencies or partners will be best equipped to fill such needs. The customer and the Center staff will discuss items like background, education and/or certifications, experience and work history, skills, etc. and then map out a strategy to get the customer on a career or training path. The information that is obtained creates a "snapshot" of potential program eligibility thus allowing Center staff to make proper referrals to additional programs or resources.

(e) **Agricultural Outreach Plan (AOP)**. Each State agency must develop an AOP every four years as part of the Unified or Combined State Plan required under sections 102 or 103 of WIOA. The AOP must include an assessment of need.

(1) **Assessment of Need**. Provide an assessment of the unique needs of farmworkers in the area based on past and projected agricultural and farmworker activity in the State. Such needs may include but are not limited to: employment, training, and housing.

Oklahoma continues to seek identification of the Migrant and Seasonal Farmworker (MSFW) population. Potential exclusion from public program benefits such as unemployment and the fear of displacement and potential deportation results in mistrust and hesitancy, making locating and assessing the needs of this population difficult. According to the last available Census of

Agriculture in 2017, Oklahoma had a total of 787 migrant workers, not including family members. Based on the comments from our outreach workers, the main needs of our MSFW population are gaining access to the services offered by the state and other partnering agencies. These services include training, education, access to health care, insurance and transportation. Lack of identification and contact makes it difficult to know the true depth and MSFWs who are willing to seek out services are rarely provided transportation to be able to come to the nearest town much less the nearest American Job Center (AJC). Additionally, the business hours of the AJC do not align with the MSFWs non-working hours, so outreach efforts are focused on bringing the needed information to the MSFW in the fields, communities, businesses, or service providers they frequent.

- (2) Provide an assessment of the agricultural activity in the State: 1) identify the top five labor-intensive crops, the months of heavy activity, and the geographic area of prime activity; 2) Summarize the agricultural employers' needs in the State (i.e. are they predominantly hiring local or foreign workers, are they expressing that there is a scarcity in the agricultural workforce); and 3) Identify any economic, natural, or other factors that are affecting agriculture in the State or any projected factors that will affect agriculture in the State.

The following information regarding Oklahoma agriculture was obtained from the 2018 Oklahoma Agricultural Statistics, issued cooperatively by the National Agricultural Statistics Service and the Oklahoma Department of Agriculture, Food and Forestry. (This is a summary of data through 2018 which is the latest data available.)

1) identifying the top five labor-intensive crops, the months of heavy activity, and the geographic area of prime activity:

Most major crops in Oklahoma are no longer considered labor-intensive with the exception of watermelon. Increased mechanization/technology, herbicides and genetically superior seeds/plants have continued to greatly reduce the need for vast numbers of laborers as in years past. However, the specialty crops/livestock related products and vegetables/produce for Farmers Markets are increasingly providing labor-intense work opportunities. Others have pursued some of these new ventures such as: Grass-fed dairy/beef, free range chicken and revitalization of sheep for meat, wool and wool products. The leading agricultural activities in Oklahoma are:

	<u>Farms</u>	<u>Sales</u> <u>(\$1,000)</u>	<u>Percent</u> <u>of Total Sales</u>
<u>Cattle and calves</u>	<u>52,048</u>	<u>\$3,729,662</u>	<u>1.39%</u>
<u>Grains, oilseeds, dry beans, and dry peas</u>	<u>7,621</u>	<u>\$789,056</u>	<u>0.96%</u>
<u>Poultry and eggs</u>	<u>10,573</u>	<u>\$934,854</u>	<u>1.13%</u>
<u>Hogs and pigs</u>	<u>2,264</u>	<u>\$1,030,645</u>	<u>0.2%</u>
<u>Other crops and hay</u>	<u>18,097</u>	<u>\$202,433</u>	<u>8.9%</u>
<u>Nursery, green house, floriculture, and sod</u>	<u>388</u>	<u>\$157,762</u>	<u>0.2%</u>
<u>Milk from cows</u>	<u>471</u>	<u>\$173,116</u>	<u>0.3%</u>
<u>Cotton and cottonseed</u>	<u>1,488</u>	<u>\$299,546</u>	<u>0.5%</u>
<u>Horses, ponies, mules, burros, and donkeys</u>	<u>4,085</u>	<u>\$51,067</u>	<u>8%</u>
<u>Fruits, tree nuts, and berries</u>	<u>405</u>	<u>\$50,600</u>	<u>0.8%</u>

<u>Vegetables, melons, potatoes, and sweet potatoes</u>	<u>511</u>	<u>\$16,981</u>	<u>3%</u>
<u>Sheep, goats, wool, mohair, and milk</u>	<u>2,216</u>	<u>\$13,406</u>	<u>17%</u>
<u>Other animals and other animal products</u>	<u>988</u>	<u>\$11,378</u>	<u>8%</u>
<u>Aquaculture</u>	<u>43</u>	<u>\$4,632</u>	<u>0.9%</u>
<u>Cut Christmas trees and short rotation woody crops</u>	<u>33</u>	<u>\$373</u>	<u>8%</u>
<u>Tobacco</u>	<u>=</u>	<u>=</u>	<u>=</u>
<u>Totals:</u>	<u>80,245</u>	<u>\$7,129,584</u>	<u>100%</u>

The table below details the heaviest crop activity related to planting and harvesting during the 12 month calendar year beginning with January and going through December. The frost free period is from mid-April until the 3rd week of October.

<u>Crop</u>	<u>Planting</u>	<u>Harvest</u>
<u>Winter Wheat:</u>	<u>Early Sep to Early Nov</u>	<u>June to Early July</u>
<u>Canola:</u>	<u>Early Sep to Early Oct</u>	<u>Mid May through June</u>
<u>Spring Oats:</u>	<u>Mid Feb to March</u>	<u>June to Mid-July</u>
<u>Corn:</u>	<u>Late March to Mid-May</u>	<u>Mid Aug to Late Oct</u>
<u>Soybeans:</u>	<u>Mid-April to Mid-July</u>	<u>Mid Sep through Nov</u>
<u>Sorghum:</u>	<u>Mid-April to Mid-July</u>	<u>Mid Sep through Nov</u>
<u>Peanuts:</u>	<u>Late April to Mid-June</u>	<u>Oct to Nov</u>
<u>Sunflowers:</u>	<u>May to July</u>	<u>Aug to Mid Dec</u>
<u>Cotton:</u>	<u>May to Late June</u>	<u>Oct through Dec</u>
<u>Alfalfa Hay:</u>		<u>Late April to Mid Oct</u>

Oklahoma is most easily divided west and east with regard to agricultural activity. WESTERN OKLAHOMA is a predominant supplier of wheat, sorghum, canola, peanuts, cotton, corn and alfalfa. EASTERN OKLAHOMA is a predominant supplier of soybeans, hay, and corn.

2) Summarize the agricultural employers' needs in the State (i.e. are they predominantly hiring local or foreign workers, are they expressing that there is a scarcity in the agricultural workforce):

According to various sources, most agricultural employers appear to have no major issues finding local workers to perform work around the farms. They enlist family members and friends and utilize word of mouth advertising in their hiring practices. However, data shows that the H-2A Program continues to grow each year at a rate of approximately 12.5%.

3) Identifying any economic, natural, or other factors that are affecting agriculture in the State or any projected factors that will affect agriculture in the State:

Oklahoma is found in the Great Plains; geographically centered within the 48 contiguous states and the 20th largest at 69,903 square miles. Ecosystems range from dry, arid plains to subtropical forests and mountains, having more ecological regions than any other state. Elevations range from 4,368 feet above sea level in the western panhandle to 289 feet above sea level in the southeast portion of the state. The mean elevation of Oklahoma is 1,300 feet above sea level. Because of Oklahoma's location

between regions of varying prevailing winds, its climate, temperatures, and weather, it makes for extreme variance in a locality's weather from day-to-day and extreme change between areas in proximity. Because of this, an average of 62 tornados a year, drought, flood, extreme temperature variations and unpredictable weather in general, Oklahoma farmers deal with very unpredictable seasons, making for constantly changing plans for raising and changing crops and livestock to turn a profit. Average annual precipitation ranges from 18" over 59 days in the western portion of the state to 51.9" over 96 days in the eastern portion of the state. Frost free periods in the western portions are typically about 143 days and 185 days in the eastern portion.

- (3) Provide an assessment of the unique needs of farmworkers by summarizing Migrant and Seasonal Farm Worker (MSFW) characteristics (including if they are predominantly from certain countries, what language(s) they speak, the approximate number of MSFWs in the State during peak season and during low season, and whether they tend to be migrant, seasonal, or year-round farmworkers). This information must take into account data supplied by WIOA Section 167 National Farmworker Jobs Program (NFJP) grantees, other MSFW organizations, employer organizations, and State and/or Federal agency data sources such as the U.S. Department of Agriculture and the U.S. Department of Labor (DOL) Employment and Training Administration.

Oklahoma's foreign MSFWs are primarily from Mexico and other South American countries. The primary language spoken by MSFWs is Spanish, with English frequently being a primary or secondary language.

A review of Oklahoma's Foreign Labor certification program data from October 1, 2021 to September 30, 2022 finds that H-2A posted 950 of their 1,316 openings during our peak hiring season (October through March), representing almost all of the positions posted.

Reviewing O*Net Online 10-year, 2014-2024, predictions, agricultural positions in Oklahoma will show some growth and some loss: • 45-2091.00 Agricultural Equipment Operators +2% • 45-2092.00 Farmworkers and Laborers, Crop, Nursery, and Greenhouse -8% • 45-2093.00 Farmworkers, Farm, Ranch and Aquacultural Animals +5% • 45-2041.00 Graders and Sorters, Agricultural Products -7%.

Discussions with WIOA Section 167 National Farmworker Jobs Program (NFJP) grantee, ORO Development Corporation, and employers in agriculture during the 2021 Annual Prevailing Wage and Practice Survey have highlighted an issue with energy- and infrastructure-related employment in Oklahoma, enticing away many of the agricultural employers' best workers.

- (4) Outreach Activities. The local offices outreach activities must be designed to meet the needs of MSFWs in the State and to locate and contact MSFWs who are not being reached through normal intake activities. Describe the State agency's proposed strategies for:

- (1) Contacting farmworkers who are not being reached by the normal intake activities conducted by the employment service offices.

Although Oklahoma is not designated as a significant MSFW state due to the low percentage of MSFW's identified, the state continues to improve outreach efforts. Oklahoma has three designated outreach workers, one full-time Outreach Coordinator covering the entire state and backing up the two part-time outreach workers, one located in the Western part of Oklahoma and the other located in the Eastern part of the state; all in an effort to provide services that are qualitatively equivalent and quantitatively proportionate to services provided to other jobseekers. The strategy in utilizing the full-time Outreach Coordinator is to provide consistency, build trust, and create relationships with the MSFWs and their employers.

The MSFW community face many hurdles in being able to visit the American Job Center due to the hours worked, lack of transportation, and a general mistrust of governmental agencies. The state's strategies to locate and serve farmworkers include:

Agricultural Outreach Group – meets quarterly to discuss available services, upcoming outreach events, and identify the most pressing or newest needs of the MSFW community. The group includes multiple federal, state, and local agencies, as well as various community partners.

Quarterly Training Programs – for all workforce system stakeholders include: program knowledge, how to identify MSFWs, service needs, and resource agencies. *(see more detail in the next section)*

Flyers and Electronic Media/Tools – to ensure equitable access to services and information, are provided in English and Spanish with provisions for meeting other English Language Learner or English as a Second Language needs.

Collaboration with the NFJP partner, ORO Development Corporation (ORO) – to provide employment, training, supportive, and High School Equivalency Program (HEP) services. This collaboration happens at the state administrative levels and through the American Job Centers. ORO has staff in three AJCs, working alongside Employment Services staff, Title I staff, and other partners to further meet the needs of the parts of the state with a higher concentration of MSFWs. The State Monitor Advocate (SMA) and the Outreach Coordinator work with ORO to coordinate planning efforts, outreach activities, and service delivery.

- (2) Providing technical assistance to outreach staff. Technical assistance must include trainings, conferences, additional resources, and increased collaboration with other organizations on topics such as one-stop center services (i.e. availability of referrals to training, supportive services, and career services, as well as specific employment opportunities), the Employment Service and Employment-Related Law Complaint System ("Complaint System" described at 20 CFR 658 Subpart E), information on the other organizations serving MSFWs in the area, and a basic summary of farmworker rights, including their rights with respect to the terms and conditions of employment.
- (3) Increasing outreach staff training and awareness across core programs including the Unemployment Insurance (UI) program and the training on identification of UI eligibility issues.

The SMA and Outreach Coordinator are partnering with State Workforce Agency's (SWA) Training Department to develop on-demand, eLearning materials that include, but are not limited to: program knowledge, how to correctly identify MSFWs, service needs, and resource agencies, making agricultural employer or jobseeker contacts, job order requirements, referrals to posted jobs and all center services, worker rights, the complaint system, unemployment insurance information, and sexual harassment/human trafficking. These eLearning modules will address past and current regulatory requirements found in 20 CFR Part 653 and will be extended to all

workforce system partners, programs, and other stakeholders including those at the community and federal levels.

The SWA will continue to evaluate and update its Memorandum of Understanding (MOU) with ORO to ensure coordination, compliance, and connection to the most needed intensive, supportive, and training services. Additional partnerships include but are not limited to: the Oklahoma Department of Education, the Oklahoma Departments of Labor, an MOU with the US Department of Labor Wage and Hour Division, ORO Development Corporation (Section 167 NFJP grant recipient), local Workforce Development Boards, the Mexican Consulate, Legal Aid of Oklahoma, and the Department of Agriculture.

New contacts being sought beginning in PY23 include various health related organizations, OSHA, the US Department of Justice, the Environmental Protections Agency, the Centers for Disease Control, and Health & Human Services. The SMA and full-time Outreach Coordinator are collaborating with the Red Cross and Catholic Charities to establish 24-hour emergency procedures to assist with MSFWs who may find themselves stranded or needing immediate assistance outside of normal working hours.

- (4) Providing outreach staff professional development activities to ensure they can provide high quality services to both jobseekers and employers.

The SWA's on-demand, eLearning approach extends to the training and development of state merit staff outreach workers and other core programs in the workforce system including the Unemployment Insurance (UI) program and UI eligibility. The UI-related training will address items such as eligibility, program services and benefits, how-to-apply, and who to contact for further assistance. Oklahoma is also focused on national professional development opportunities such as WIOA related trainings, continuing education, webinars presented by the National Monitor Advocate and other relevant training or informational events. These will be attended by the full-time Outreach Coordinator, within the limits of available resources, and will be shared train-the-trainer style with the part-time outreach staff and other AJC partners and staff as appropriate. In addition, the outreach workers are all permanent members of the Agricultural Outreach Group.

- (5) Coordinating outreach efforts with NFJP grantees as well as with public and private community service agencies and MSFW groups.

Oklahoma will continue to collaborate on outreach efforts and coordinate service delivery, with the WIOA Section 167 NFJP grantee, ORO Development Corporation. This effort is formalized in a Memorandum of Understanding (MOU) with the Oklahoma Employment Security Commission. Collaborations through the Agricultural Outreach Group and the MOU with the USDOL Wage and Hour Division serve as examples of the state's efforts related to outreach and service delivery.

- (5) Services provided to farmworkers and agricultural employers through the one-stop delivery system.
Describe the State agency's proposed strategies for:

(A) Providing the full range of employment and training services to the agricultural community, both farmworkers and agricultural employers, through the one-stop delivery system. This includes:

(i) How career and training services required under WIOA Title I will be provided to MSFWs through the one-stop centers;

Oklahoma's strategy for providing career and training services to MSFWs through the one stop centers include:

Resources and Assistance Available in Languages Other than English – to ensure equitable access to services and information, flyers and other materials are provided in English and Spanish with provisions for meeting other English Language Learner or English as a Second Language needs through contracts with vendors such as the Language Line.

The OESC is currently translating all internal and external communications, forms, and web-based applications in Spanish and Vietnamese. In addition, bilingual staff are present in some of the one-stop-centers, eleven (11) employed by the OESC and four (4) by ORO. Access to those staff are provided via video chat or telephone to serve the needs of those in other areas.

Partnerships with and Referrals to Other Programs/Agencies – Section 2.B. provides details on the vast partnerships currently in place as well as new partnerships happening in PY23. Relationship building, information sharing, and education are a core part of these partnerships that result in collaborations like the one between the SWA, the Red Cross, and Catholic Charities to establish 24-hour emergency procedures to assist with MSFWs who may find themselves stranded or needing immediate assistance outside of normal working hours.

Equitable Access and Quality Service Delivery – MSFWs are provided the same level of service as any other one-stop-center customer including but not limited to: access to job postings, referrals and job developments; training supportive services; assistance in using or accessing the State Labor Exchange System; career assessments; information on MSFW rights and protections; a system for registering complaints; information and referrals to other agencies for training and supportive services; labor market information, use of computers, phones and faxes, a variety of career workshops, resume assistance and language services. Moreover, Oklahoma's efforts to expand service delivery by meeting customers where they live and work includes the MSFW population. This means they will receive equitable access to all available one-stop-center services via video chat or telephone or at another brick and mortar location if appropriate or necessary when getting to the one-stop-center is not feasible.

(ii) How the State serves agricultural employers and how it intends to improve such services.

Agricultural employers receive specialized assistance in filling their job openings through compliant job orders in the State Labor Exchange System. Applicants to these jobs are screened by American Job Center staff, receiving information regarding the conditions, duties, pay, and any unique requirements of these positions. Once applicants have passed the screening portion, job referrals are made and the how-to-apply instructions are given to the applicant. Education and

technical assistance relating to finding qualified applicants through the Agricultural Recruitment System, providing pre-occupancy housing inspections and assisting agents/employers with job posting requirements, providing information on the unique needs of farmworkers, and compliance with wage and hour and relevant Occupational Safety and Health Administration regulations are also available to these employers.

- (B) Marketing the Complaint System to farmworkers and other farmworker advocacy groups.

The previously mentioned strategic approach of the full-time Outreach Coordinator position is to provide consistency, build trust, and create relationships with farmworkers themselves, employers, and other farmworker advocacy groups. This previously established connection gives the Outreach Coordinator, and by association the SWA, credibility as we deliver important program information via presentations, meetings and seminars, email newsletters, the public website, etc. around workers' rights and protections, the key features of the ES complaint system, and why it is crucial element for workers, employers, and advocacy groups.

- (C) Marketing the Agricultural Recruitment System for U.S. Workers (ARS) to agricultural employers and how it intends to improve such publicity.

Oklahoma currently markets the Agricultural Recruitment System (ARS) through the SWA public website. The Oklahoma Agricultural Recruitment Handbook for employers and farmworkers is in development and expected completion is PY23. Once available, these handbooks will be marketed through the American Job Centers, employer associations and agents, local workforce partners and stakeholders, and the public website. Training will be provided to AJC staff on the ARS, related MSFW topics, and agricultural employer topics. Additionally, ARS information will be marketed through attachments to our Annual Wage and Hour surveys, email blasts to those employers with agricultural NAICS codes, and the public website. Training to address the specific requirements for all agricultural job orders handled by center staff is in development so that staff will be able to better communicate the advantages and requirements of the ARS.

(6) Other Requirements.

- (A) *Collaboration.* Describe any collaborative agreements the State Workforce Agency (SWA) has with other MSFW service providers including NFJP grantees and other service providers. Describe how the SWA intends to build upon/increase collaboration with existing partners and establish new partners over the next four years (including any approximate timelines for establishing agreements or building upon existing agreements).

As identified in previous sections, OESC has collaborative agreements with ORO Development Corporation, our NFJP Partner, as well as all three workforce development boards, and the US Department of Labor Wage & Hour Division. We are working on establishing collaborative agreements with the Guatemalan Consulate, the Mexican Consulate, and other members of the Agricultural Outreach Group.

(B) *Review and Public Comment.* In developing the AOP, the SWA must solicit information and suggestions from NFJP grantees, other appropriate MSFW groups, public agencies, agricultural employer organizations, and other interested organizations. In addition, at least 45 calendar days before submitting its final AOP, the SWA must provide a proposed plan to NFJP grantees, public agencies, agricultural employer organizations, and other organizations expressing an interest and allow at least 30 days for review and comment. The SWA must: 1) Consider any comments received in formulating its final proposed AOP; 2) Inform all commenting parties in writing whether their comments have been incorporated and, if not, the reasons therefore; and 3) Transmit the comments and recommendations received and its responses with the submission of the AOP.

i. The AOP must include a statement confirming NFJP grantees, other appropriate MSFW groups, public agencies, agricultural employer organizations and other interested employer organizations have been given an opportunity to comment on the AOP. Include the list of organizations from which information and suggestions were solicited, any comments received, and responses to those comments.

Work Ready Oklahoma			

(C) *Data Assessment.* Review the previous four years Wagner-Peyser Act data reports on performance. Note whether the State has been meeting its goals to provide MSFWs quantitatively proportionate services as compared to non-MSFWs. If it has not met

these goals, explain why the State believes such goals were not met and how the State intends to improve its provision of services in order to meet such goals. A review of the past four (4) years of data from the USDOL Labor Exchange Agricultural Reporting System (LEARS) addressing that MSFWs are provided quantitatively proportionate services as non-MSFWs shows that Oklahoma met the required levels. The monitoring and review process of every applicant who registers as a MSFW allows real-time proper and correct identification of miss-classified applicants. In addition, the process means real-time communication with those MSFWs to ensure availability of programs, service needs, and potential barriers are understood before referrals are made. Oklahoma believes the proper identification of MSFWs at American Job Centers and in the State Labor Exchange System along with intensive outreach and real-time follow-up will result in meeting more equity indicators each quarter. The SMA will continue to review and advocate for improved data representative of the agricultural community, its employers and workers.

(D) *Assessment of progress.* The plan must include an explanation of what was achieved based on the previous AOP, what was not achieved and an explanation as to why the State believes the goals were not achieved, and how the State intends to remedy the gaps of achievement in the coming year.

Progress from the last plan has been made. This includes but is not limited to:

- The assignment of a full-time State Monitor Advocate and the addition of a full-time Outreach Coordinator to support the two part-time outreach workers and provide consistency, build trust, and create relationships with the workforce system stakeholders, the MSFWs and their employers.
- The re-establishment of an Agricultural Outreach Group as a joint effort between OESC and USDOL Wage & Hour and includes the NFJP grantee, ORO. This group continues to grow and is becoming more unified in strategies to educate others about the needs and concerns of MSFWs and planning outreach activities.
- Identification of significant documents, informational materials, and other items used daily by the AJC which need translation to Spanish, the primary non-English language identified.
- Identification of additional agricultural groups, organizations, and associations and pursuing alliances with them. This primarily occurs through the Agricultural Outreach Group. A good example of this activity is the collaboration with the Red Cross and Catholic Charities to establish 24-hour emergency procedures to assist with MSFWs who may find themselves stranded or needing immediate assistance outside of normal working hours.
- Establishment of a more visible MSFW internet presence through the development and continued updates of an Oklahoma State Monitor Advocate webpage on the public website.
- Development of a social media campaign to expand outreach and disseminate information.
- Instructor-led training kicked off in PY22 for MSFWs and the ES Complaint System that included procedures and desk aids for state merit staff.

Several activities needing further attention which are carried over to this plan, include but are not limited to:

- On-going AJC reviews to identify technical assistance opportunities for additional training and support. This includes efforts identified in this plan for AJC staff and other workforce system stakeholders that include on-demand, eLearning presentations and other training materials as needed.
- The development and distribution of ARS handbooks to assist both farmworkers and employers.
- Identification of proven LMI methods and other data gathering resources for better identification of MSFWs in the state. The SMA will continue to identify data shortcomings on available MSFW information seeking assistance from the SWA Research Division, federal partners, and other key stakeholders.

(E) *State Monitor Advocate*. The plan must contain a statement confirming the State Monitor Advocate has reviewed and approved the AOP.

Update of the Oklahoma State AOP was completed, reviewed & approved by Oklahoma State Monitor Advocate on mm/dd/yyyy.

WAGNER-PEYSER ASSURANCES

The State Plan must include assurances that:	
1.	The Wagner-Peyser Act Employment Service is co-located with one-stop centers or a plan and timeline has been developed to comply with this requirement within a reasonable amount of time. (sec 121(e)(3));
2.	If the State has significant MSFW one-stop centers, the State agency is complying with the requirements under 20 CFR 653.111, State Workforce Agency staffing requirements;
3.	If a State Workforce Development Board, department, or agency administers State laws for vocational rehabilitation of persons with disabilities, that board, department, or agency cooperates with the agency that administers Wagner-Peyser Act services, Adult and Dislocated Worker programs and Youth Programs under Title I; and

4.	SWA officials: <ol style="list-style-type: none">1) Initiate the discontinuation of services;2) Make the determination that services need to be discontinued;3) Make the determination to reinstate services after the services have been discontinued;4) Approve corrective action plans;5) Approve the removal of an employer's clearance orders from interstate or intrastate clearance if the employer was granted conditional access to ARS and did not come into compliance within 5 calendar days;6) Enter into agreements with State and Federal enforcement agencies for enforcement-agency staff to conduct field checks on the SWAs' behalf (if the SWA so chooses); and7) Decide whether to consent to the withdrawal of complaints if a party who requested a hearing wishes to withdraw its request for hearing in writing before the hearing.
5.	The SWA has established and maintains a self-appraisal system for ES operations to determine success in reaching goals and to correct deficiencies in performance (20 CFR 658.601).

OKLAHOMA

Jobs for Veterans' State Grant

State Plan PY2024-2027

Oklahoma is submitting their Jobs for Veterans State Plan per Veteran Policy Letter 01-24

Oklahoma's State Plan narrative includes:

- A. Describe how the state intends to provide employment, training and job placement services to veterans and eligible person under JVSG program (i.e., virtually and in person).
- B. List the populations to be served by DVOP specialists and consolidated DVOP/LVER staff, including the eligibility criteria for referral to DVOP Services.
- C. Describe the roles and responsibilities assigned to DVOP specialists, LVER staff, and consolidated DVOP/LVER positions by the state. These must be consistent with 38 U.S.C. 4103A and 4104.
- D. Demonstrate the manner in which DVOP, LVER and consolidated DVOP/LVER staff are integrated into the State's employment service delivery system or American Job Center (AJC). This demonstration should show active engagement between JVSG and other AJC staff, such as through participation in staff meetings and cross-training opportunities.
- E. Describe the State's performance incentive award program to encourage individuals and employment service offices to improve and/or achieve excellence in the provision of services to veterans.
- F. List the performance targets for direct services to veterans provided by JVSG staff, as measured by the SWA Tableau Reports on participants':
 - Employment Rate 2nd Quarter After Exit
 - Employment Rate 4th Quarter After Exit
 - Median Earnings 2nd Quarter After Exit

The following JVSG State Plan Narrative is comprised of the required responses to VPL 01-24 narrative criteria:

A. Describe how the state intends to provide employment, training and job placement services to veterans and eligible person under JVSG program (i.e., virtually and in person).

A.1.a. In accordance with 38 U.S.C. § 4102A(b)(5) and § 4102A(c), the Assistant Secretary for Veterans' Employment and Training (ASVET) makes grant funds available for use in each State to support Disabled Veterans' Outreach Program (DVOP) specialists and Local Veterans' Employment Representatives (LVER) staff. The Jobs for Veterans State Grants (JVSG) program provides federal funding, through a formula grant, to State Workforce Agencies (SWAs) to hire

dedicated staff to provide individualized career and training-related services to veterans and eligible persons with significant barriers to employment and to assist employers in filling their workforce needs with job-seeking veterans. The Oklahoma Employment Security Commission is a core partner in the American Job Center Network. As the State Workforce Agency all Job for Veterans State Grant staff are located in the Oklahoma Works Centers across the state. Oklahoma American Job Centers (AJCs) follow the established customer and priority of services intake to ensure all eligible for priority of services, including Veteran Readiness and Employment (Chapter 31), Native American veterans, and specially targeted populations outlined in VPL 03-14, VPL 03-14 change 1&2, or current guidance, are immediately identified and provided all appropriate services. The Veterans & Eligible Persons Intake process flowchart coupled with the Triage form ensures veterans and eligible persons are directed to the services available at the AJC. Once identified as an eligible veteran or person, the individuals are immediately referred to the DVOP staff. The DVOP will establish a comprehensive assessment, an IEP and establish consistent contact with the participant as part of the case management process. Where a DVOP is not immediately available, the Wagner-Peyser staff provides services. Those not identified as eligible for DVOP services are served by Wagner-Peyser staff. The U.S. Department of Labor provides grant funds to the State of Oklahoma to provide employment and training services to eligible veteran and eligible persons. As a condition to receiving those funds, priority of service will be given to qualified veterans when referring individuals to job openings, DOL funded training programs or related services. In accordance with the implementation of the Veterans' Priority Provisions of the "Jobs for Veterans Act" Title 38 U.S.C., Chapter 4215, covered persons will receive priority referral to services over non-covered as determined by each program's mandatory eligibility criteria.

A.2.a. All employers, where possible jobs or training opportunities might occur are contacted for employment purpose. Particular attention is given to the existing demand and emerging industries and occupations to include Aerospace & Defense, Agriculture & Biosciences, Energy, Information and Financial Services, and Transportation and Distribution. Federal Contractors jobs are a strong part of our Employer Relations activity that provide the LVERs high quality employment opportunities to veterans and eligible persons. LVERs continue to promote the Hire VETS Medallion Program (HVMP) throughout the state to enhance employer's efforts in hiring veterans in Oklahoma. Particular attention by our DVOPs is given to coordinating activities and services with other organizations which have similar interest and responsibilities. Emphasis is given to develop relationships and agreements with veterans' organizations, the Oklahoma Department of Veterans Affairs (ODVA), the Department of Veterans Affairs (VA), Veteran Service Organizations (VSO). LVERs work parallel with local Chambers of Commerce, Local Workforce Investment Boards, WIOA staff and other community based organizations to promote recruitment, hiring and retention of veterans. Information on veteran training and job placement services and opportunities are conveyed to veterans and other persons eligible for JVSG services to help them make decisions based on their individual employment needs through one-on-one counseling provided by the DVOP or other AJC center staff. AJC and LVER staff provide outreach and public information on veteran's employment and job training opportunities and services through representation at civic organizations and job

fairs.

A.3.a. All potential employers are advised of the benefits of hiring and retaining veterans and the services available to them through the State's workforce system. The primary function of the LVER staff is to perform outreach activities to the Employer community and facilitates through capacity building activities employment, training, and placement services furnished to veterans. Employers are advised that many of today's veterans leave the military with skills and experience qualifying them, sometimes with little or no additional training. Veterans make excellent employees, and we emphasize the value added to the company.

A.4.a. The Homeless Veteran Reintegration Program (HVRP) grantee enroll clients into the state database as part of their intake process. The DVOP staff collaborates and work with the (HVRP), the Veterans Upward Bound program and other community base service providers to enhance veteran client's employment possibilities. Strong efforts are made to link up with other service providers such as, veterans.gov and other employment sites to assist with our efforts to place and retain veterans in meaningful employment.

A.5.a. Special efforts are made to provide employment services to all categories of veterans and other person's eligible for services funded by JVSG, Wagner-Peyser (W-P) and the Workforce Investment Opportunity Act (WIOA). Coordinated outreach efforts are provided by the OESC Communications Director and Division to reach veterans and other eligible persons through social media platforms, Veteran centric service providers, job fairs and links to USAJOBS, OKJobMatch and other employment sites. Particular efforts are made to recognize employers through veteran organizations' annual employer award programs. Contacts with local Department of Career and Technology Education (CareerTech) centers promote training opportunities for veterans and are a vital resource.

B. List the populations to be served by DVOP specialists and consolidated DVOP/LVER staff, including the eligibility criteria for referral to DVOP Services.

B.1.a. To receive employment services from a DVOP, the individual must meet the eligibility requirements under 38 U.S. U.S.C. 4101(4) and 4211(4) and other eligible spouses as defined in 38 U.S.C. 4101(5). The eligible veteran or eligible person must also, self-attest to meet the definition of an individual with a Significant Barrier to Employment (SBE), or a Population designated by the Secretary as eligible for services, in accordance with VPL's 03-14, 03-14 Change 1, 03-14 Change 2, 07-14 and 03-19 or most current guidance.

Special Disabled Veteran:

- A veteran who is entitled to compensation (or who, but for the receipt of military retired pay, would be entitled to compensation) under laws administered by the Department of Veterans Affairs for a disability rated at 30 percent or more.
- A person who was discharged or released from active duty because of a service connected disability.

Disabled Veteran:

- A veteran who is entitled to compensation (or who, but for the receipt of military retired pay would be entitled to compensation) under laws administered by the Department of Veterans Affairs.
- A person who was discharged or released from active duty because of a service connected disability.
- A veteran who self-attests to a service-connected disability and has submitted a pending claim for compensation to the Veterans Administration.

Recently Separated Veteran:

- An individual who has been separated from active duty within the last 36 months and has been unemployed for at least 27 weeks in the past 12 months during this recently separated time period.

Homeless Veteran as defined in Sections 103 (a) and (b) of the McKinney-Vento Homeless

Homeless, as defined in Section 103(a) Homeless Assistance Act (42 U.S.C. 11302 (a) and (b), as amended:

- An individual who served in the active military, naval, or air services, and who was discharged or released from such service under conditions other than dishonorable, and who lacks a fixed, regular, and adequate nighttime residence. This definition includes any individual who has a primary nighttime residence that is a publicly or privately-operated shelter for temporary accommodation, an institution providing temporary residence for individuals intended to be institutionalized; or a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings. Included in this homeless definition would be any individual or family who is fleeing, or is attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions in the individual's or family's current housing situation, including where the health and safety of children are jeopardized, and who have no other residence and lack the resources or support networks to obtain other permanent housing. This definition does not include an individual imprisoned or detained under an Act of Congress or State Law.

A recently-separated service member, as defined in 38 U.S.C. 4211(6), who has been unemployed for 27 or more weeks in the previous 12 months;

Offender as defined by WIOA Section 101 (27), who is currently incarcerated or who has been released from incarceration.

- An individual who is currently incarcerated or has been incarcerated.

Lacking Education:

- A veteran who lacks a High School Diploma or equivalent certificate.

Low Income as defined by WIOA Section 101(25)(B)).

B.2.a. The following are the current Additional Populations eligible to be served by DVOP Specialists as Authorized by the U.S. Department of Labor Secretary:

Young Veterans as defined by VPL 03-19 or most current guidance:

- A veteran between the ages of 18-24.

Vietnam-era Veterans as defined by VPL 03-19 or most current guidance:

- Pursuant to 38 U.S.C. 4211, the term “Veteran of the Vietnam Era” is an Eligible veteran any part of whose active military, naval, or air service was during the Vietnam era. 38 U.S.C. 101(29) defines “Vietnam-era to mean the period beginning on February 28, 1961, and ending on May 7, 1975, in the case of a veteran who served in the Republic of Vietnam during that period beginning August 5, 1964, and ending on May 7, 1975, in all other cases.

Transitioning Service Member as identified in VPL 07-14, American Job Center (AJC) Participation in Capstone Activities and other Outreach to Transitioning Service Members and VPL 03-19 or most current guidance:

- Transitioning Service Members who have been identified as in need of Individualized Career Services because they were assessed as not meeting Career Readiness Standards by the base commander.
- Transitioning Service Members who are between the ages of 18-24 years of age as authorized to be served by the Assistant Secretary for Veterans Employment and Training Service (VETS).
- Active duty service members being involuntarily separated through a service reduction-in-force. Wounded, ill, or injured as defined by VPL 03-19 or most current guidance.
- Members of the Armed Forces who are wounded, ill, or injured and receiving treatment in military treatment facilities or warrior transition units.
- The spouses or family care givers of such wounded, ill, or injured members.

Note: For purposes of the authority in the Consolidated Appropriations Act of 2014, caregivers support members of the Armed Forces who are wounded, ill, or injured and receiving treatment in military units, rather than veterans.

C. Describe the roles and responsibilities assigned to DVOP specialists, LVER staff, and consolidated DVOP/LVER positions by the state. These must be consistent with 38 U.S.C. 4103A and 4104.

C.1.a. DVOP staff will perform job duties as outlined in 38 U.S.C. 4103A and 38 U.S.C. 4104, and VPL 03-14, 03-14 Change 1, 03-14 Change 2 dated April 10, 2014, or current guidance; DVOP specialists place maximum emphasis on assisting veterans who are economically or educationally disadvantaged and provide services to eligible veterans and eligible persons, with Significant Barriers to Employment, (SBE). The DVOP will provide

intensive service according to 38 U.S.C. 4103A, the “Individualized Career Services” provided by DVOP specialists are the “Individualized Career Services” defined under section 134(c)(2) of the Workforce Innovation and Opportunity Act, (WIOA). Signed into law July 22, 2014. Individualized Career Services include comprehensive and specialized assessments of skill levels and service needs; development of an individual employment plan to identify the employment goals, appropriate achievement objectives and appropriate combination of services for the participant to achieve the employment goals, group counseling; individual counseling and career planning; and short-term prevocational services that may include development of learning skills, communication skills, interviewing skills, punctuality, personal maintenance skills, and professional conduct to prepare individuals for unsubsidized employment or training.

C.2.a. DVOP specialist will actively seek out veterans and other eligible persons with the barriers to employment, in accordance with Title 38 U.S.C., Chapter 31 and VPL 03-14 or current guidance, through outreach particularly the VA VR&E offices, and VA Medical Centers, Native American Trust Territories, military installations, rural areas and other areas of known veteran population. DVOP staff work closely with Workforce partners to provide Individualized Career Services to veterans and other eligible persons who have significant barriers to employment. DVOPs primary duties will be to provide Individualized Career Services to meet the employment needs of veterans and other eligible persons with significant barriers to employment. Veterans enrolled into VA VR&E are provided with educational training by the VA. Once they have completed training through VA VR&E, they are assigned to a DVOP to receive Individualized Career Services for employment. VR&E cases are entered into OKJobMatch through the registration process and are case managed while being provided the needed resume assistance, job search planning, development short range and long range plans, more commonly known as Individual Development Employment Plans. All communications between the DVOP and their clients are annotated in the states OKJobMatch system as notes. VR&E participants also have notes documented and maintained in their case management hard file. Once the veteran has obtained employment, they are monitored for 12 months of continuous employment prior to closing his/her case. DVOPs coordinate with WIOA partners for guidance on education benefits for veterans.

C.3.a. Case Management, consisting of a documented comprehensive assessment, written plan of action (Employment Plan), and consistent contact with the participant is utilized as a primary tool for DVOPs in assisting disabled veterans and other eligible persons with employment needs. All DVOP staff receives specialized training from the National Veterans Training Institute (NVTI), in person and online. DVOPs provide high quality employment services through Individualized Career Services for veterans and other eligible persons with barriers to employment. DVOPs are also integrated into workforce development process and collaborate with AJC partner agency staff to provide a full array of services to veterans. DVOPs provide other core services such as labor market information, career guidance, resume assistance, referral to support agencies, and job referral/development as a part of the employment plan when appropriate. DVOPs assist in establishing the veteran and other eligible person with being Job Ready, during this process the LVER works parallel with DVOP to identify an employment

opportunity to aid in the process of tailoring the resume. DVOPs will provide follow-up assistance after the veteran or other eligible person enters employment to increase their employment retention.

C.4.a. LVER staff will perform job duties as outlined in 38 U.S.C. 4104(b), VPL 03-14 or current guidance and VPL 1-18 (if applicable). All LVERs receive specialized training from the National Veterans Training Institute (NVTI), in person and online. The primary duty of the LVER is to conduct outreach to employers and engage in advocacy efforts with hiring specialists to increase employment opportunities for veterans; encourage hiring of disabled veterans and assist veterans in gaining employment. LVER staff conducts job search workshops in conjunction with employers and establish job search groups. LVERs facilitate capacity building within the State's employment service delivery system, provide information to DVOPs, AJC and partner agency staff on veterans' employment, training and placement services, tax incentives, apprenticeship programs, OJTs, etc. LVERs conduct electronic and telephonic outreach to employers, provide presentations when permitted at local Chambers of Commerce, Workforce Investment Boards and other employer advocacy venues. LVER staff provides public services announcements advocating veterans' hiring through various media platforms LVER's coordinate with unions, apprenticeship programs and businesses or businesses organizations to promote and secure employment and training programs for veterans; providing information to local employers as well as Federal Contractor of the process to recruit, hire and retain qualified veterans. LVER's promote credentialing and licensing opportunities for veterans; and coordinate and participate with other business outreach efforts.

C.5.a. Oklahoma has implemented a planned collaboration requirement between the DVOP, LVER and Center Manager/Supervisor to ensure there is maximum focused employment oversight for each case management eligible veteran or eligible person. Depending on the quantity of veterans on the DVOPs case management load, and the severity of the significant barriers to employment, the DVOP, LVER and Center Manager will schedule, at least monthly, but more often if necessary, a collaboration meeting to discuss each veterans current case management status, brainstorm employment outreach opportunities, any potential job developments and existing referrals that will maximize each of the case managed veterans opportunity to overcome existing barriers and gain employment.

D. Demonstrate the manner in which DVOP, LVER and consolidated DVOP/LVER staff are integrated into the State's employment service delivery system or American Job Center (AJC). This demonstration should show active engagement between JVSG and other AJC staff, such as through participation in staff meetings and cross-training opportunities.

D.1.a. Oklahoma has a Service delivery system model which provides employment services through 27 AJCs. The LVERs and DVOPs are an integral part of the delivery services to veterans within the local AJCs network. They are included among the AJC partners staff, which consist of all staff employed by programs or activities operated by AJC partners listed in 29 U.S.C. 2841(b). DVOPs are strategically assigned throughout the state with emphasis on communities where high concentrations of veterans are located. DVOPs are also located near Oklahoma's four large military installations. LVER staffs are assigned to AJCs and SWAs throughout 4 territories; NW, Central and SW currently combined, NE and SE within the State to ensure each of Oklahoma's workforce investment areas have presence for effective outreach to employers. (See staffing directory). LVER's communicate daily with Center Managers to promote employment opportunities for veterans' priority and preference; they maintain close communication with all partners to relate changes to policies and programs as well as forward up to date information on current and future programs. DVOPs are directly supervised by the Center Managers at their assigned local AJCs. This provides a seamless integration of the services and collaboration throughout the SWA. They assist veterans who are economically or educationally disadvantaged and provide Individualized Career Services (ICS) to eligible veterans, eligible persons and to those with SBE or veterans aged 18-24 as authorized to be served by the Assistant Secretary of Veterans employment and training service (ASVET) and must focus on providing Individualized Career Services. Once a veteran or eligible person has been referred to a DVOP specialist for ICS services the DVOP will conduct a "Whole Person" concept comprehensive assessment to determine all barriers to employment, including SBE(s), additional targeted authorized population employment barrier categories and any other barriers identified that is impacting the ability of the eligible veteran or person to seek, obtain, or retain employment. As part of the DVOP providing ICSs through Case Management the DVOP will also use information gathered from the comprehensive assessment and partner with the veteran or eligible person to discuss, identify and determine short-term and long-term goals to address and overcome those employment barriers that the participant acknowledges as a barrier. Steps to be taken to achieve these goals will be agreed upon by the participant and DVOP. DVOPs are also responsible for various outreach areas within their region to assist veterans in location such as the VA Medical Hospitals, the OESC Central Office, the VR&E State Coordinator, Homeless Alliance, and Homeless Shelters such as the Sterling House. These DVOPs provide Individualized Career Services to eligible veterans and other eligible persons including those aged 18-24 as authorized to be served by the Assistant Secretary of Veterans Employment and Training Service (ASVET) in these locations as well as networking with other states to provide Individualized Career Services and facilitate the provision of services to veterans.

D.2.a. LVER staffs are assigned to AJCs and SWAs throughout 4 territories: NW, Central, NE and SE within the State as mentioned above to ensure each of the state's workforce areas have veterans-focused outreach to employers to develop job opportunities and encourage the hiring of veterans. LVERs conduct employer relations in order to solicit job orders which will provide job referrals for veterans. They also call on Federal Contractors who are required by law to submit all job applications through Workforce Oklahoma to be entered into the website so that veterans

are allowed first priority in hiring.

D.3.a. DVOPs and LVERs will make recommendations relative to their assigned roles and responsibilities to State Workforce system partners, AJC and SWA center managers for improvements in services to veterans. DVOPs conduct relationship building, outreach and recruitment activities with other service providers in the local area, to enroll SBE and priority category veterans in an AJC. LVER staff also provides veteran services guidance and policy updates to staff during routine meetings throughout the local AJC office. They assist in maintaining an open flow of information on how best to assist veterans seeking employment and other career enhancing services. In addition, the LVER also assist local office staff with job development outreach for all veterans within the area of service.

E. Describe the State’s performance incentive award program to encourage individuals and employment service offices to improve and/or achieve excellence in the provision of services to veterans.

E.1.a. To receive Jobs for Veterans State Grant (JVSG) funds, a state must design a program of performance incentive awards in accordance with 38 U.S.C. 4112 and this guidance. The incentive award program was established to:

- Recognize eligible employees for excellence in the provision of such services or for having made demonstrable improvements in the provision of services to veterans. Per VPL 01-24 Att. 5.

Indicate the total percentage of funds designated for performance incentive awards; Oklahoma JVSG will utilize \$19,473 which is the 1% grant allocation set aside for the Incentive Award Program.

The award will designate 100% for individual cash awards through a nomination period for Quarterly and Annual awards.

- **Funds Distribution for Individual Awards: \$12,943 Awarded Annually**

a. LVER 1st Place Award	Cash award approximately \$2,500.00
b. LVER 2nd Place Award	Cash award approximately \$1,500.00
c. DVOP 1st Place Award	Cash award approximately \$2,500.00
d. DVOP 2nd Place Award	Cash award approximately \$1,500.00
e. DVOP 3rd Place Award	Cash award approximately \$943.00
f. ES Staff/Other 1 st Place	Cash award approximately \$2,500.00
h. ES Staff/Other 1st Place	Cash award approximately \$1,500.00

- **Funds Distribution for Quarterly Awards: \$6800.00 Awarded Annually**

a. 1 st Staff Drawn (DVOP/LVER/ES)	Cash award awarded \$850.00
b. 2 nd Staff Drawn (DVOP/LVER/ES)	Cash award awarded \$850.00

The amounts could be adjusted to ensure there is no over or under expenditure of all available funds up to 1% of the total JVSG.

E.2.a. Objective to be achieved; Oklahoma expects the Veterans Performance Incentive Awards Program will encourage an increase in employment services to veterans and other eligible individuals, innovative approaches to serving them, expanded program integration, increases in performance outcomes and more advocacies within the employer community. Oklahoma also expects staff will:

- Improve policies and procedures related to veterans' services, Improve the promotion of services to veterans and other eligible individuals through case management, innovative outreach strategies, supportive services, and job development.
- The development of new systems or procedures which will increase collaboration and improve performance outcomes.

E.3.a. The planned selection and award process for Annual Awards; Selection criteria for award recipients will be based on performance and activities during the federal fiscal year for which the award is given. Nominations are due no later than a date approved of by the Director over the JVSG program, which will be established and placed in the request for nominations message. The following are eligible recipients for the performance incentive award:

- Disabled Veterans' Outreach Program (DVOP) specialists;
- Local Veterans' Employment Representative (LVER) staff;
- Individuals providing employment, training, and placement services to veterans under the Workforce Innovation and Opportunity Act (WIOA), including labor exchanges funded by the Wagner-Peyser Act

For Individual awards, they will provide specific examples of how individuals provided outstanding service to Veterans, those with SBE and eligible persons. The following data will be used:

DVOP:

- a. Percentage of matched and referred veterans to jobs in OKJobMatch.
- b. Percentage of job developments established for clients leading to hires.
- c. Number of veteran Case under Case Managed within the federal fiscal award year.
- d. Percentage of veterans that have obtained employment within the federal fiscal award year.
- e. Identify the average time it takes for clients to obtain employment.
- f. Hard-to-place population (homeless veterans, incarcerated veterans, and veteran ex-offenders) under case management that led to hires.
- g. Improving the employability of the veteran, provide details of events/success stories.
- h. Above and beyond efforts to connect veterans with employers', provide details of events/success stories.

i. Use or creation of innovative and creative processes that results in successful placement of veteran or improves the individual's employability, provide examples of new processes, and give details of how it was successful.

LVER:

- a. Number of contacted employers on behalf of veterans resulting in client hires.
- b. Percentage of job developments established for clients leading to hires.
- c. Percentage of veterans that have obtained employment within the federal fiscal award year.
- d. Identify the average time it takes for clients to obtain employment.
- e. Hard-to-place population (homeless veterans, incarcerated veterans, and veteran ex-offenders) under case management that led to hires.
- f. Improving the employability of the veteran, provide details of events/success stories.
- g. Above and beyond efforts to connect veterans with employers, provide details of events/success stories.
- h. Use or creation of innovative and creative processes that results in successful placement of a veteran or improves the individual's employability; provide examples of new processes and give details of how it was successful.
- i. Successful Outreach/Community event followed with successful network relationship with employer that includes long term agreements with veteran job placement.

For individuals providing employment, training, and placement services to veterans under the Workforce Innovation and Opportunity Act (WIOA), including labor exchanges funded by the Wagner-Peyser Act:

- a. Percentage of matched and referred veterans to jobs in OKJobMatch.
- b. Percentage of job developments established for clients leading to hires.
- c. Number of veteran Case under Case Managed within the federal fiscal award year.
- d. Percentage of veterans that have obtained employment within the federal fiscal award year.
- e. Identify the average time it takes for clients to obtain employment.
- f. Hard-to-place population (homeless veterans, incarcerated veterans, and veteran ex-offenders) under case management that led to hires.
- g. Improving the employability of the veteran, provide details of events/success stories.
- h. Above and beyond efforts to connect veterans with employers', provide details of events/success stories.
- i. Use or creation of innovative and creative processes that results in successful placement of veteran or improves the individual's employability, provide examples of new processes, and give details of how it was successful.

E.4.a. The planned selection and award process for Quarterly Awards; Selection criteria for award recipients will be based on performance and activities during each Quarter for which the award is given.

Nominations are due no later than two weeks before the quarterly conference date or a date set/approved of by the Director over the JVSG program, which will be established and placed in the request for nominations message. The following are eligible recipients for the performance incentive award:

- Disabled Veterans' Outreach Program (DVOP) specialist;
- Local Veterans' Employment Representative (LVER) staff;
- Individuals providing employment, training, and placement services to veterans under the Workforce Innovation and Opportunity Act (WIOA), including labor exchanges funded by the Wagner-Peyser Act

DVOP:

- a. Improving the employability of the veteran, provide details of events/success story.
- b. Above and beyond efforts given during the Veteran Job placement process, provide details of events/success story.
- c. Use or creation of innovative and creative processes that results in successful placement of veteran or improves the individual's employability.
- d. High-quality customer service to veterans, provide details of events/success story.
- e. Number of veterans successfully placed.

LVER:

- a. Improving the employability of the veteran, provide details of events/success story.
- b. Above and beyond efforts given during the Veteran Job placement process, provide details of events/success story.
- c. Use or creation of innovative and creative processes that results in successful placement of veteran or improves the individual's employability.
- d. High-quality customer service to veterans, provide details of events/success story.
- e. Number of veterans successfully placed.

For individuals providing employment, training, and placement services to veterans under the Workforce Innovation and Opportunity Act (WIOA), including labor exchange funded by the Wagner-Peyser Act:

- a. Improving the employability of the veteran, provide details of events/success story.
- b. Above and beyond efforts given during the Veteran Job placement process, provide details of events/success story.
- c. Use or creation of innovative and creative processes that results in successful placement of veteran or improves the individual's employability.
- d. High-quality customer service to veterans, provide details of events/success story.
- e. Number of veterans successfully placed.

E.5.a. The planned disbursement of Quarterly and Annual incentive award funds; The Executive Director must state in writing that the amounts for awards are approved 2 weeks prior to initial letter seeking nominations are sent out. All financial awards and amounts must be approved by the Director over the Vet staff program and the Executive Director. The Executive Director or their designee and HR director must sign off and approve all award recipients. If proposed recipients are under disciplinary action or a PIP, the ED or their designee and the HR director retain the right to reject proposed recipients of the awards due to a disciplinary issue. Non-cash awards will follow established agency process and policy for expenditures. Oklahoma understands that incentive awards must be obligated by the end of the fourth quarter of the award's fiscal year.

F. List the performance targets for direct services to veterans provided by JVSG staff, as measured by participants'.

JVSG Performance Measures:

- Employment Rate 2nd Quarter After Exit: 50 %
- Employment Rate 4th Quarter After Exit: 50.4%
- Median Earnings 2nd Quarter After Exit: \$6,062

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM

The Unified or Combined State Plan must include a description of the following as it pertains to adult education and literacy programs and activities under title II of WIOA, the Adult Education and Family Literacy Act (AEFLA).

- (a) **Aligning of Content Standards.** Describe how the eligible agency has aligned its content standards for adult education with State-adopted challenging academic content standards, as adopted under section 1111(b)(1) of the Elementary and Secondary Education Act of 1965, as amended (20 U.S.C. 6311(b)(1)).

The Oklahoma Department of Career and Technology Education (ODCTE) Adult Education & Family Literacy Division will utilize the Oklahoma state approved standards adopted by the Oklahoma State Department of Education. State adopted standards:

- Do focus on deep thinking, conceptual understanding, and real-world problem-solving skills.
- Do set expectations for students to be College, Career, and Citizenship ready.
- Do incorporate literacy in Science, Social Studies, and Technical Subjects.
- Do emphasize the use of citations and examples from texts when creating opinions and arguments.
- Do increase rigor and grade-level expectations.
- Do determine the full range of support for English Language Learners and Students with Special needs.

Oklahoma's approved assessments are standardized, valid, reliable, and approved for use by the Office of Career and Technical Education (OCTAE). Standardized is defined as having directions, time limits, materials, and scoring procedures that are designed to remain constant each time the test is given. Valid is defined as the degree to which the assessment measures what it is intended to measure. Reliable is defined as the consistency with which an assessment produces results. Pre-assessment is defined as the initial assessment administered to a student when they first enroll in the program for the current fiscal year. Post-assessment is defined as an assessment administered to a student to measure learning gains since the pre-assessment or their last assessment in the current fiscal year.

Educational functioning level of a student is determined by the National Reporting System (NRS) approved standardized

assessment scale scores. All students are placed into an appropriate Educational Functioning Level (EFL) as determined by the student's scale score of the standardized assessments chosen by the state. State performance targets for the NRS educational functioning levels are negotiated between the state and OCTAE each fiscal year. Local programs are responsible for meeting these state EFL targets. The state's aggregated pre- and post-assessment data collected from local programs determines whether the state meets its performance targets for a fiscal year. In addition to using required standardized assessments for NRS reporting and accountability, programs use assessments for instructional purposes.

Accountability and reporting purposes of assessment include but are not limited to:

- Uniform measurement of learner gains that are aligned with the NRS educational functioning levels.
- Consistent comparison of the success of programs in meeting state performance targets.
- Consistent comparison of program data for performance-based funding.
- Instructional purposes of assessment include but are not limited to:
 - Determining the instructional needs of individual learners.
 - Determining the effectiveness of instruction through learner gains.
 - Providing information regarding local program and/or statewide professional development needs.

- (b) **Local Activities.** Describe how the eligible agency will, using the considerations specified in section 231(e) of WIOA and in accordance with 34 CFR 463 subpart C, fund each eligible provider to establish or operate programs that provide any of the following adult education and literacy activities identified in section 203 of WIOA, including programs that provide such activities concurrently. The Unified or Combined State Plan must include at a minimum the scope, content, and organization of these local activities.

Adult Education and Literacy Activities (Section 203 of WIOA)

- Adult education.
- Literacy.
- Workplace adult education and literacy activities.
- Family literacy activities.
- English language acquisition activities.
- Integrated English literacy and civics education.
- Workforce preparation activities; or
- Integrated education and training that—
 - Provides adult education and literacy activities, concurrently and contextually with both, workforce preparation activities, and workforce training for a specific occupation or occupational cluster, and
 - Is for the purpose of educational and career advancement.

Special Rule

Each eligible agency awarding a grant or contract under this section shall not use any funds made available under this title for adult education and literacy activities for the purpose of supporting or providing programs, services, or activities for individuals who are under the age of 16 and are enrolled or required to be enrolled in secondary school under State law, except that such agency may use such funds for such purpose if such programs, services, or activities are related to family literacy activities. In providing family literacy activities under this title, an eligible provider shall attempt to

coordinate with programs and services that are not assisted under this title prior to using funds for adult education and literacy activities under this title for activities other than activities for eligible individuals.

All Adult Education and Family Literacy activities under WIOA are authorized by the Oklahoma Department of Career and Technology Education. ODCTE administers and monitors federal and state adult education and literacy funds to local providers and provides program development and training activities to assure quality basic skills services for all students across the State. Under WIOA, ODCTE will fund the following activities:

- Adult education,
- Literacy,
- Workplace adult education and literacy activities,
- Family literacy activities,
- English language acquisition activities,
- Integrated English literacy and civics education,
- Workplace preparation activities, or
- Integrated education and training that provide adult education concurrently and contextually for the purpose of educational and career advancement.

Every AEFL service provider will provide one or more of these local activities. AEFL service providers not providing all local activities listed may assist AEFL students in referring those students to organizations that provide those activities.

Definition of Activities:

- **Adult Education:** Academic instruction and educational services below the postsecondary level that include an individual's ability to:
 - Read, write, and speak in English and perform mathematics or other activities necessary for the attainment of a secondary school diploma or its equivalent.
 - Transition to postsecondary education and training; and
 - Obtain employment
- **Literacy:** The ability to read, write, and speak in English, compute, and solve problems, at levels of proficiency necessary to function on the job, in the family, and in society.
- **Workplace Adult Education and Literacy Activities:** Adult education and literacy activities in collaboration with an employer or employee organization at a workplace or off-site location that is designed to improve the productivity of the workforce.
- **Family Literacy Activities:** Activities of sufficient intensity and quality to make sustainable improvements in the economic prospects for a family and that better enable parents or family members to support their children's learning needs, and that integrate all the following activities:
 - Parent or family adult education and literacy activities that lead to readiness for postsecondary education or training, career advancement, and economic self-sufficiency.
 - Interactive literacy activities between parents or family members and their children.
 - Training for parents or family members regarding how to be the primary teacher for their children and full partners in the education of their children.
 - Age-appropriate education to prepare children for success in school and life experiences.

- No funds under this grant may be used for the purpose of supporting or providing programs, services, or activities for individuals who are under the age of 16 and are enrolled or required to be enrolled in secondary school under State law, except the agency may use such funds of programs, services, or activities related to family literacy. In providing family literacy activities under this title, an eligible provider shall attempt to coordinate with programs and services that are not assisted under this title prior to using funds for adult education and literacy activities under this title for activities other than activities for eligible individuals.
- *English Language Acquisition Activities*: Program of instruction designed to help eligible individuals who are English language learners achieve competence in reading, writing, speaking, and comprehension of the English language and that leads to
 - Attainment of a secondary school diploma or its equivalent and
 - Transition to postsecondary education and training; or
 - Employment.
- *Integrated English Literacy and Civics Activities (IELCE)*: Education services provided to English language learners who are adults, including professionals with degrees and credentials in their native countries that enable them to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as parents, workers, and citizens in the United States. Services shall include instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation and may include workforce training.
- *Workforce Preparation Activities*: Activities, programs, or services designed to help an individual acquire a combination of basic academic skills, critical thinking skills, digital literacy skills, and self-management skills, including competencies in utilizing resources, using information, working with others, understanding systems, and obtaining skills necessary for successful transition into and completion of postsecondary education or training, or employment.
- *Integrated Education and Training (IET)*: Service approach that provides adult education and literacy activities concurrently and contextually with workforce preparation activities and workforce training for a specific occupation or occupational cluster for the purpose of educational and career advancement. This includes offering courses in collaboration with community colleges or technology centers that are team taught by an Adult Education basic skills teacher and a career/technical teacher.

Adult education and literacy activities, including adult education, literacy, and family literacy activities, will utilize the Oklahoma Academic Standards established by the Oklahoma State Department of Education (SDE), which include English Language Arts, Mathematics, Science, Social Studies, Fine Arts, World Languages, Health, Physical Education, Personal Financial Literacy, and Computer Science. The Oklahoma Academic Standards serve as expectations for what students should know and demonstrate by the time they complete their high school equivalency. These standards may assist the Oklahoma AEFL providers in providing the guidance and expectations necessary for a student to receive their high school equivalency.

The ODCTE's goal is to improve Oklahoma's economy by providing individuals with the necessary training and skills to succeed in the workplace and provide companies the workforce they need to compete in a global market. To meet Oklahoma's workforce demands, ODCTE leverages business/educational partnerships to enhance career awareness and increase educational attainment for all Oklahomans. The ODCTE assists those adults who are most in need of literacy

services, including low-income individuals, adults with minimal literacy skills, and adults with disabilities, in improving their ability to read, write, and speak in English, compute, and solve problems at levels of proficiency necessary to function on the job, in the family, and in society.

The ODCTE conducted three competitions for new grants that were awarded July 1, 2022. The next competition will begin in early 2026 for awards to be granted July 1, 2026. The grant application will address the thirteen considerations established in Title II. The competition will be open to all eligible providers of demonstrated effectiveness. The grant application will contain the local application criteria listed in Section 232 of the Workforce Innovation and Opportunity Act Title II, Adult Education and Family Literacy. Applications will be reviewed by the ODCTE to evaluate demonstrated effectiveness. Eligible provider applications that demonstrate effectiveness will then be reviewed by a review panel selected by ODCTE staff members. A rubric will be developed, and evaluation criteria will include the thirteen considerations in 231(e) of the Workforce Innovation and Opportunity Act Title II, Adult Education and Family Literacy, as well as other components deemed necessary to review the application.

The 13 considerations are as follows:

1. Describe the degree to which your organization would be responsive to—
 - Regional needs as identified in the local workforce development area plan under section 108 of title I of WIOA.
 - Serving individuals in the community who were identified in the local workforce development area plan as most in need of adult education and literacy activities, including individuals who have low levels of literacy skills or who are English language learners.
2. The ability of your organization to serve eligible individuals with disabilities, including eligible individuals with learning disabilities.
3. Past effectiveness of your organization in improving the literacy of eligible individuals, to meet State-adjusted levels of performance for the primary indicators of performance described in question 4 above, especially with respect to eligible individuals who have low levels of literacy.
4. The extent to which your organization demonstrates alignment between proposed activities and services and the strategy and goals of the local workforce development area plan (section 108), as well as the activities and services of the one-stop partners.
5. Whether your organization's program is 1) of sufficient intensity and quality, and based on the most rigorous research available so that participants achieve substantial learning gains; and 2) uses instructional practices that include the essential components of reading instruction;
6. Whether your organization's activities, including whether reading, writing, speaking, mathematics, and English language acquisition instruction delivered by the eligible provider, are based on the best practices derived from the most rigorous research available and appropriate, including scientifically valid research and effective educational practice.
7. Whether your organization's activities effectively use technology, services, and delivery systems, including distance education in a manner sufficient to increase the amount and quality of learning and how such technology, services, and systems lead to improved performance.
8. Whether your organization's activities provide learning in context, including through integrated education and training, so that an individual acquires the skills needed to transition to and complete postsecondary education and training programs, obtain and advance in employment leading to economic self-sufficiency, and to exercise the rights and responsibilities of citizenship.

9. Whether your organization's activities are delivered by well-trained instructors, counselors, and administrators who meet any minimum qualifications established by the State, where applicable, and who have access to high quality professional development, including through electronic means.
10. Whether your organization's activities coordinate with other available education, training, and social service resources in the community, such as by establishing strong links with elementary schools and secondary schools, postsecondary educational institutions, institutions of higher education, local workforce investment boards, one-stop centers, job training programs, and social service agencies, business, industry, labor organizations, community-based organizations, nonprofit organizations, and intermediaries, for the development of career pathways;
11. Whether your organization's activities offer flexible schedules and coordination with Federal, State, and local support services (such as childcare, transportation, mental health services, and career planning) that are necessary to enable individuals, including individuals with disabilities or other special needs, to attend and complete programs.
12. Whether your organization maintains a high-quality information management system that has the capacity to report measurable participant outcomes (consistent with question 4 above) and to monitor program performance; and
13. Whether the local areas in which your organization is located have a demonstrated need for additional English language acquisition programs and civics education programs.

Regarding the federal money ODCTE receives, up to 12.5 percent is allowed for Leadership activities; 5 percent of the Federal money is allowed for administrative activities; a minimum of 82.5 percent of the Federal money must be distributed to grantees.

Allocations for correctional programs are subtracted from the money distributed to grantees (minimum of 82.5 percent) prior to allocating monies to local grantees. The total amount allocated to correctional programs may be up to 20 percent of the 82.5% of the total grant award (this may be up to 16.5% of the total award that is allowed for corrections education).

The remaining balance (after corrections) of the minimum of 82.5% is the amount to be allocated to local grantees. ODCTE staff will determine an allocation amount for each of Oklahoma's 77 counties. This allocation for each county will include the number of eligible individuals within each respective county. This will include population, eligible individuals 18-24 years of age that do not have a high school diploma or its recognized equivalent, and eligible individuals 25+ years of age that do not have a high school diploma or its recognized equivalent. A formula will be developed using these variables to determine an allocation amount for each county. Applicants will select which counties that they would like to serve. Eligible providers will compete for the allocation of their selected counties. Multiple providers may be granted an allocation within a specific county, and the allocation will be divided between those providers within that specific county. Multiple service providers may be selected within a county based on funding requested on dollars available. Eligible providers will determine a budget for providing services in the counties requested and the ODCTE will evaluate these budgets. Budgets should reflect counties which eligible providers plan to serve. Negotiations will occur when more than one eligible provider is determined for a specific county. Awards may be based on multiple factors including reasonableness of the budget relative to the service area, quality of the eligible provider application, past performance including Measurable Skill Gain attainment relative to the state performance target, expected number of individuals to be served, workforce board recommendations, previous year allocation, past expenditures, and results from the pre-award risk assessment. The amount received by eligible recipients will be held steady for two years.

After the two-year period, allocation amounts for each service provider will be determined using a formula that accounts for the eligible individuals in an AEFL service area, performance of the service provider, and provider need.

The following factors may be utilized to calculate the allocation after the two-year hold steady period:

- Provider need.
- Total number of fundable students each program served in the hold steady period of up to two years. Fundable students are defined as meeting the following criteria:
 - Educational funding level to be tracked for educational gain during 12 or more attendance hours.
 - A pre-assessment score for the fiscal year that places them in a National Reporting System (NRS).
 - A per fundable student dollar amount.
- Program performance by each program two years prior to the allocation year. Program performance may be based on the following criteria:
 - Meeting or exceeding the state's NRS educational functioning level target goal percentage.
 - Meeting or exceeding the state's target goal percentage in each NRS Core performance area (Obtaining a high school equivalency diploma, entering postsecondary education/training, entering employment, retaining employment).
 - Enrollment/attendance data.
 - Meeting or exceeding the state's target percentage of 60 percent for students receiving a pre- and post-assessment score within the fiscal year.

Service providers not meeting negotiated performance levels may see a reduction in their allocation for the following year(s). Those service providers meeting or exceeding their performance levels may be eligible for an increase in their allocation in their funding for the following year(s) from the pool of funds not allocated to those providers not meeting performance levels. Performance funding will be based on up to two years of performance data. The ODCTE may limit the carryover of an AEFL service provider. The carryover limit may not exceed 25% of their projected allocation for the upcoming year. The overage will then be redistributed to other service providers.

(c) **Corrections Education and other Education of Institutionalized Individuals**. Describe how the eligible agency will, using the considerations specified in section 231(e) of WIOA and in accordance with 34 CFR 463 subpart C, fund eligible providers to establish or operate programs that provide any of the following correctional educational programs identified in section 225 of WIOA:

- Adult education and literacy activities;
- Special education, as determined by the eligible agency;
- Secondary school credit;
- Integrated education and training;
- Career pathways;
- Concurrent enrollment;
- Peer tutoring; and
- Transition to re-entry initiatives and other post release services with the goal of reducing recidivism.

Each eligible agency using funds provided under Programs for Corrections Education and Other Institutionalized Individuals to carry out a program for criminal offenders within a correctional institution must give priority to serving individuals who are likely to leave the correctional institution within 5 years of participation in the program.

Each eligible agency using funds provided under Programs for Corrections Education and Other Institutionalized Individuals to carry out a program for criminal offenders within a correctional institution must give priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program.

Oklahoma may fund academic programs for adult education and literacy activities; special education, as determined by the eligible agency; secondary school credit; integrated education and training; career pathways; concurrent enrollment; peer tutoring; or transition to re-entry initiatives and other post release services with the goal of reducing recidivism. Adult education and literacy classes will be provided in correctional facilities. Instructional strategies for this population will include:

- Academic programs that teach basic skills in reading, writing, and math
- Adult secondary programs that lead to a High School Equivalency or its equivalent credential
- Workplace education programs that teach job-specific basic skills related to the offenders' job assignments in the correctional facilities
- Instruction in job readiness
- Life skills and self-esteem
- English literacy - Since it is recognized that many offenders may have a learning disability, students may be screened for learning disabilities using the Payne Learning Needs Inventory or other screening instruments, if it is deemed appropriate by the instructor.
- Integrated Education and Training programs

Other institutionalized adults may include those in mental health institutions, juvenile detention centers, diversion programs, and drug abuse and treatment centers. Strategies for these adults will include teaching basic skills and literacy in the contexts of real-life situations, such as life skills, self-esteem, employment, and citizenship.

Adult Education & Family Literacy is offered in all correctional facilities that also offer career and technical training programs. The ODCTE has partnered with the Oklahoma Department of Corrections and has established sixteen Skills Centers within correctional facilities that provide career and technical training opportunities to incarcerated individuals. This allows funding to be provided which may support adult education and literacy activities, integrated education and training, career pathways, concurrent enrollment, and transition to re-entry initiatives and other post release services with the goal of reducing recidivism. The ODCTE will provide funds to correctional institutions and institutions that wish to provide services to criminal offenders and juveniles in detention centers, as well as individuals participating in diversion programs. The ODCTE provides state funds that are used to fund the CareerTech training programs in the Skills Centers within these correctional facilities; however, federal AEFL funds are used to support the Adult Education & Family Literacy activities in all of the correctional institutions.

To prepare offenders for successful transition, career and technical education, employability and life skills are integrated into this educational delivery system. Skills Centers students may seek certifications recognized by both state and national industries. Career Readiness Credentials (CRC) may be secured documenting work readiness skills many business and industry employers seek. The Skills Centers provides students with numerous interconnected and integrated components, each an integral part of preparing offenders for success in the workplace and in society. The Skills Centers work in conjunction with the Oklahoma Department of Corrections (DOC) and Oklahoma Correctional Industries (OCI) to offer a U.S. Department of Labor, Bureau of Apprenticeship and Training, registered apprenticeship programs for offenders in Cabinetmaking.

Regarding the federal money ODCTE receives, up to 12.5 percent is allowed for Leadership activities; 5 percent of the Federal money is allowed for administrative activities; a minimum of 82.5 percent of the Federal money must be distributed to grantees.

Allocations for correctional programs are subtracted from the money distributed to grantees (minimum of 82.5 percent) prior to allocating monies to local grantees. The total amount allocated to correctional programs may be up to 20 percent of the 82.5% of the total grant award (this may be up to 16.5% of the total award that is allowed for corrections education). The Corrections funding process will be conducted separately, and additional consideration may be given to how the applicant plans to integrate correctional programming. ODCTE will conduct an open competition for new grants to be awarded July 1, 2026. The grant application will address the thirteen considerations established in Title II. The competition will be open to all eligible providers of demonstrated effectiveness. The grant application will contain the local application criteria listed in Section 232 of the Workforce Innovation and Opportunity Act Title II, Adult Education and Literacy as well as other criteria. Each applicant will fill out the same application. This will ensure direct and equitable access to all eligible providers. Applications will be reviewed by a review panel selected by the ODCTE. A rubric will be developed, and evaluation criteria will include the 13 considerations in 231(e) of the Workforce Innovation and Opportunity Act Title II Adult Education and Literacy, as well as other components deemed necessary to review the application.

Awards may be based on multiple factors including reasonableness of the budget relative to the service area, quality of the eligible provider application, past performance including Measurable Skill Gain attainment relative to the state performance target, expected number of individuals to be served, workforce board recommendations, previous year allocation, past expenditures, and results from the pre-award risk assessment. The amount received by eligible recipients will be held steady for two years.

After the two-year period, allocation amounts for each service provider will be determined using a formula that accounts for the eligible individuals in an AEFL service area, performance of the service provider, and provider need.

The following factors may be utilized to calculate the allocation after the two-year hold steady period:

- Provider need.
- Total number of fundable students each program served in the hold steady period of up to two years. Fundable students are defined as meeting the following criteria:
 - Educational funding level to be tracked for educational gain during 12 or more attendance hours.
 - A pre-assessment score for the fiscal year that places them in a National Reporting System (NRS) the fiscal year.
 - A per fundable student dollar amount.
- Program performance by each program two years prior to the allocation year. Program performance may be based on:
 - Meeting or exceeding the state's NRS educational functioning level target goal percentage.
 - Meeting or exceeding the state's target goal percentage in each NRS Core performance area (Obtaining a high school equivalency diploma, entering postsecondary education/training, entering employment, retaining employment).
 - Meeting or exceeding the state's target percentage of 60 percent for students receiving a pre- and post-assessment score within the fiscal year.

- Enrollment/attendance data.

Service providers not meeting negotiated performance levels may see a reduction in their allocation for the following year(s). Those service providers meeting or exceeding their performance levels may be eligible for an increase in their allocation in their funding for the following year(s) from the pool of funds not allocated to those providers not meeting performance levels. Performance funding will be based on up to two years of performance data. The ODCTE may limit the carryover of an AEFL service provider. The carryover limit may not exceed 25% of their projected allocation for the upcoming year. The overage will then be redistributed to other service providers. Funding method and considerations for Corrections will ensure equitable access and consideration for all eligible providers.

- (d) **Integrated English Literacy and Civics Education Program**. Describe how the eligible agency will, using the considerations specified in section 231(e) of WIOA and in accordance with 34 CFR 463 subpart C, fund eligible providers to establish or operate Integrated English Literacy and Civics Education (IELCE) programs under section 243 of WIOA.

Funds available under section 243 (state funding 731) of the WIOA will be for a four-year cycle. ODCTE conducted an open competition for new grants awarded on July 1, 2022. A new grant competition will take place and be awarded on July 1, 2026. The competition will be open to all eligible providers of demonstrated effectiveness. The grant application will address the thirteen considerations established in Title II and contain the local application criteria listed in Section 223(e) of the Workforce Innovation and Opportunity Act Title II, Adult Education and Literacy. Each applicant will fill out the same application to ensure direct and equitable access to all eligible providers. Applications will be reviewed by a committee of the local workforce development area boards, ODCTE staff, and other individuals with competent knowledge of Adult Education & Family Literacy. A rubric will be developed, and evaluation criteria will include the 13 considerations in 223(e) of the Workforce Innovation and Opportunity Act Title II, Adult Education and Literacy, as well as other components deemed necessary to review the application.

ODCTE staff will determine an allocation amount for each of Oklahoma's 77 counties. This allocation will include the number of eligible individuals within the county. Funds will be allocated using a model that references adult ELL demographics and immigration patterns for the state. Programs requesting funds through the RFP will include a budget and narrative describing the program's plans for funds; the ELL population enrolled for the previous fiscal year; and, actual or anticipated ELL population growth based on data. Applicants will select which counties that they would like to serve. Eligible providers will compete for the allocation of their selected counties. Multiple providers may be granted an allocation within a specific county, and the allocation will be divided between those providers within that specific county. Multiple service providers may be selected within a county based on funding requested on dollars available.

Awards may be based on multiple factors including the reasonableness of the budget relative to the service area, quality of the eligible provider application, past performance including Measurable Skill Gain attainment relative to the state performance target, expected number of individuals to be served, workforce development area board recommendations, previous year allocation, past expenditures, and results from the pre-award risk assessment. The state will provide technical assistance to section 243 funded programs to ensure compliance and monitor performance. If it is deemed that a funded program is underperforming after technical assistance has been provided, ODCTE may suspend section 243 funding and find alternatives to ensure services are continued in the local areas by increasing funding to other funded providers or holding a targeted competition. The amount received by eligible recipients will be held steady for two years.

After the two-year period, allocation amounts for each service provider will be determined using a formula that accounts for the eligible individuals in a county, the performance of the service provider, and provider needs. Service providers not meeting negotiated performance levels may see a reduction in their allocation for the following year(s). Those service providers meeting or exceeding their performance levels may be eligible for an increase in their allocation in their funding for the following year(s) from the pool of funds not allocated to those providers not meeting performance levels. Performance funding will be based on up to two years of performance data. The ODCTE carryover limit may not exceed 25% of their projected allocation for the upcoming year. The overage will then be redistributed to other service providers.

The ODCTE will fund IELCE in conjunction with integrated education and training (IET) activities. Funds for IELCE will be used for the cost of educational services provided to English language learners who are adults, including paraprofessionals with degrees or credentials in their native countries, that enable such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as citizens in the United States. Funds will include the planning of and deployment of contextualized instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation. Funds will be used to prepare adults who are English language learners for and place such adults in unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency. Funds will be used for occupationally relevant instructional materials and for occupational license testing. Funds will be used to help prepare for and aid in placement in employment upon completion of the program.

Describe how adult English language learners, including professionals with degrees and credentials in their native countries, are served in IELCE programs.

ODCTE conducted an open competition for new grants awarded on July 1, 2022. A new grant competition will take place and be awarded on July 1, 2026. The grant application will address the thirteen considerations established in Title II. The competition will be open to all eligible providers. The grant application will contain the local application criteria listed in Section 223(e) of the Workforce Innovation and Opportunity Act Title II, Adult Education and Family Literacy. Applications will be reviewed by the local workforce development boards, ODCTE staff, and individuals with relevant knowledge of Adult Education and Family Literacy activities. A rubric will be developed, and evaluation criteria will include the 13 considerations in 223(e) of the Workforce Innovation and Opportunity Act Title II Adult Education and Family Literacy, as well as other components deemed necessary to review the application. Each applicant will fill out the same application. This will ensure direct and equitable access to all eligible providers.

The ODCTE will fund IELCE in conjunction with integrated education and training activities. Components funded within this program are adult education and literacy activities, workforce preparation activities, and workforce training. Funds for IELCE will be used for the cost of educational services provided to English language learners who are adults, including paraprofessionals with degrees or credentials in their native countries, that enable such adults to achieve competency in the English language and acquire the basic and more advanced skills needed to function effectively as citizens in the United States. Funds will include the planning of and deployment of contextualized instruction in literacy and English language acquisition and instruction on the rights and responsibilities of citizenship and civic participation. Funds will be used to prepare adults who are English language learners for and place such adults in unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency. Funds will be used for occupationally relevant

instructional materials and for occupational license testing. Funds will be used to help prepare for and aid in placement in employment upon completion of the program.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be designed to prepare adults who are English language learners for, and place such adults in, unsubsidized employment in in-demand industries and occupations that lead to economic self-sufficiency.

Eligible providers will deliver IELCE activities in combination with IET activities. These two pieces work together to prepare English language learners for unsubsidized employment. Funded programs must meet with local Title I partners to identify and select appropriate in-demand industries. Funded programs will develop appropriate contextualized curriculum that incorporates high quality English language activities, workforce preparation activities such as job searching, resume writing, mock interviews, on-the-job behavior, how to get promoted, self-advocacy, the rights, and responsibilities of a worker, and how to understand pay and benefits. Funded programs will work with a post-secondary or technical school to provide the training portion of the program. During this training, students will learn the skills needed to be successful in their new occupations. Finally, program staff and Title I staff will assist students in job searching and the transition to employment. Staff may continue to coach and assist students even after employed to make sure students are successful in employment.

Describe how the Integrated English Literacy and Civics Education program under section 243(a) of WIOA will be designed to integrate with the local workforce development system and its functions to carry out the activities of the program.

Eligible providers will develop partnerships with business, industry, and the local workforce development boards to provide adult education and literacy activities. These collaborations will provide workforce preparation activities and workforce training in collaboration with employers designed to improve the productivity of the workforce, as well as educational and career advancement for the eligible individual. Eligible providers will coordinate with local workforce partners to identify in-demand industries and occupations, create appropriate education and training, and place them in unsubsidized employment in those identified occupations.

Eligible providers will encourage IELCE participants to co-enroll with local workforce development system partners. This co-enrollment will allow all WIOA partners to provide the unique services without duplication. This will allow the participant to have improved access to activities leading to recognized post-secondary credentials, including industry-recognized certificates, and portable, stackable credentials. Ultimately, co-enrollment increases the options for a worker's pathway to career advancement.

Title I staff will provide workforce preparation activities throughout the duration of the program and coaching to students as they begin to transition out of the IELCE program into unsubsidized employment. These touch points will give students additional mentors and helpers to use as supports throughout their journey in the program and during their initial phases as a new worker.

(e) **State Leadership.** Describe how the State will use the funds to carry out the required State Leadership activities under section 223 of WIOA.

ODCTE administers and monitors federal and state adult education and literacy funds to local providers and provides program development and training activities to assure quality basic skills services for all students across the State. ODCTE will use 12.5 percent of its federal allocation for adult education and literacy for statewide leadership activities. The four required activities are included below along with how the state will use leadership funds to carry out activities under section 223 of WIOA. The following state leadership activities will be conducted annually:

A. *Alignment of adult education and literacy activities with other one-stop required partners to implement the strategies in the Unified or Combined State Plan as described in section 223(1)(a).*

The implementation of strategies identified in the state plan and the development of career pathways to deliver access to training and employment services for individuals involved in adult education programs. ODCTE participates as a core partner with Oklahoma Works to develop and implement state-wide workforce initiatives. The ODCTE AEFL State Director participates in the Governor's Council for Workforce Development. ODCTE AEFL staff participate in the System Oversight Subcommittee. Representatives from ODCTE will participate on additional committees lead by Oklahoma Works. As committee members, the ODCTE state staff participate in the planning of the Oklahoma Works Partners Conference. ODCTE AEFL staff will participate in regional workforce boards. These board meetings are used to establish policies and guidance for the workforce development boards in implementing these policies. Such policies will provide the guidance necessary in implementing career pathways and allowing individuals access to employment and training services for individuals in adult education and literacy activities. ODCTE will annually evaluate local and regional workforce development plans for alignment.

B. *Establishment or operation of a high-quality professional development programs as described in section 223(1) (a).*

Oklahoma may provide state administration funds annually for each AEFL provider to participate in high quality professional development related to adult education and literacy activities. ODCTE may specify criteria for professional development based upon program needs and state performance measures. Each program will receive a professional development allocation. The state will also provide professional development utilizing conference calls, regional meetings, webinars, virtual meetings, and other means. ODCTE will offer adult education professional development workshops to improve the quality of instructional programs for adult learners. Adult education instructional personnel and program administrators will be required to complete a minimum of 15 hours of professional development hours per program year. Professional development topics to be covered may include areas suggested by the AEFL service providers, as well as areas necessary for the advancement of adult education in Oklahoma. Professional development topics may include:

- Best practices in instruction
- Classroom management
- Supporting adults with learning disabilities and other learning differences
- Developing and implementing work-based education programs
- Student retention
- Blended learning
- Interactive pedagogy
- Implementing a comprehensive family literacy program family literacy training
- Teaching English as a Second Language (ESL) in a multilevel ESL classroom
- Developing and implementing an Integrated Education Training (IET) program

- E-learning or virtual learning
- Online assessments
- Data quality assurance
- Financial training
- Assessment of adult learners using the Tests of Adult Basic Education (TABE)
- Utilizing LiteracyPro's Information Management System, LACES
- Technology training
- Other Topics for Professional Development as identified by surveying Adult Education & Family Literacy providers

C. *Provision of technical assistance to funded eligible providers as described in section 223(1)(c).*

ODCTE staff will meet regularly with eligible providers to determine technical assistance needs. ODCTE utilizes a tiered system of support to determine technical assistance needs for data management. Technical assistance will be provided to eligible providers and may include:

- Assistance in the use of technology, including for staff training to eligible providers especially the use of technology to improve data collection efficiencies
- Pre/post-assessment and student performance data collection
- Utilizing LiteracyPro's Information Management System, LACES
- Assessment of adult learners using the Tests of Adult Basic Education (TABE)
- Strategies and screening for adults with learning disabilities
- Implementing family literacy programs
- Development and distribution of instructional practices based on the most current and valid research available
- Student retention
- Budget and claims
- Student records
- Providing guidance to eligible providers as they fulfill their role as one-stop partners in providing access to employment, education, and training services
- Data management
- Implementing work-based education programs
- Coordination with the local One-Stop Centers
- Integrating adult education and literacy activities with job training programs
- Promoting linkages with employers
- Other areas, as needed

D. *Monitoring and evaluation of the quality and improvement of adult education activities as described in section 223(1)(d).*

According to state policy, ODCTE will monitor the adult education and literacy activities through on-site, virtual or hybrid visits throughout the program year. Monitoring activities will ensure that valid and reliable student performance data is being collected and reported. It will also ensure that instructional programs are being carried

out in accordance with the approved applications. Regular fiscal reviews for all funded programs will be conducted. The ODCTE will follow its risk assessment policy and monitoring policy. Monitoring visits will be conducted to check student records and other data, support for the AEFL program by the organization, staff development, instruction and curriculum, testing, and other areas. Feedback will be used to improve future professional development activities, as well as assist the ODCTE in determining future professional development topics. Based upon monitoring findings, ODCTE will provide ongoing technical assistance.

Describe how the State will use the funds to carry out permissible State Leadership Activities under section 223 of WIOA, if applicable.

Permissible activities of statewide significance which promote the purpose of the Adult Education and Family Literacy Act may also be supported as part of the State Leadership Activities. These may include such activities as statewide outreach to instructors, students, and employers; activities to promote high school equivalency (HSE) credentials; support for screening adults with learning disabilities; and activities to promote workforce adult education and literacy activities, including the development and implementation of IETs. ODCTE may assist in the development and implementation of a system to provide transitions from adult education to post-secondary education, including linkages between AEFL programs and career and technology education programs. Additional activities may include partnerships between statewide literacy coalitions and ODCTE, such as conferences, adult education teacher associations, and outreach.

- (f) **Assessing Quality.** Describe how the eligible agency will assess the quality of providers of adult education and literacy activities under title II. Describe how the eligible agency will take actions to improve such quality, including providing the activities described in section 223(a)(1)(B) of WIOA. Describe how the eligible agency will use evaluations, data analysis, program monitoring, or other methods to improve the quality of adult education activities in the State.

ODCTE will evaluate annually the effectiveness of adult education and literacy programs. The annual evaluation is designed to measure the ability of local programs to meet or exceed the established performance levels based on the federal and state Core Indicators of Performance, as well as their ability to reach high standards related to Oklahoma's Indicators of Program Quality and the criteria for funding. Annual evaluation activities will include the following:

1. Performance results achieved on each of the federal and state Core Indicators of Performance will be compiled and compared to the ODCTE's performance levels negotiated with the United States Department of Education. Progress towards meeting the levels of performance will be tracked through the LiteracyPro Management Information System (MIS), which has been adopted for use statewide by Oklahoma's adult education and literacy programs. LiteracyPro allows local programs to collect, compile, and report student identification and demographic information, contact hours, placement level at program entry, learning goals, pre- and post- testing information, student progress and follow-up, and other needed information. ODCTE will build on the National Reporting System (NRS) to identify strategies that local providers can use to obtain follow-up information on students who leave the program and obtain employment, retain employment, or job advancement, enter post-secondary education or job training programs, and/or obtain a high school equivalency. These strategies may include sampling techniques which conform to ODCTE's specifications as identified in the annual performance report and approved by the Office of Management and Budget.

2. The ODCTE will follow its risk assessment and monitoring policy. On-site, virtual, or hybrid monitoring will be completed for all programs within a four-year grant cycle. The on-site evaluations will be conducted by a review team consisting of state adult education and literacy staff members, local adult education professionals and/or Title I partner, if appropriate. Monitoring visits will be conducted to check for federal and state compliance, use of funds, student records, program facilities, organizational program support, professional development, instruction, curriculum, testing, assessment, and other areas deemed necessary by ODCTE. The on-site monitoring may consist of program staff interviews, surveys, a review of documentation which supports the core indicators of performance, the indicators of program quality, the criteria for funding, and visits to adult education classes. Based on the findings of the on-site monitoring, a final monitoring report detailing program strengths, areas of non-compliance, and recommendations for improvement will be completed for each program reviewed.
3. ODCTE will perform data reviews of all local adult education and literacy programs throughout the fiscal year. Based on any potential non-compliant findings of the data review, on-site reviews may be conducted to determine on-going technical assistance.
4. Fiscal reviews for funded programs may be conducted for compliance with state and federal regulations, policies, and guidelines.
5. An annual needs assessment will assist in determining professional development needs. Research-based professional development will be provided. The ODCTE Adult Education & Family Literacy division will evaluate the professional development through surveys and performance indicators.

ADULT EDUCATION AND FAMILY LITERACY ACT PROGRAM CERTIFICATIONS AND ASSURANCES

States must provide written and signed certifications that:	
1.	The plan is submitted by the State agency that is eligible to submit the plan;
2.	The State agency has authority under State law to perform the functions of the State under the program;
3.	The State legally may carry out each provision of the plan;
4.	All provisions of the plan are consistent with State law;
5.	A State officer, specified by title in the certification, has authority under State law to receive, hold, and disburse Federal funds made available under the plan;
6.	The State officer who is submitting the plan, specified by the title in the certification, has authority to submit the plan;

7.	The agency that is submitting the plan has adopted or otherwise formally approved the plan; and
8.	The plan is the basis for State operation and administration of the program;
The State Plan must include assurances that:	
1.	The eligible agency will expend funds appropriated to carry out title II of the Workforce Innovation and Opportunity Act (WIOA) only in a manner consistent with fiscal requirements under section 241(a) of WIOA (regarding the supplement-not-supplant requirement);
2.	The eligible agency will ensure that there is at least one eligible provider serving each local area, as defined in section 3(32) of WIOA;
3.	The eligible agency will not use any funds made available under title II of WIOA for the purpose of supporting or providing programs, services, or activities for individuals who are not “eligible individuals” within the meaning of section 203(4) of WIOA, unless it is providing programs, services or activities related to family literacy activities, as defined in section 203(9) of WIOA;
4.	Using funds made available under title II of WIOA to carry out a program for criminal offenders within a correctional institution, the eligible agency will give priority to serving individuals who are likely to leave the correctional institution within five years of participation in the program.
5.	The eligible agency agrees that in expending funds made available under Title II of WIOA, the eligible agency will comply with sections 8301 through 8303 of the Buy American Act (41 U.S.C. 8301-8303).

Section 427 of the General Education Provisions Act (GEPA):

Instructions: In the text box below, describe the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs provide the information to meet the requirements of Section 427 of the General Education Provisions Act (GEPA), consistent with the following instructions. [OMB Control No. 1894-0005 (Exp. 04/30/2020)]

The ODCTE will ensure that barriers are prevented from occurring which may impede equitable access or participation for gender, race, national origin, color, disability, or age. The ODCTE regularly provides technical assistance and guidance to local providers when potential barriers present themselves. For example, the ODCTE has worked with the Department of Rehabilitative Services to ensure that individuals who are hearing impaired have equitable access to instruction, which includes local providers utilizing sign language interpreters for those eligible individuals requesting this resource. As these barriers present themselves, the ODCTE works with other WIOA core and required partners, as well as other parties, in determining measures that remove and eliminate barriers based on gender, race, national origin, color, disability, or age.

ODCTE also ensures that all state and local program staff have the right to work in a positive environment which is free from discrimination based on race, color, religion, sex, national origin, age, protected disability, veteran status, or any other characteristic protected under applicable federal, state, or local law. ODCTE staff and local partners and providers also comply with all applicable federal and state laws, rules, and regulations, including the Americans with Disabilities Act.

Notice to All Applicants:

Review the linked document. Where “applicant” is mentioned, that refers to the State eligible agency and “application” refers to the state plan. This element does not apply to local providers for state plan purposes. State eligible agencies are required to maintain local GEPA responses separately from the state plan. The State eligible agency must provide a response to GEPA regarding use of AEFLA State Administration and State Leadership funds in the State Plan.

The purpose of this enclosure is to inform you about the following provision in the Department of Education's General Education Provisions Act (GEPA) that applies to applicants for new grant awards under Department programs. This provision is Section 427 of GEPA, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

To Whom Does This Provision Apply?

Section 427 of GEPA affects applicants for new grant awards under this program. **All applicants for new awards must include information in their applications to address this new provision to receive funding under this program.** If this program is a State-formula grant program, a State needs to provide this description only for projects or activities that it carries out with funds reserved for State-level uses. In addition, local school districts or other eligible applicants that apply to the State for funding need to provide this description in their applications to the State for funding. The State would be responsible for ensuring that the school district or other local entity has submitted a sufficient section 427 statement as described below.

What Does This Provision Require?

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, you should determine whether these or other barriers may prevent your students, teachers, etc. from such access or participation in, the Federally-funded project or activity. The description in your application of steps to be taken to overcome these barriers need not be lengthy; you may provide a clear and succinct description of how you plan to address those barriers that are applicable to your circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it to eliminate barriers it identifies.

What are Examples of How an Applicant Might Satisfy the Requirement of This Provision?

The following examples may help illustrate how an applicant may comply with Section 427.

(1) An applicant that proposes to carry out an adult literacy project serving, among others, adults with limited English proficiency, might describe in its application how it intends to distribute a brochure about the proposed project to such potential participants in their native language.

(2) An applicant that proposes to develop instructional materials for classroom use might describe how it will make the materials available on audio tape or in braille for students who are blind.

(3) An applicant that proposes to carry out a model science program for secondary students and is concerned that girls may be less likely than boys to enroll in the course, might indicate how it intends to conduct "outreach" efforts to girls, to encourage their enrollment.

(4) An applicant that proposes a project to increase school safety might describe the special efforts it will take to address concern of lesbian, gay, bisexual, and transgender students, and efforts to reach out to and involve the families of LGBT students

We recognize that many applicants may already be implementing effective steps to ensure equity of access and participation in their grant programs, and we appreciate your cooperation in responding to the requirements of this provision.

Estimated Burden Statement for GEPA Requirements:

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 1.5 hours per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is required to obtain or retain benefit (Public Law 103-382. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Education, 400 Maryland Ave., SW, Washington, DC 20210-4537 or email ICDocketMgr@ed.gov and reference the OMB Control Number 1894-0005.

Authorizing or Certifying Representative:

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or

cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

Statement for Loan Guarantees and Loan Insurance

The undersigned states, to the best of his or her knowledge and belief, that:

If any funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this commitment providing for the United States to insure or guarantee a loan, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions. Submission of this statement is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required statement shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

PRINTED NAME AND TITLE OF AEFL STATE DIRECTOR	Letha Bauter, AEFL State Director Letha.bauter@careertech.ok.gov

Program-Specific Requirements for State Vocational Rehabilitation Services Program

The Vocational Rehabilitation (VR) Services Portion of the Unified or Combined State Plan must include the following descriptions and estimates, as required by sections 101(a) and 606 of the Rehabilitation Act of 1973, as amended by title IV of WIOA.F

(a) State Rehabilitation Council. All VR agencies, except for those that have an independent consumer-controlled commission, must have a State Rehabilitation Council (Council or SRC) that meets the criteria in section 105 of the Rehabilitation Act. The designated State agency or designated State unit, as applicable, has (select A or B):

[check box] (A) is an independent State commission.

[X] (B) has established a State Rehabilitation Council.

In accordance with Assurance 3(b), please provide information on the current composition of the Council by representative type, including the term number of the representative, as applicable, and any vacancies, as well as the beginning dates of each representative's term.

Council Representative	Current Term Number/ Vacant	Beginning Date of Term Mo./Yr.
Statewide Independent Living Council (SILC)	Lynn Dunn	9/22/23- 9/1-24
Parent Training and Information Center	Melissa Davis	10/5/23- 9/1/26
Client Assistance Program	William Ginn	10/11/23- 9/1/26
Qualified Vocational Rehabilitation (VR) Counselor (Ex Officio if Employed by the VR Agency)	Angela Jaworski (VR) Charity Edison (SBVI)	10/9/23- 9/1/26 10/9/23- 9/1/26
Community Rehabilitation Program Service Provider	Nikki Jolly	10/9/23- 9/1/25
Business, Industry, and Labor	Sharon Harrison	10/9/23- 9/1/26
Business, Industry, and Labor	Scott Mullins	10/4/23- 9/1/26
Business, Industry, and Labor	Kelli Bates	10/9/23- 9/1/25
Business, Industry, and Labor	Vacant	

Disability Advocacy Groups	Shelley Gladden	9/29/22-9/1/25
Current or Former Applicants for, or Recipients of, VR services	Jeff Newton	9/29/22-9/1/25
Section 121 Project Directors in the State (as applicable)	Vacant	
State Educational Agency Responsible for Students with Disabilities Eligible to Receive Services under Part B of the Individuals with Disabilities Education Act (IDEA)	Lori Chesnut	10/4/23-9/1/26
State Workforce Development Board	Vacant	
VR Agency Director (Ex Officio)	Melinda Fruendt	Lifer

If the SRC is not meeting the composition requirements in section 105(b) of the Rehabilitation Act and/or is not meeting quarterly as required in section 105(f) of the Rehabilitation Act, provide the steps that the VR agency is taking to ensure it meets those requirements.
 [text box]

In accordance with the requirements in section 101(a)(21)(A)(ii)(III) of the Rehabilitation Act, include a summary of the Council’s input (including how it was obtained) into the State Plan and any State Plan revisions, including recommendations from the Council's annual reports, the review and analysis of consumer satisfaction and other Council reports.

The Oklahoma Rehabilitation Council (ORC) was established in 1993 as mandated by the 1992 Amendments to the Rehabilitation Act. Its mission is to facilitate consumer education and empowerment, to assure services are of high quality, and lead to the employment of individuals with disabilities within the state of Oklahoma. The ORC acknowledges and commends the efforts and flexibility of the Oklahoma Department of Rehabilitation Services (DRS) toward proactively serving its clientele during and after the COVID-19 pandemic. It is well known that the pandemic changed the way things in the workplace are done, and that could add another barrier to people with disabilities, but DRS has created a safe environment for its clients and has helped them during this transition. ORC also appreciates the collaborative efforts and communication between the Agency and the Council; we look forward to continuing a positive relationship and promoting increased and meaningful employment opportunities for individuals with disabilities.

The ORC used the 2020-2022 DRS Statewide Assessment to identify the following recommendations based on its function to review, analyze, and advise the Agency regarding the performance of its responsibilities.

Provide the VR agency’s response to the Council’s input and recommendations, including an explanation for the rejection of any input and recommendations.

text box: List each recommendation/input followed by the VR agency response]

Recommendation 1: Increase opportunities for Transition Age Youth communication and critical skills training

The ORC is aware of the Agency's excellent work and expansion of its Pre-ETS services; however, this area continues to be mentioned as one that needs improvement because of its importance for the transition students' future. In order to increase these services, the Council recommends the DRS partner with the local Community Rehabilitation Program Service Providers (CRP) to create more opportunities for students to improve their communication skills and provide guidance on possible issues, like schedule conflicts or work absences.

Response: The DSA is in process of exploring the opportunity to expand current partnerships with Career Technology Centers to be vendors for Pre-ETS. This is a natural feed into the schools and the opportunities for a talent pipeline with Career Techs across the state. This will create additional improvements to students within their communities to increase their knowledge of pre-employment transition services. Those will include communication skills, work-based learning opportunities, work readiness training, job exploration, counseling on post-secondary education, and self-advocacy. With the advancement of having Central Tech and Kiamichi on board at this time, we can serve 16 additional counties that our OU Pre-ETS are not able to serve due to location. We are positive that this will bring a lot of other possibilities for students with disabilities and look forward to this growth.

Recommendation 2: Training of the School staff on DRS Transition Services

According to the needs assessment report, a 2022 DRS/Oklahoma State Department of Education (OSDE) – Special Education Services (SES) survey found that 47% of school staff did not know that DRS provided pre-ETS services to potentially eligible students without applying. In this case, the Council recommends the DRS Transition Unit to have a training with the school staff before the school year starts to inform them of the services available for the students and continued communication throughout the year in case there is personnel turnover.

Response: The DSA Transition Coordinator, DSA Transition Teams, and the Department of Education – Special Education Services are working collaboratively to create awareness and training to teachers and administration. DRS and OSDE have had joint meetings to prepare for these trainings. OSDE includes DRS and Pre-ETS information in the newsletters every chance they can. DRS has monthly newsletters that are sent to partners and subscribers to enhance partnerships for teachers and administration about services, including Pre-ETS. The DRS team has been assisting schools with transition resource fairs across the state to encourage more involvement with DRS and other agencies and we are expanding into rural areas because of these collaborations and connections.

Recommendation 3: Services in Rural Areas

The needs assessment report shows there is a need for more Supported Employment, Employment and Retention, and job placement specialists in rural areas, and certain areas also lack service providers for individuals with developmental disabilities. The ORC acknowledges the significant effort DRS puts into serving rural areas. However, this need has been mentioned several times in reports and public forums, like the Focus Groups ORC held in 2021. The Council recommends the DRS look for partnerships with CRPs close to these areas to create more options for service to these clients.

Response: The DSA is working with the DDS to devise a program where VR/DDS is breaking down barriers, not only in working with mutual clients in our systems, but also providing information and training to vendors that serve each Agency. We are providing trainings to vendors, so they understand the differences in referrals, expectations, payment avenues and reporting to each agency. This partnership has resulted in the addition of 11 new vendors to the DSA. We continue to work on ideas and best practices to increase assistance to the rural areas, but we are at the mercy of finding vendors that have the resources to provide those services.

The SRC's partnership is vital to the DSA to expand public awareness of disability issues, disability related events and promoting the services the DSA can provide. The DSA continues to maintain a cooperative, productive and interactive relationship with the Oklahoma SRC. The DSA appreciates the Council's collaboration and partnership to continually improve relationships with consumers and bring awareness to how quality vocational rehabilitation services impact Oklahomans with disabilities, their communities and state.

(b) Comprehensive Statewide Needs Assessment (CSNA). Section 101(a)(15), (17), and (23) of the Rehabilitation Act require VR agencies to provide an assessment of:

(1) The VR services needs of individuals with disabilities residing within the State, including:

(A) Individuals with the most significant disabilities and their need for Supported Employment;

- Those with self-care difficulties have the lowest employment rates according to the 2020 ACS data. For Priority Group 1 cases with a plan date between July 1, 2020, and June 30, 2022, and a severe functional limitation, counselors identified 1,550 cases with a severe self-care functional limitation (64%). These included 760 cases (31%) where the ability to recognize potential hazards was the impediment, 748 cases (31%) where the ability to perform activities of daily living (eat, get dressed, hygiene, health care management) was the impediment, and 1,045 (43%) where the ability to manage their own money, do banking, or balance a checkbook was the impediment.
- Overall, the largest functional limitation for Priority Group 1 cases with a plan date during SFY 2021 and 2022 was Work Skills (95%). There are a variety of impediments that coincide with the Work Skills functional limitation selection.
- The largest selected functional limitation/impediment combination was Communication where the impediment was receptive (hearing, reading, attention span, processing information). In total, 1,803 cases (74%) had this impediment to employment.
- During SFY 2021 and 2022, 1,053 Priority Group 1 cases were marked as low income at IPE, making it the largest employment barrier for clients with the most significant disabilities at plan development.
- As of 8/15/22 for cases with a signed IPE open at any point during SFY22, OKDRS's leading primary disability categories were cognitive impairments (29.6% of cases) and psychosocial impairments (19.2%).
- The most authorized service category for Priority Group 1 cases during SFYs 2021 and 2022 was supported employment. There is a need for more Supported Employment, Employment and Retention, and job placement specialists in rural areas. Certain areas of the state also lack service providers for individuals with developmental disabilities.

- Focus group attendees noted statewide infrastructure barriers such as cracked sidewalks and buildings that are not accessible that can inhibit individuals with disabilities from obtaining employment, especially in rural areas.

(B) **Individuals with disabilities who are minorities and individuals with disabilities who have been unserved or underserved by the VR program;**

- The overall successful closure rate during FFY 2020 and 2021 was 37.37%. The rate varied across the different racial/ethnic groups and for those that were transition program participants. The lowest overall successful closure rate was for Black transition program participants (17.45%).
- A 2021 Annual Disability Infographic reported that nationwide, “Compared to all races, African American adults with disabilities are 20% less likely to be employed, 33% more likely to experience poverty, and 49% more likely to lack adequate housing” (Institute on Disability/UCED).
- 55.2% of Oklahomans who identify as Black and 46.8% of those who identify as Hispanic or Latino reside in Oklahoma City or Tulsa. While these areas have more services available and more job opportunities, the cost of living is higher.
- 23,862 of the 49,758 Oklahomans who identify as Native American or Alaska Native with a disability reside in Congressional District 2. The ACS data indicate there are important socio-economic, disability, and education factors that set Congressional District 2 apart from the rest of the state.
- Statewide OKDRS was serving 20.6% of the adult target population for possible service. The 5 counties where OKDRS was serving the lowest percentage of the aged 18-64 target population were McIntosh, Adair, Delaware, Sequoyah, and Wagoner (5.8% to 9.8%).
- The twelve counties with the highest percentage of the aged 18-64 population with a disability were Coal, Pushmataha, Choctaw, Greer, Haskell, Seminole, Murray, McIntosh, Love, Johnston, Pittsburg, and Cotton (26.7% to 21.7%). These counties are in eastern and southern Oklahoma.
- ACS data continues to indicate that individuals with disabilities living in Congressional District 2 are more likely to have poorer outcomes than individuals living in the other Oklahoma congressional districts, including the lowest disability employment rate for those aged 16 and over (22.0%), the highest percentage living in poverty (23.6%), and the highest percentage of those aged 25 and over with less than a high school diploma (21.2%) (ACS 2020).
- COVID-19 had a significant impact on service provision and employment opportunities, especially during the initial lockdown period. Procedures were amended to continue to serve clients, and online training and meetings have become a normal part of the work experience. Telework has become more widely accepted, which can help those with transportation issues who are seeking employment.
- Transportation issues, including routes, schedules, accessibility, and cost, continue to be an employment barrier across the state.
- The increasing cost of housing makes it very difficult for a person receiving SSI only to afford rent in Oklahoma, particularly in the Oklahoma City area (TAC 2022).

(C) **Individuals with disabilities served through other components of the workforce development system; and**

- For Program Year (PY) 2021, 9.0% of OKDRS clients were co-enrolled with a Title 1 and/or Title III program through Workforce (Program Year 2021 WIOA Annual Report).
- OKDRS continues to work with Oklahoma Works on the five-star accessibility rubric.
- Training and education remain essential needs for individuals with disabilities, including degrees and certificates that meet the requirements of job openings that are available in the state as well as training in soft skills, critical thinking skills, and interview skills to help younger clients and transition students obtain and keep employment.

- (D) **Youth with disabilities, including students with disabilities and their need for pre-employment transition services. Include an assessment of the needs of individuals with disabilities for transition career services and pre-employment transition services, and the extent to which such services are coordinated with transition services provided under IDEA.**
- As of May 2022, there were 29,967 students between the ages of 15 and 21 on an IEP in public school districts in Oklahoma. Statewide, as of August 25, 2022, OKDRS was serving 1,452 students as clients through age 21 with open secondary education goals. During SFY22, OKDRS also provided pre-ETS to an additional 2,546 potentially eligible students. In total, it is estimated that OKDRS is providing some type of service to approximately 13.3% of public school students.
 - Over the last three years, OKDRS has provided services to students and youth, including pre-ETS to potentially eligible youth, via contracts with the University of Oklahoma and Central Technology Center, through Counselor outreach and instruction, and through CRPs. OKDRS also has STEM Camps, Visually Impaired Blind Empowerment (VIBE) camps, Project Search, and Building Employment Skills for Today and Summer Transition Employment Program (BEST STEP) camps.
 - As of September 10, 2022, OKDRS had contracts with 302 of the 435 public school districts with high schools in Oklahoma (69.4%). In addition, OKDRS had contracts with six career technology centers.
 - There is a lack of understanding by families of students with disabilities regarding the steps to take when the student is about to graduate or turn 18. Schools are making referrals to VR, but many families do not follow up and have their students complete an application. Cooperation is essential. OKDRS needs schools to help bridge the gap between counselors and parents.
 - There is a continuing need for communication skills and critical thinking skills training for youth.
 - Turnover in both OKDRS counselor positions and special education positions at schools can result in referrals and continuations getting lost.
 - A 2022 OKDRS/SDE-SES survey found that 47% of school staff did not know that DRS provides pre-ETS services to potentially eligible students without applying.
 - 52% of survey respondents reported pre-ETS are available to their students with 67% reporting they are satisfied with the activities being delivered and 28% are somewhat satisfied; 93% believe their students have benefitted from pre-ETS activities.
 - 74.6% of school staff survey respondents selected workplace readiness as a most needed transition learning area (largest response option selected).
 - When school staff were asked what administrative barriers they might be facing (if any), the most selected response option was “Not enough special education staff” by 58.6% of respondents. The second most selected option was “Staff time limitations” by 46.9% of respondents.

- A lack of a support network and a lack of self-motivation were the most selected barriers that school staff believe students face in achieving their post-secondary goals.
- When broken down by race/ethnicity and transition program participation, Black transition program participants had the lowest successful closure rate during FFY 2020 and 2021 (17.45%). Hawaiian/Pacific Islander and American Indian or Alaska Native transition participants had the second and third lowest successful closure rates. If a client was ever a part of the transition program during the life of their case, they are included in the transition program participant outcome rate. Multiple factors, including many outside the control of OKDRS, can impact closure rates for different groups. Even though OKDRS cannot resolve all factors that might influence outcomes, it is important to identify which groups have rates below the agency average and investigate possible ways to increase successful outcomes.
- A 2021 Annual Disability Infographic reported that nationwide, “Compared to all races, African American students with disabilities are 15.4% more likely to spend time outside a regular classroom, 160% more likely to be placed in a correctional facility, and 2.5% less likely to have completed high school” (Institute on Disability/UCED).
- A 2022 Bellwether.org article entitled “Ignored, Punished, and Underserved,” found multiple differences in identification, placement, discipline, and family engagement and support between students of color and white students with disabilities. Some challenges faced by students of color include later identification and misidentification of impairments, more difficulties accessing services, a higher likelihood to experience school-based discipline, receiving more serious punishments at school, being more likely to be outside of a regular classroom, being disproportionately restrained at school, are more likely to receive poor-quality special education, and are less likely to receive 504 supports (Hinds, Newby, and Korman, (2022).
- Higher counts of Black and African American youth and Hispanic youth with an IEP are found in the Oklahoma City and Tulsa area school districts (as well as the Lawton school district). School districts in the Guymon area also have a higher count of Hispanic youth than other rural areas. Students on an IEP who are English Language Learners (ELL) are more likely to be found in the Oklahoma City and Tulsa area school districts. A moderate number are also found in the Guymon area school districts.
- Higher counts of Native American youth with IEPs are more dispersed around the state. Schools around Tulsa and rural school districts in the eastern part of Oklahoma have the highest counts of Native American youth. Some districts around Oklahoma City and Lawton also have moderate counts of Native American youth with IEPs. Overall, Native American youth with IEPs are more likely than other minority youth to be students in rural districts.

(2) Identify the need to establish, develop, or improve community rehabilitation programs within the State.

- As of October 15, 2021, OKDRS has contracts with 38 Community Rehabilitation Providers (36 with supported employment contracts). During FFY 2021 and 2022, OKDRS referred 1,906 clients for services from a CRP.
- Some rural regions of the state have either no CRPs or only limited availability to provide services to OKDRS clients.
- Job coach turnover has been an ongoing issue for some CRP providers and can affect the quality of services provided.

(c) Goals, Priorities, and Strategies. Section 101(a)(15) and (23) of the Rehabilitation Act require VR agencies to describe the goals and priorities of the State in carrying out the VR and Supported Employment programs. The goals and priorities are based on (1) the most recent CSNA, including any updates; (2) the State’s performance under the performance accountability measures of section 116 of WIOA; and (3) other available information on the operation and effectiveness of the VR program, including any reports received from the SRC and findings and recommendations from monitoring activities conducted under section 107 of the Rehabilitation Act. VR agencies must—

- (1) Describe how the SRC and the VR agency jointly developed and agreed to the goals and priorities and any revisions; and
Goals and priorities are in development
- (2) Identify measurable goals and priorities in carrying out the VR and Supported Employment programs and the basis for selecting the goals and priorities (e.g., CSNA, performance accountability measures, SRC recommendations, monitoring, other information). As required in section 101(a)(15)(D), (18), and (23), describe under each goal or priority, the strategies or methods used to achieve the goal or priority, including as applicable, description of strategies or methods that—
 - (A) Support innovation and expansion activities;
 - (B) Overcome barriers to accessing VR and supported employment services;
 - (C) Improve and expand VR services for students with disabilities, including the coordination of services designed to facilitate the transition of such students from school to postsecondary life (including the receipt of VR services, post secondary education, employment, and pre-employment transition services); and

The DSA provides pre-employment transition services in its programs for youth and students and will work with agency staff to identify additional programs and services the staff wants to implement and provide in their local areas. Formal MOUs, contracts, and other agreements will be generated with partners to diversify and expand what can be provided to students in this area. The DSA through an interagency agreement with the State Education Agency (SEA), provides guidance to the schools in the state to encourage a focus on the Five Required Areas in the delivery of transition services that are required under the Individuals with Disabilities Education Act (IDEA). The DSA continues to maintain and expand a collaborative relationship with the SEA in order to improve the delivery of Pre-ETS statewide.

The Oklahoma Inclusive Post-Secondary Education Alliance (OK IPSE Alliance) is a partnership between the Department of Rehabilitation Services, Sooner SUCCESS, and the Oklahoma State Department of Education. The Alliance brings together key collaborators who work with students with intellectual or developmental disabilities (IDD) in order to support inclusive post-secondary education (IPSE) programs and the students they serve. For the year 2023/2024, there are a total of 66 students enrolled in the four programs in our state: Northeastern State University/RiverHawks Scholar Program, University of Oklahoma/Sooner Works, Oklahoma State University/Opportunity Orange Scholars, and University of Science and Arts of Oklahoma/Neill-Wint Center for Neurodiversity. There have been 13 graduates from the programs and they continue to grow each year with two to five times more applicants than available space for students.

OKIPSE Alliance activities include:

- 1) Provide a format to engage key collaborators and enhance the environment in Oklahoma for further IPSE opportunities
- 2) Provide information and resources to existing IPSE programs
- 3) Collect information from current programs
- 4) Provide training opportunities to build capacity for IPSE programs - Example: The first IPSE Summit in Oklahoma: Oklahoma/Texas IPSE Summit. The first Summit was held April, 2023 with 150 in attendance from three states. Oklahoma is planned to host every other year.
- 5) Facilitate innovative partnerships to support IPSE programs and their students - Example: We have facilitated a partnership with COWIB (Central Oklahoma Workforce Innovation Board)/Pre-ETS to create "IPSE NEXT". This is a pilot that provides Work Skills Trainers who support students working in the community both while attending an IPSE program and upon graduation to find a competitive job of choice, utilizing the skills gained from attending the IPSE programs.

- (D) [Improve the performance of the VR and Supported Employment programs in assisting individuals with disabilities to achieve quality employment outcomes.](#)
 [text box: List and number each goal/priority, noting the basis, and under each goal/priority, list and number the strategies to achieve the goal/priority]

[\(d\) Evaluation and Reports of Progress: VR and Supported Employment Goals.](#) For the most recently completed program year, provide an evaluation and report of progress for the goals or priorities, including progress on the strategies under each goal or priority, applicable to that program year. Sections 101(a)(15) and 101(a)(23) of the Rehabilitation Act require VR agencies to describe—

- (1) [Progress in achieving the goals and priorities identified for the VR and Supported Employment Programs;](#)
- (2) [Performance on the performance accountability indicators under section 116 of WIOA for the most recently completed program year, reflecting actual and negotiated levels of performance. Explain any discrepancies in the actual and negotiated levels; and](#)

The DSA processes a quarterly report to it’s federal oversight agency, the Rehabilitation Services Administration (RSA) which includes both VR program data plus data elements for the PIRL (Participant Individual Record Layout) required for joint annual reporting under WIOA and submits the WIOA Statewide and local Performance Report. DSA Leadership established a Performance Review team who meets monthly to review current data and performance indicators. DVR and SBVI Leadership regularly discuss Federal Reporting issues and review specific data elements as areas of focus. Information and targeted training about those critical elements are shared and provided to field staff to assure the DSA is collecting and reporting accurate and complete data. The DSA exceeded all negotiated levels of performance for all 5 performance indicators in PY 22.

Title IV- Vocational Rehabilitation Program Indicator	PY2022 State Negotiated Level	PY2022 Performance Outcomes
---	-------------------------------	-----------------------------

Employment (Second Quarter After Exit)	51.6%	50.6%
Employment (Fourth Quarter After Exit)	37.9%	37.9%
Median Earnings (Second Quarter After Exit)	\$4,750	\$5,330
Credential Attainment Rate	39.3%	50.9%
Measurable Skill Gains	70.9%	71.6%

(3) [The use of funds reserved for innovation and expansion activities \(sections 101\(a\)\(18\) and 101\(a\)\(23\) of the Rehabilitation Act\) \(e.g., SRC, SILC\).](#)

Total I&E Expenditures for FY 22 is \$178,508.66. I&E Expenditures Supporting State Rehabilitation Council Resource Plan are \$150,462.62

The DSA will support all innovation and expansion activities, in collaboration with the SRC. The activities will include:

- Executive Committee: Outreach to businesses and disability organizations to educate on DSA programs, services, and activities and role of SRC; Participation with DSA Workforce System Activities. Program and Planning Committee: Data and Findings of Customer satisfaction Surveys and State performance accountability measures/assessment.
- Policy and Legislative Committee: Policy public hearings; Promotion of client success stories; Meet the Legislative Candidates forum; Collaboration on legislative packets for state and federal legislative visits and Oklahoma Disability Awareness Day at State Capitol.
- Transition Committee: Participation on Oklahoma Transition Institute; Update the Transition Planning Folder and tools for disability support organizations; Collaborate on Statewide Assessment on needs assessments of individuals with disabilities for transition career services and pre- employment transition services, including services under IDEA.

I&E Expenditures Supporting Statewide Independent Living Council Resource Plan- \$28,046.04

[\(e\) Supported Employment Services, Distribution of Title VI Funds, and Arrangements and Cooperative Agreements for the Provision of Supported Employment Services.](#)

(1) Acceptance of title VI funds:

- (A) VR agency requests to receive title VI funds.

(B) [check box] VR agency does NOT elect to receive title VI funds and understands that supported employment services must still be provided under title I.

(2) If the VR agency has elected to receive title VI funds, Section 606(b)(3) of the Rehabilitation Act requires VR agencies to include specific goals and priorities with respect to the distribution of title VI funds received under section 603 of the Rehabilitation Act for the provision of supported employment services. Describe the use of title VI funds and how they will be used in meeting the goals and priorities of the Supported Employment program.

DSA instituted practices to develop a stronger, collaborative relationship with Oklahoma Developmental Disability Services (OKDDS). As a result of this collaboration, both agencies have increased the number of dual supported employment providers; conduct quarterly dual provider meetings; and developed a process to identify which service agency best meets the job seekers' needs for competitive integrated employment (CIE).

DSA has developed new training opportunities for supported employment providers including advanced trainings, virtual lunch & learn trainings, Deafness and Employment training, and Customized Employment (CE) training in partnership with VR-TAC QE and Virginia Commonwealth University.

(3) Supported employment services may be provided with title I or title VI funds following placement of individuals with the most significant disabilities in employment. In accordance with section 101(a)(22) and section 606(b)(3) of the Rehabilitation Act, describe the quality, scope, and extent of supported employment services to be provided to individuals with the most significant disabilities, including youth with the most significant disabilities; and the timing of transition to extended services.

DSA remains committed to the provision of quality services to individuals with the most significant disabilities.

Quality of services is based on Supported Employment outcome-based contracts.

Services and/or milestones are pre-authorized and monitored by the counselor working with the client. For payment, the CRP must submit documentation that each outcome has been achieved. Required documentation includes employee and employer satisfaction information. The employee satisfaction documentation is designed to reflect satisfaction with the job and any concerns. The employer satisfaction documentation is designed to reflect an evaluation of the employee's job performance, stability, and training needs.

There are contract performance measures defined in the contract. There is a "Minimum Contracts Goals" section which defines goals for average work hours and average wages at closure and is updated annually. There is also a "Contractor Qualifications" section which defines requirements for staff qualifications such as base salary paid and completion of required training.

DSA is committed to providing excellent training for CRPs to ensure quality services for clients. DSA has contracted with the University of Oklahoma National Center for Disability Education and Training (OU-NCDET) since 1987 to provide training for CRP staff. OU-NCDET is finalizing the ACRE curriculum review process. CRP staff who complete the new ACRE curriculum will receive an ACRE certificate of achievement in Employment Services. Potential new CRPs must designate a Project Director to complete the Employment Consultant (EC) training before contracting with the DSA. All Employment Consultants (EC) must complete the Employment Consultant training within 6 months of hire. Each EC must also successfully complete the following additional training courses within 12 months of hire: Social Security Work Incentives; Job Development/Marketing; Job Club (required for ECs conducting Job Clubs); Online Introduction to Positive Behavior Supports in the Workplace (prerequisite for Positive Behavior Supports in the Workplace); Positive Behavior in the Workplace; Customized Employment (required to provide CE

services); Instructional Supports; Blind Culture and Job Placement for Individuals with Vision Loss; and Deafness and Employment. In addition to the required training listed above, six hours of continuing education is required each year. The DSA staff also provides periodic training and additional advanced trainings annually to CRPs to keep them up to date on current best practices.

DSA monitors contract compliance and reports to CRPs on minimum contract goals and whether those goals have been met or will require a plan for improvement. Every CRP has a TA who helps resolve service delivery problems and monitors for contract compliance on an annual basis.

The DSA contract allows CRPs to serve clients with the most significant disabilities without restriction on disability type. The majority of clients served in Supported Employment are persons with intellectual disabilities and/or serious mental illness. Clients with other types of disabilities are being served as well. DSA continues to seek methods to increase participation of clients with all types of disabilities in supported employment programs. ESS provides training on Supported Employment to DSA staff in an ongoing effort to reach underserved and unserved populations.

The Supported Employment contract offers two levels of support; regular rate, and highly challenged rate for those with greater support needs. If the DSA counselor determines the individual will require additional support to be successful, milestones can be authorized at the highly challenged rate.

The DSA issues annual Supported Employment contracts serving clients with the most significant disabilities. The figures hinge on the support of the state to match federal dollars necessary to provide Supported Employment to clients with the most significant disabilities

(4) Sections 101(a)(22) and 606(b)(4) of the Rehabilitation Act require the VR agency to describe efforts to identify and arrange, including entering into cooperative agreements, with other State agencies and other appropriate entities in order to provide supported employment services. The description must include extended services, as applicable, to individuals with the most significant disabilities, including the provision of extended services to youth with the most significant disabilities in accordance with 34 CFR 363.4(a) and 34 CFR 361.5(c)(19)(v).

DSA enters into contractual agreements with CRPs for the provision of Supported Employment services. DSA continues collaboration with Developmental Disability Services (DDS) to increase dual CRPs statewide to streamline services between the DSA and DDS.

DSA staff continues outreach activities to recruit new CRPs to meet the needs of individuals with all disabilities served by DSA.

Under Section 511, the determination of individuals who may benefit from employment services, the DSA currently has a Supplemental Employment Services contract with a service for CRPs to provide short-term trial work experiences to establish the ability to benefit from employment services. The DSA plans to develop a contract dedicated to person-centered Trial Work Experiences for CRPs to help determine the ability of individuals to benefit from employment services. The Trial Work Experiences contract will replace the short-term trial work experiences service in the Supplemental Employment Services contract.

DSA maintains an MOA with the DDS to improve employment outcomes for individuals with intellectual disabilities. The MOA outlines the coordination of services and identifies the DSA as first dollar funding source for competitive integrated employment. DDS continues to provide extended services for individuals with intellectual disabilities in Supported Employment services by utilizing the DDS Home and Community Based Waiver (HCBW) and DDS state

dollars. The HCBW is utilized to provide the long-term ongoing supports. DSA has maintained an MOA with DDS since 1989. Under the MOA, the HCBW is also utilized to provide pre-vocational services. In Supported Employment, after stabilization is achieved, and up to 24 months of onsite supports and training are provided, the team identifies the individuals need and develops a plan for the transition to extended services. Extended services are additional support services provided to the individuals with the most significant disabilities. Up to forty-eight (48) months of extended services are available through the DSA for youth through age 24 as needed.

The DSA is contracted with qualified CRPs, known as the Contractor.

The VRTAC-QE in partnership with Virginia Commonwealth University assisted the DSA with revising the CE policy and contract, as well as developing updated CRP and DSA training to provide CE services. DSA intends to implement the new Customized Employment (CE) contract for the FY2025 contract year. VRTAC-QE is providing resources and partial funding for training in Customized Employment for DSA staff and CRP staff.

DDS provides funding for extended services after individuals transition from DSA employment services.

Employers also provide Natural Supports as a resource for extended services for individuals placed through supported employment.

(f) Annual Estimates. Sections 101(a)(15) and 101(a)(23) of the Rehabilitation Act require all VR agencies to annually conduct a full assessment of their resources and ability to serve all eligible individuals before the start of the Federal fiscal year. In accordance with 34 CFR § 361.29(b), annual estimates must include the following projections:

(1) Estimates for next Federal fiscal year—

(A) VR Program; and

Priority Category (if applicable)	No. of Individuals Eligible for Services	No. of Eligible Individuals Expected to Receive Services under VR Program	Costs of Services using Title I Funds	No. of Eligible Individuals Not Receiving Services (if applicable)
1	2,133	1,680	\$9,459,001	452
2	2,020	1,487	\$8,872,022	533
3	175	139	\$1,361,765	37

(B) Supported Employment Program.

Priority Category (if applicable)	No. of Individuals Eligible for Services	No. of Eligible Individuals Expected to Receive Services under	Costs of Services using Title I and Title VI Funds	No. of Eligible Individuals Not Receiving Services (if applicable)

		Supported Employment Program		
1	2,133	553	\$2,882,943	

(g) Order of Selection.

[check box] The VR agency is **not** implementing an order of selection and all eligible individuals will be served.

[x] The VR agency is implementing an order of selection with one or more categories closed.

* VR agencies may maintain an order of selection policy and priority of eligible individuals without implementing or continuing to implement an order of selection.

Pursuant to section 101(a)(5) of the Rehabilitation Act, this description must be amended when the VR agency determines, based on the annual estimates described in description (f), that VR services cannot be provided to all eligible individuals with disabilities in the State who apply for and are determined eligible for services.

(1) For VR agencies that have defined priority categories describe—

(A) The justification for the order;

DRS maintained waiting lists and transferred applicants to active caseloads on a monthly basis when budget, staffing and vendor resources became available. The DSA Performance Review Team meets monthly to specifically review consumer services activity. The three pillars of resources we review to open or close a group are budget, staffing and vendor resources. Budget appropriations remain flat, but sufficient funding is available for the current year. Staffing levels continue to be a concern, but it is anticipated that any influx of consumers can be absorbed into existing caseloads. Vendor resources have to do with the capacity of the service vendors we utilize for training and other services. We reached the point that all three resources are at sufficient levels to open priority group one on February 15, 2023. Opening group one has removed existing delays for the group and we will continue to release monthly from priority group two as resources allow.

The VR and SBVI divisions’ assisted 13,363 consumers with their rehabilitation plan during FY-2023 and 2,119 consumers attained employment. This included releasing 2,055 cases off of the Waiting List.

(B) The order (priority categories) to be followed in selecting eligible individuals to be provided VR services ensuring that individuals with the most significant disabilities are selected for services before all other individuals with disabilities; and

The DSA operates under an Order of Selection. Policy reflects the need for order of selection, priority group definitions, implementation, closing and opening of priority groups, continuity of services, and information and referral services.

Need for order of selection. The Department, in consultation with the Oklahoma Rehabilitation Council, has determined, due to budgetary constraints or other reasoned limitations, that it cannot serve all individuals who are

determined eligible for DVR and DSBVI services. The Department consults with the Oklahoma Rehabilitation Council (ORC) regarding the:

- (1) need to establish an order of selection, including any re-evaluation of the need;
- (2) priority categories of the particular order of selection;
- (3) criteria for determining individuals with the most significant disabilities; and
- (4) administration of the order of selection.

(e) **Establishing an order of selection.** Basis for order of selection. An order of selection must be based on a refinement of the three criteria in the definition of individual with a significant disability in section 7 (21) (A) of the Act and 34 CFR 361.5 (c) (30).

(1) Factors that cannot be used in determining order of selection of eligible individuals. An order of selection may not be based on any other factors, including requirements identified in 34 CFR 361.36 (d) (2) (i-vii).

It is the administrative rules of DRS to provide vocational rehabilitation services to eligible individuals under an order of selection. Under the order of selection, the Department has established three priority groups based on serving first those with the most significant disabilities. Every individual determined to be eligible for DVR and DSBVI services is placed in the appropriate priority group based upon the documentation used to determine eligibility and/or vocational rehabilitation needs. Selection and placement in a priority group is based solely upon the significance of the eligible individual's disability, and is not based upon the type of disability, geographical area in which the individual lives, projected type of vocational outcome, age, sex, race, color, creed, religion, or national origin of the individual. The priority groups are:

(A) **Priority Group 1.** Eligible individuals with a most significant disability are individuals with the most significant barriers to employment. A most significant barrier is one that includes a severe mental or physical impairment resulting in serious limitations in three or more functional capacities and which can be expected to require multiple vocational rehabilitation services over an extended period of time.

(B) **Priority Group 2.** Eligible individuals with a significant disability are individuals with significant barriers to employment. A significant barrier is one that includes a severe physical or mental impairment resulting in serious limitations in at least one, but not more than two, functional capacities and which can be expected to require multiple vocational rehabilitation services over an extended period of time.

(C) **Priority Group 3.** Eligible individuals with disabilities not meeting the definition of individual with a significant or most significant barrier to employment.

- (C) [The VR agency's goals for serving individuals in each priority category, including how the agency will assist eligible individuals assigned to closed priority categories with information and referral, the method in which the VR agency will manage waiting lists, and the projected timelines for opening priority categories. NOTE: Priority categories are considered open when all individuals in the priority category may be served.](#)

Implementation. Prior to the start of each fiscal quarter, or when circumstances require, the DSA Director will determine in which priority groups new Individualized Plans for Employment will be written and initiated. The Director may restrict the writing and initiation of new Individualized Plans for Employment within a priority group to cases having eligibility dates falling on or before a specified date providing that all consumers in higher priority

groups are being served. Considerations in making this determination will include, but not be limited to, the projected outcomes, service goals, expenditures, and resources available for each priority group. Projected costs and resources for each priority group will be based upon costs of current Individualized Plans for Employment, anticipated referrals, availability of financial resources, and adequacy of staffing levels. The Director will implement actions under the order of selection through written notice to DVR and SBVI staff. The written notice will specify the implementation date of the action and direct DVR and SBVI staff on how to handle cases by priority group and application date. DVR and SBVI staff will inform each eligible individual on their caseloads of the priority groups in the order of selection; of the individual's assignment to a priority group; and of the individual's right to appeal that assignment.

Closing and opening priority groups.

When all or part of a priority group is closed, designated cases within that priority group without a written IPE will be placed on a waiting list after the individual has been determined to be eligible. No IPE will be written for cases on the waiting list. Staff will continue to take applications, diagnose and evaluate all applicants to determine eligibility and vocational rehabilitation needs, find the individual eligible when documentation supports such a decision, then place each eligible individual's case in the appropriate priority group. If an eligible individual is placed in a closed priority group, his or her case will go on the waiting list and no IPE will be written or initiated. The DSA Director will notify DVR and SBVI staff in writing when all or part of a closed priority group is opened. When this directive includes new applicants who are found eligible, individuals already on the waiting list within that same priority group will be given priority over new applicants. When all or part of closed priority groups are opened, staff will contact individuals on the waiting list to develop and implement their Individualized Plans for Employment using the following priorities:

1. contact individuals within the highest open priority group first, Most Significant being the highest of all priority groups;
2. within each opened priority group, staff will contact individuals on the waiting list in order of application date, earliest application date first;
- then 3. staff will contact individuals whose cases will remain on the waiting list to explain how their cases will be handled.

Continuity of services. Any individual with an IPE that existed prior to the date all or part of that individual's priority group was closed will continue to receive services as planned. Such an IPE may be amended if the changes are necessary for the individual to continue progress toward achieving an appropriate employment outcome or are otherwise necessary within policy. Persons requiring postemployment services will also be provided the necessary services regardless of priority group assignment.

Information and referral services. Information and referral services will remain available to eligible individuals who are not in an open priority group. These individuals will be given information and guidance, using appropriate modes of communication, to assist such individuals in preparing for, securing, retaining or regaining employment, and will be appropriately referred to Federal and State programs (other than the vocational rehabilitation program) including other components of the statewide workforce investment system in the state. No IPE will be written to provide such services to these individuals.

(2) [Has the VR agency elected to serve eligible individuals outside of the order of selection who require specific services or equipment to maintain employment?](#)

Yes

[X] No

(h) Waiver of Statewideness. The State plan shall be in effect in all political subdivisions of the State, however, the Commissioner of the Rehabilitation Services Administration (Commissioner) may waive compliance with this requirement in accordance with section 101(a)(4) of the Rehabilitation Act and the implementing regulations in 34 CFR 361.26. If the VR agency is requesting a waiver of statewideness or has a previously approved waiver of statewideness, describe the types of services and the local entities providing such services under the waiver of statewideness and how the agency has complied with the requirements in 34 CFR 361.26. If the VR agency is not requesting or does not have an approved waiver of statewideness, please indicate “not applicable.”

Not Applicable

(i) Comprehensive System of Personnel Development. In accordance with the requirements in section 101(a)(7) of the Rehabilitation Act, the VR agency must develop and maintain annually a description (consistent with the purposes of the Rehabilitation Act) of the VR agency’s comprehensive system of personnel development, which shall include a description of the procedures and activities the VR agency will undertake to ensure it has an adequate supply of qualified State rehabilitation professionals and paraprofessionals that provides the following:

(1) Analysis of current personnel and projected personnel needs including —

- (A) The number and type of personnel that are employed by the VR agency in the provision of vocational rehabilitation services, including ratios of qualified vocational rehabilitation counselors to clients;
- (B) The number of personnel currently needed by the VR agency to provide VR services, broken down by personnel category; and
- (C) Projections of the number of personnel, broken down by personnel category, who will be needed by the VR agency to provide VR services in 5 years based on projections of the number of individuals to be served, including individuals with significant disabilities, the number of personnel expected to retire or leave the field, and other relevant factors.

Personnel Category	No. of Personnel Employed	No. of Personnel Currently Needed	Projected No. of Personnel Needed in 5 Years
Division Administrators	2	0	0
Field Coordinators	4	0	0
Programs Manager	19	7	8
VR Specialist-Counselor	82	28	43
VR Specialist-Vocational Evaluator	5	1	5

Assistive Technology Specialist	7	1	3
Rehabilitation of the Blind Specialist	10	0	4
Specialist on Deaf/Blindness	1	0	1
Orientation & Mobility Specialist	5	0	1

- (D) **Ratio of qualified VR counselors to clients:** The DSA maintains a counselor to job seeker ratio of 1 counselor per an average of 88 job seekers. DVR average is 97 and SBVI average is 48.
- (E) **Projected number of individuals to be served in 5 years:** The DSA projects that 16,530 individuals with disabilities will be served in the next 5 years.

(2) Data and information on personnel preparation and development, recruitment and retention, and staff development, including the following:

- (A) A list of the institutions of higher education in the State that are preparing VR professionals, by type of program; the number of students enrolled at each of those institutions, broken down by type of program; and the number of students who graduated during the prior year from each of those institutions with certification or licensure, or with the credentials for certification or licensure, broken down by the personnel category for which they have received, or have the credentials to receive, certification or licensure.

There is one institution of higher education in Oklahoma that prepares Vocational Rehabilitation professionals by awarding Master's of Science Degrees with Vocational Rehabilitation Counselor emphasis. This program at Langston University is recognized by RSA as a historically black college/university (HBCU) and is Council on Rehabilitation Education (CORE) accredited. Graduating from a CORE accredited program automatically qualifies its graduates to test for the Certified Rehabilitation Counselor (CRC) certification so all the graduates have the credentials necessary for taking the CRC exam, thereby meeting the DSA's CSPD standard of a qualified rehabilitation professional.

Institute of Higher Education	Type of Program	No. of Students Enrolled	No. of Prior Year Graduates
East Central University	Clinical Rehabilitation and Clinical Mental Health Counseling Program	44	12

Langston University	Rehabilitation and Disability Studies Program	89	21

(B) The VR agency’s plan for recruitment, preparation and retention of qualified personnel, which addresses the current and projected needs for qualified personnel; and the coordination and facilitation of efforts between the VR agency and institutions of higher education and professional associations to recruit, prepare, and retain personnel who are qualified, including personnel from minority backgrounds and personnel who are individuals with disabilities.

A variety of methods are used to address our current and projected needs for qualified rehabilitation personnel. Methods used include annual reviews of existing data, workforce planning using an established model, conducting outreach and networking, and the utilization of a Recruitment and Outreach Coordinator position that focuses on recruitment of individuals with disabilities.

GOAL: Using existing data and an established workforce planning model to identify current status and predict future needs of qualified rehabilitation personnel

ACTIVITY

- Identify current staff capacities and compare to future needs to identify gaps
- Initiate actions to fill the gaps through staff development, capacity building, and recruitment efforts

GOAL: Expand applicant pool for VR Counselor positions

ACTIVITY

- DSA has staff utilizing Agency’s Educational Sponsorship Program.
- To alleviate difficulties experienced with applicants being determined for CSPD eligible when applying for a VR Specialist II or above position, the Job Family Description clarifies that graduates of a Council on Rehabilitation Education (CORE) accredited master’s program are to be deemed eligible without further review.

GOAL: Retention of qualified rehabilitation professionals

ACTIVITY

- Provide for personal and professional growth by providing in-service development opportunities that enhance their knowledge, skills, and abilities
- Continue to offer a skill based pay adjustment for obtaining a professional certification or licensure appropriate with their position

(C) Description of staff development policies, procedures, and activities that ensure all personnel employed by the VR agency receive appropriate and adequate training and continuing education for professionals and paraprofessionals:

- i. Particularly with respect to assessment, vocational counseling, job placement, and rehabilitation technology, including training implemented in coordination with entities carrying out State programs under section 4 of the Assistive Technology Act of 1998; and
- ii. Procedures for the acquisition and dissemination of significant knowledge from research and other sources to VR agency professionals and paraprofessionals and for providing training regarding the amendments to the Rehabilitation Act made by the Workforce Innovation and Opportunity Act. [text box]

(3) Description of VR agency policies and procedures for the establishment and maintenance of personnel standards consistent with section 101(a)(7)(B) to ensure that VR agency professional and paraprofessional personnel are adequately trained and prepared, including—

(A) Standards that are consistent with any national or State-approved or -recognized certification, licensing, registration, or other comparable requirements that apply to the profession or discipline in which such personnel are providing VR services; and

The DSA is committed to ensuring its workforce is highly skilled, professionally trained, and prepared to serve Oklahomans with disabilities with the highest quality service delivery.

The DSA requires and follows the Comprehensive System of Personnel Development (CSPD) standard for all existing staff and qualified applicants for VR Counselor positions and adheres to the highest personnel standard that will ensure professional staff are adequately trained and prepared for employment. DSA employees with Education and/or certification standards applying for employment must meet Oklahoma's personnel standards prior to appointment, including proof of possession of degree, certification, licensing and registration requirements applicable for each position.

All applicants for the positions of Vocational Rehabilitation Specialist, Field Services Coordinator and Programs Manager are reviewed by the DSA expert on CSPD utilizing the CRC guidelines, the LPC Academic guidelines and Worksheet, and the CVRT guidelines to evaluate eligibility and sit for certification. Standards reviewed by the CSPD expert are identified in the state approved job specifications include certification, licensing and registration requirements for the following:

In FY 22, the DSA expanded the degree fields accepted for entry level, hard to fill professional positions (Vocational Rehabilitation Specialist, Rehabilitation of the Blind Specialist, Assistive Technology Specialist, Vocational Evaluator).

Vocational Rehabilitation Specialist

1. Education and Experience requirements: Level 1: Requirements at this level consist of a bachelor's degree in vocational rehabilitation, vocational evaluation, psychology, or counseling; OR a bachelor's degree and one year of experience in a disability related field. Level II-IV- consist of a master's degree in rehabilitation counseling or human resources with a rehabilitation counselor major that has been awarded by a program accredited by the Council on Rehabilitation Education (CORE); OR any master's degree and is eligible to sit for the certification/licensure exam specific to the professional job duties such as the Certified

Rehabilitation Counselor (CRC), the Licensed Professional Counselor (LPC), Certified Vocational Evaluator (CVE), or the Professional Vocational Evaluator (PVE) certification.

Programs Manager

2. Education and Experience Requirements: Level I - required at this level consists of a master's degree and one year of professional supervisory, managerial, consultative or administrative experience in public health administration, social work, child support, adult protective services, child welfare, guidance and counseling, nursing, developmental disabilities, probation and parole, employment services, public administration, community-based prevention and diversionary youth services programs, juvenile justice, rehabilitation or disability services or counseling, or vocational evaluation or vocational rehabilitation, or an equivalent combination of education and experience, substituting one year of professional level experience in the above listed areas for each year of the required education. Preferred Qualifications: Prefer applicant who currently holds a Certified Rehabilitation Counselor (CRC) and/or Licensed Professional Counselor (LPC). Selective Qualifications: Application must include transcript which shows Master's Degree has been awarded and any current Certified Rehabilitation Counselor (CRC), Licensed Professional Counselor (LPC) or documentation of eligibility to sit for above certifications.

Field Services Coordinator

3. Education and Experience Requirements: Master's degree in Rehabilitation Administration, Rehabilitation Counseling, Vocational Evaluation, Vocational Rehabilitation, Public Administration or a disability related field and three (3) years supervisory experience. The successful candidate will need to possess a strong working knowledge of vocational rehabilitation services, principles and practices, and a strong background in working with individuals with disabilities. Preference may be given to candidates who are certified Rehabilitation Counselors (CRC), Licensed Professional Counselors (LPC), Certified Vocational Evaluators (CVE) or Certified Public Managers (CPM) and have 3 years of supervisory experience.

(B) The establishment and maintenance of education and experience requirements, in accordance with section 101(a)(7)(B)(ii) of the Rehabilitation Act, to ensure that the personnel have a 21st century understanding of the evolving labor force and the needs of individuals with disabilities.

All staff members have access to internal and external training designed to develop the knowledge and skills necessary to achieve success in their positions, and enhance service delivery for customers. Trainings are delivered through classroom, webinar, and teleconference.

New VR and SBVI staff are provided access to the DRS Academy SharePoint site. This site houses the onboarding training process, which currently is comprised of four sections.

AWARE Training

Staff are provided access to a training environment to learn basic navigation and skills to use the AWARE case management system. This training has four AWARE Training manuals, each created to provide position specific instruction:

Core (C): This is for AWARE users who are not Counselors, Rehabilitation Technicians, or Instructional Staff for Older Blind cases. This version provides a basic overview that applies to all AWARE users.

Rehabilitation Technician (RT): This version includes instruction and guidance typically related to Rehabilitation Technician duties.

Vocational Rehabilitation Counselor (VRC): This version contains instruction and guidance on Counselor related activities.

Older Blind (OB): This version contains instruction and guidance for Instructional Staff working Older Blind cases.

VR 101 Training Modules

This course is targeted towards Counselors, yet the information throughout is beneficial to all staff within the Vocational Rehabilitation and Services for the Blind and Visually Impaired Divisions. This course was developed through a partnership between DRS, The Center for Innovative Training in Vocational Rehabilitation (CIT-VR) at George Washington University, and the San Diego State University Interwork Institute. This training grant ends in 2024 so Professional Development staff are currently working to update and migrate the content into the Workday system.

Academy Videos Course

The videos within this course are designed to provide new staff with an overview of the agency & services, introduce agency partners, and provide reference guides for various protocols and processes. Content areas include:

Agency Overview

General Onboarding

Disability Orientation

SBVI Programs and Services

Partners

In-Person Academy Session

This three-day, in-person session is held in Oklahoma City and focuses on case processes, application to closure, and provides an opportunity to ask questions, network with colleagues, and put learning into practice.

This Academy is open to VR and SBVI counselors, rehabilitation technicians, instructional staff, and managers, with allowances for additional positions to attend on a case-by-case basis.

This session focuses on hands-on activities and scenarios to drive learning through engagement.

Training ends with a Q&A session with the Field Service Coordinators to cover any unanswered areas from the session.

Blindness Immersion Training is for SBVI employees to experience simulated daily living as a blind individual and *Includes SBVI field staff (Counselors, Rehabilitation Techs, PMs and Instructional staff). The training consists of stations set up for participants to be introduced to specific assistive technology devices and to practice skills under blindfold such as writing, counting money, kitchen activities such as cutting, chopping, pouring, sweeping and also Orientation and Mobility exercises such as using a cane and human guide exercises. The activities included eating lunch while blindfolded as well.

As a strategy to increase recruitment and retention of a diverse professional counselor staff from traditionally underrepresented and underserved populations, The DSA has hired a recruitment and outreach coordinator who is responsible for recruitment from all entities nationwide including colleges, organizations, and other entities that work with Counselors, professional level jobs, and jobs for specialized fields such as Assistive Technology, Counselors in rural areas and vocational evaluators, services for people who are Deaf or Hard of Hearing, people who are Deaf/Blind and those who work in the vending and/or merchandising machines/warehouse field.

The recruitment and outreach coordinator interacts with HR to make sure announcements are posted in a variety of national venues; utilizes a variety of methods to source diverse applicant pools (e.g. social media, professional networks, advertisements, job fairs); conducts screening interviews to assess the qualifications of applicants; recruiting and sourcing of appropriate applicant pools and assures onboarding is processed both efficiently and timely. Other duties also include completing job classification audits and job evaluations; analyzes staffing patterns; salary analyses; compiling, analyzing, and making written recommendations.

The Recruitment and Outreach coordinator participates in career days and does class presentations designed to extenuate the positive value of DSA employment to students enrolled in CORE-accredited masters of rehabilitation counseling programs. During such presentations, the Recruitment and Outreach Coordinator discusses the State of Oklahoma's low 221 cost of living, the potential benefits contained in the State's employee compensation package and the State of Oklahoma's Internship Program (a paid internship training program). The aforementioned activities are accomplished on a national basis, with a particular emphasis, at colleges and universities which serve predominantly student populations from traditionally underserved and underrepresented populations.

Moreover, these activities occur at colleges and universities, which include but are not limited to: Historically Black Colleges and Universities (HBCUs), such as, Langston University, Southern University (Baton Rouge, Louisiana), and South Carolina State University; Historically Spanish-Serving Colleges (HSCs), such as, University of Texas Rio Grande Valley (formerly, Pan American), University of Texas El Paso, California State University San Bernardino and the University of New Mexico-Highlands; and, Historically Native American Colleges, such as the Cheyenne and Arapaho Tribal College (Weatherford), the College of the Muscogee Nation (Okmulgee, Oklahoma), the Comanche Nation College (Lawton, Oklahoma), the Pawnee Nation College (Pawnee, Oklahoma), Bacone (Muskogee, Oklahoma) and the University of Arizona (Tucson). Moreover, the assigned Project Coordinator and other DSA staff will engage in outreach activities with colleges and universities which have special emphasis on programs serving individuals who are blind or visually impaired, such as, Louisiana Tech University-Ruston, University of Arkansas-Little Rock, University of Illinois at Urbana-Champaign, and Mississippi State University's National Research and Training Center on Blindness & Low Vision. Also, the Recruitment and Outreach coordinator will engage in outreach activities with colleges and universities that have rehabilitation counseling programs geared to serve individuals who are deaf or hard of hearing, such as, Western Oregon University and Winston-Salem University. Finally, the Recruitment and Outreach coordinator counsels with potential interns and institutional instructional staff about the requirements for obtaining paid internship and performs liaison activities with the universities such as coordinating letters of support from the DSA for their grant writing efforts.

(4) Method(s) the VR agency uses to ensure that personnel are able to communicate in appropriate modes of communication with or in the native language of applicants or eligible individuals who have limited English speaking ability.

Services to the Deaf and Hard of Hearing Unit (DVR)

Services for the Deaf and Hard of Hearing is a statewide program that holds thirteen positions to address needs for persons with hearing loss. The Programs Manager supervises five counselor positions plus three rehabilitation technicians in offices located in both Oklahoma City and Tulsa. The counselors in these positions serve Oklahomans with hearing loss statewide. In addition, two other programs within the unit include the Interpreter Certification and Resource Center (ICRC) and the Interpreter Services Program. The ICRC is the certifying body for interpreters in Oklahoma, as well as monitoring and maintaining a registry of Interpreters. This program also supports and promotes the interpreter profession by providing resources, training, and interpreter mentorship. The Interpreter Service Program maintains interpreter contracts and schedules American Sign Language interpreters and Communication Access Real-time Translation (CART), a real time captioning service, as needed for agency staff and for consumers.

Hispanic Community Outreach

The focus of this office is to provide Vocational Rehabilitation and Transition services for youth to all Spanish speakers with disabilities in the Hispanic community. Staff translate and facilitate job training, education and employment services to Hispanic job seekers. In February 2023, the DSA relocated to south Oklahoma City to be closer to the zip code that has the largest population of Spanish speakers. This new location is also near schools with large populations of Spanish speaking students and parents who are eligible for our employment programs for people with disabilities.

Foreign Language Translation and Interpreter Services

To ensure effective communication with all members of the public, including applicants and eligible individuals with disabilities, the DSA utilizes a statewide contract with Foreign Language Translation and Interpreter Services to provide a variety of language services including, but not limited to bilingual oral interpretation, bilingual written translation, and American Sign Language Interpreting.

[\(5\) As appropriate, describe the procedures and activities to coordinate the designated State unit's comprehensive system of personnel development with personnel development under the Individuals with Disabilities Education Act.](#)

The DSA coordinates its CSPD activities with those provided under the Individuals with Disabilities Education Improvement Act. Through the DSA commitment with the Oklahoma Transition Institute (OTI), trainings for local educational agencies (LEA) and vocational rehabilitation counselors will assist with plans in coordinating CSPD activities. The Transition Coordinator also conducts annual training with all staff providing transition services, as well as quarterly calls about transition, distribution of transition newsletters, and in-person small group training regarding IDEA, IEPs, and other school documentation.

COOPERATION, COLLABORATION, AND COORDINATION (Section 101(a)(11) of the Rehabilitation Act)

[\(j\) Coordination with Education Officials.](#) In accordance with the requirements in section 101(a)(11)(D) of the Rehabilitation Act—

- (1) Describe plans, policies, and procedures for coordination between the designated State agency and education officials responsible for the public education of students with disabilities, that are designed to facilitate the transition of the students with disabilities from the receipt of educational services in school to the receipt of vocational rehabilitation services, including pre-employment transition services.
[text box]
- (2) Describe the current status and scope of the formal interagency agreement between the VR agency and the State educational agency. Consistent with the requirements of the formal interagency agreement pursuant to 34 CFR 361.22(b), provide, at a minimum, the following information about the agreement:
- (A) Consultation and technical assistance, which may be provided using alternative means for meeting participation (such as video conferences and conference calls), to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including pre-employment transition services and other vocational rehabilitation services;

The DSA finalized an SEA agreement on July 1st, 2023. The formal interagency agreement with the State educational agency provides for: consultation and technical assistance, which may be provided using alternative means for meeting participation (such as video conferences and conference calls), to assist educational agencies in planning for the transition of students with disabilities from school to post-school activities, including vocational rehabilitation services; transition planning by personnel of the designated State agency and educational agency personnel for students with disabilities that facilitates the development and implementation of their individualized education programs under section 614(d) of the Individuals with Disabilities Education Act [20 U.S.C. 1414(d)]; the roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services; and procedures for outreach to and identification of students with disabilities who need the transition services.

In response to the federal statutory and regulatory requirements, the SEA and the DSA agree to the following Consultation and Technical Assistance responsibilities:

The DSA will assist the SEA, LEAs, charter, private, virtual, and home school organizations in planning for the transition of students with disabilities from school to post-school activities, including pre-employment transition services. Consultation and technical assistance may be provided through alternative means, such as conference calls, video conferences, and written communication. Additionally, the DSA will offer such technical assistance to other state agencies and organizations and parents of students and youth with disabilities.

The DSA will provide:

1. interpretation of laws pertaining to vocational rehabilitation, employment, and disabilities as it relates to transitioning youth and students with disabilities to life after high school;
2. technical assistance documents to assist schools and the SEA in collaboration and provision of transition services to students and youth with disabilities (e.g., forms to document transition services completed to assist with the requirements set forth in WIOA regarding the movement of a youth or student with a disability to subminimum wage employment);
3. to the SEA on an annual basis or when requested a list of DSA staff territories by school and county;
4. sample goals to be used in the annual transition goal areas of education/training, employment, and independent as developed and revised around the VR services or transition services in general; and
5. input on presentation materials, handbooks, data collection and reporting, and as requested by the SEA.

(B) Transition planning by personnel of the designated State agency and educational agency personnel for students with disabilities that facilitates the development and implementation of their individualized education programs (IEPs) under section 614(d) of the Individuals with Disabilities Education Act;

The DSA will coordinate services with local educational agency staff to help prepare youth and students with disabilities for competitive integrated employment. DSA staff will share results of the vocational evaluation and other assessments, as well as progress reports for various work experiences with school personnel for the purpose of including information in the IEP and transition planning process. The DSA will work with school personnel to not only have input into the IEP process but also to access a copy of the IEP for assistance with coordination with the VR IPE. On behalf of the DSA, the OSDE distributes information regarding policy and procedures of the IEP planning process as needed. The DSA maintains a shared document with OSDE to document DSA counselors and the schools they serve. This is updated quarterly and shared with OSDE along with a Transition newsletter.

The DSA and educational officials will provide the following types of services:

- Consultation and technical assistance services to assist State educational agencies and local educational agencies in planning for the transition of students with disabilities from school to postsecondary life, including employment.
- Transition services to youth with disabilities and students with disabilities, for which a vocational rehabilitation counselor works in concert with educational agencies, providers of job training programs, providers of services under the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.), entities designated by the State to provide services for individuals with developmental disabilities, centers for independent living (as defined in section 796a of this title), housing and transportation authorities, workforce development systems, and businesses and employers.

The DSA will assist the SEA, LEAs, charter, private, virtual, and home school organizations in planning for the transition of students with disabilities from school to post-school activities, including pre-employment transition services. Consultation and technical assistance may be provided through alternative means, such as conference calls, video conferences, and written communication. Additionally, the DSA will offer such technical assistance to other state agencies and organizations and parents of students and youth with disabilities.

DSA will provide interpretation of laws pertaining to vocational rehabilitation, employment, and disabilities as it relates to transitioning youth and students with disabilities to life after high school; technical assistance documents to assist schools and the SEA in collaboration and provision of transition services to students and youth with disabilities (e.g., forms to document transition services completed to assist with the requirements set forth in WIOA regarding the movement of a youth or student with a disability to subminimum wage employment; to the SEA on an annual basis or when requested a list of DSA staff territories by school and county; sample goals to be used in the annual transition goal areas of education/training, employment, and independent as developed and revised around VR or transition services in general and input on presentation materials, handbooks, data collection and reporting as requested by the SEA.

The DSA and OSDE will collaborate on working with VR staff and LEA staff to facilitate completion of a comprehensive and quality Individualized Education Program (IEP) and Individualized Plan for Employment (IPE) that appropriately includes transition planning and coordination of services.

The OSDE will continue to enforce the IDEA requirements regarding inviting those agencies responsible for providing or paying for transition services, including referral to VR at the age of 15 ½ so services can be in place by the age of 16.

The OSDE will:

1. provide to the LEAs a referral form to VR through the state IEP development system;
2. educate LEAs on the best practices for inviting VR and other transition providers to participate in the development of the IEP and participate through multiple means (e.g., in person, by phone, virtually, by providing documents in advance) in IEP and other meetings;
3. continue to monitor the involvement of, invitations to, and referrals to VR through the state monitoring system, Indicator 13 checklist, Indicator 14, and other means as decided. The DSA will continue to enforce the WIOA requirements regarding attending IEP and other meetings (when invited) as well as the process for receiving and responding to referrals, including referral to VR at the age of 15 ½ so services can be in place by the age of 16.

The DSA will:

- Provide to the OSDE the content to be included in the referral to VR form
- Train its staff on the requirements of receiving the referral form along with the release of confidential information from LEAs and other referral sources
- Train its staff to develop internal procedures with each school for how referrals will be submitted to the local VR counselor
- Train its staff on best practices for engaging with schools and teams, planning and attending IEP and other meetings, to participate in the development of the IEP and participate through multiple means (e.g., in person, by phone, virtually, by providing documents in advance)
- Train its staff on providing regular updates to the referring source on the status of that referral, if the student/family applied for services, if a plan for employment is in place, what services may be implemented at school, etc.
- Encourage its staff and schools to take advantage of the online VR application to streamline the application process, possibly in lieu of even a referral
- Continue to educate and encourage its staff to actively contribute to the development of annual goals and coordinated services to be included in the IEP to help the student reach his or her postsecondary goals
- Train its staff to assist schools in developing annual IEP goals around the VR services provided to support the achievement of the IEP and IPE goals; and work with the OSDE and LEAs to improve documentation of the collaborative transition service delivery occurring for a student by encouraging wording in the IEP.

The OSDE will continue to educate LEAs on the required provision of secondary transition services as described in the IDEA, such as: a) Community Experiences, b) Development of education/training, employment, and other adult living goals and/or objectives; c) Annual transition assessments; and d) Coordination of services with other agencies who may provide and/or pay for transition services.

The OSDE will ensure LEAs recognize and take into consideration the responsibilities of the LEA to provide such services in preparation for working with VR on services requiring rehabilitation. This includes ensuring schools meet their requirements of providing special education and related services to support the students in reaching their educational goals, including their postsecondary goals. The OSDE will ensure LEAs understand Section 101(c) of WIOA that states "Nothing in the Act is to be construed as reducing the responsibility of the local educational

agencies or any other agencies under IDEA to provide or pay for any transition services that are also considered to be special education or related services necessary for providing a free appropriate public education to students with disabilities.

The DSA and OSDE will collaborate on ensuring education officials, school personnel, and VR personnel are cross-trained, have opportunities for networking and collaboration, and receive consistent messages and guidance from the DSA and OSDE.

The DSA will continue to coordinate with non-educational agencies to reach out-of-school youth to support them in their employment efforts. This includes collaboration with subminimum wage employers, workforce development boards, Oklahoma Department of Mental Health and Substance Abuse Services, mental health providers, community rehabilitation providers, Oklahoma Department of Human Services, Developmental Disabilities Services, Office of Juvenile Affairs, Oklahoma Parents Center, Oklahoma Family Network, Oklahoma Autism Network, Down Syndrome Association of Central Oklahoma, Disability Coalitions, and other stakeholders.

Pre-ETS – The DSA will collaborate with the Oklahoma State Department of Education Special Education Services (OSDE) and The National Center for Disability Education and Training, University Oklahoma Outreach (NCDET, OU), Central Technology Center, Kiamichi Technology Center, as well as local education agencies in Oklahoma to make Pre-Employment Transition Services (Pre-ETS) available to high school students with disabilities.

DSA will ensure the pre-ETS collaboration model will assist in developing clear communication between DRS and the local/state education agencies; identify and address community needs related to student skill development; partner with Vocational Rehabilitation (VR) counselors and other community members in the provision of career development and work experiences; and strengthen the lives of students and their families.

DSA will ensure collaboration of these agencies, to enhance the identification of student career interests and needs; awareness of the variety of options and the role of post-secondary education and training; broaden perspective of personal skills to utilize, reinforce and develop for work as well as self-awareness; and increased communication with family about student's progress and needs.

The DSA and the partners named above will:

1. Emphasize the provision of services to students and youth with disabilities to ensure they have opportunities to receive the training and other services necessary to achieve competitive integrated employment.
2. Expand the population of students with disabilities who may receive services and the kinds of services that the VR agency may provide to WIOA potentially eligible youth and students with disabilities.
3. Knowledge opportunities to practice and improve workplace skills, such as through internships and other work-based learning opportunities.

The DSA and OSDE will collaborate on performing outreach statewide to identify students with disabilities in need of transition services under IDEA and pre-employment transition services under WIOA, those residing in rural areas, and those low-incidence populations, such as blindness and hearing impairments. The DSA and OSDE will collaborate on joint community and professional presentations to educate and inform LEAs, parents, and others about reaching the needs of youth and students on Section 504 Plans and those with documented disabilities not being served through an IEP or Section 504 Plan. The DSA will work with the Oklahoma Rehabilitation Council's Transition Committee, Oklahoma School for the Blind, and Oklahoma School for the Deaf to conduct outreach activities. This may include, but is not limited to, developing, and disseminating public service announcements,

making presentations within these schools and LEAs, hosting events for groups of students with disabilities (e.g., advocacy, summer programs, and STEM).

The OSDE will work with the IDEA B Advisory and LEAs to conduct outreach activities. This may include developing and disseminating public service announcements, making presentations within LEAs, and disseminating written information. For the purposes of Child Find, outreach, and identification of need for transition services and Pre-ETS, the OSDE will provide to the DSA annual special education Child Count data after October 1 (as completed and available) broken down by county, district name, disability, age, and grade. For the purposes of improving outcomes of students and youth with disabilities, the OSDE will provide annually to the Oklahoma Transition Council data and reports related to Indicators 13 and 14 of the State Performance Plan.

The DSA will provide to the OSDE:

- A list of all LEAs, private schools, charter schools, virtual schools, and Career and Technology Education schools with whom they contract with for School Work Study; Work Adjustment Training; Tech-Now; Project SEARCH; and other transition programs.
- A list of all LEAs participating in summer programs, such as BEST, STEP, ACE Academy, VIBE, STEM Camp, and others.

The DSA collaborates with the OSDE to access information from the Accessible Instructional Materials (AIM) Center located at the Oklahoma Library for the Blind and Physically Handicapped (OLBPH). Such information may include, but is not limited to, students with disabilities accessing services and materials through the AIM Center. The OSDE will purchase materials and equipment for the AIM Center to disseminate as requested by LEAs to assist students with visual impairments and blindness. The AIM Center, through the DSA, will provide to the OSDE assurance they will conduct inventory control with procedures in place to track items in stock, items checked out, items returned, items still outstanding, lost or damaged items, etc. The AIM Center, through the DSA, will provide to the OSDE information regarding: a list of LEAs accessing materials and equipment purchased through the OSDE; and the number of students utilizing the provided materials and equipment.

- (C) [The roles and responsibilities, including financial responsibilities, of each agency, including provisions for determining State lead agencies and qualified personnel responsible for transition services and pre-employment transition services;](#)

The DSA and OSDE collaborate to ensure roles, responsibilities, and financial responsibilities between LEAs and DSA are communicated to LEAs and DSA staff to assist in provision of transition services to youth and students with disabilities. LEAs are responsible for providing and paying for all services identified as needed for the youth or student that is part of achieving the goals identified on their IEPs and related to their success in school or beyond. Section 101(c) of WIOA makes clear that. "Nothing in the Act is to be construed as reducing the responsibility of the local educational agencies or any other agencies under IDEA to provide or pay for any transition services that are also considered to be special education or related services necessary for providing a free appropriate public education to students with disabilities."

LEAs are responsible for providing a) Academic instruction; b) Special education and related services (e.g., speech therapy, occupational therapy, physical therapy, special transportation); c) Accommodations; d) Assistive Technology (AT).

The DSA and OSDE will ensure LEAs and VR staff understand how to document the coordination of and provision of services between the VR counselor and LEA. In the event a dispute should arise regarding whose responsibility it is to pay for or provide a similar transition service, the VR staff and LEA staff may, as an initial step, reach out to the DSA and OSDE Transition Specialists to obtain guidance regarding how to make the decision. Any services required for providing Free Appropriate Public Education (FAPE) are the responsibilities of the LEA. To assist teams in making such decisions, the DSA and OSDE recommend the team consider: (1) The purpose of the service; (2) Customary services; and (3) Eligibility.

Because the definition of a "student with a disability," for the VR program includes an individual with a disability for purposes of section 504 of the Rehabilitation Act, it is broader than the definition under IDEA, VR is authorized to provide transition services to this broader population of students with disabilities than LEAs under IDEA. Since the VR program may serve students with disabilities, including those individuals with a disability for purposes of section 504 of the Rehabilitation Act, these students may not have an IEP under IDEA, and, therefore, would not be eligible for or receiving special education and related services under IDEA.

The OSDE continues to educate LEAs on the availability of VR services for students with disabilities on section 504 plans and encourage the referral of such students to the VR counselors. In addition, the Rehabilitation Act also allows the VR agency to provide pre-employment transition services to "potentially" eligible students with disabilities. This may include those students who are not receiving special education and related services under an IEP, students who are not receiving services or accommodations under a section 504 plan, and who have documented disabilities (e.g., scoliosis, mental health, a student may wear a hearing aid, have chronic health issues, such as asthma, leukemia, diabetes, suffer from depression, bipolar, and anxiety).

- (D) [Procedures for outreach to and identification of students with disabilities who need transition services and pre-employment transition services. Outreach to these students should occur as early as possible during the transition planning process and must include, at a minimum, a description of the purpose of the vocational rehabilitation program, eligibility requirements, application procedures, and scope of services that may be provided to eligible individuals;](#)

The DSA interacts with the SEA and LEAs to identify youth and students with disabilities in the public-school systems. The DSA will perform outreach to charter schools, virtual educational programs, homeschool networks, and other partners to identify youth and students with disabilities who need transition services. The DSA utilizes annual Child Count Information from the SEA to help identify low incidence disabilities across the state. This information is provided to the DSA Process Improvement Unit to conduct surveys as needed.

- (E) [Coordination necessary to satisfy documentation requirements set forth in 34 CFR part 397 regarding students and youth with disabilities who are seeking subminimum wage employment; and](#)
- (F) [Assurance that, in accordance with 34 CFR 397.31, neither the SEA nor the local educational agency will enter into a contract or other arrangement with an entity, as defined in 34 CFR 397.5\(d\), for the purpose of operating a program under which youth with a disability is engaged in work compensated at a subminimum wage.](#)
[text box]

[\(k\) Coordination with Employers.](#) In accordance with the requirements in section 101(a)(11)(E) of the Rehabilitation Act, describe how the VR agency will work with employers to identify competitive integrated

employment and career exploration opportunities in order to facilitate the provision of VR services; and transition services for youth and students with disabilities, including pre-employment transition services for students with disabilities.

The DSA has formalized a Business Services Program with increased capacity to connect and sustain partnerships with Oklahoma businesses by delivering a skilled and loyal workforce. These partnerships lead to competitive integrated employment and career exploration opportunities for jobseekers with disabilities.

The DSA Business Services Program defines and customizes services for employers, creates strategic partnerships to support workforce needs, and has established an employment-focus within the rehabilitation process.

Utilization of Statewide Partners

The DSA Business Services Program retains local business services specialists that work in geographical areas across the state. The specialists connect with local businesses to deliver a skilled and loyal workforce and partner with local workforce development boards.

Strategic Alliances & Intel

The DSA's ability to coordinate with local, state and federal entities is imperative for success. Community and economic development partners are the best link to disseminating the DSA's message to employers. Many of whom are federal contractors, especially in manufacturing. These partners potentially hold the key to the resources necessary in order to facilitate the DSA mission of increasing quality employment opportunities for job seekers with disabilities.

Regional Approach

In order to facilitate a regional approach, the DSA utilizes the regional alignment of federal and state partners. DSA staff coordinate with workforce development boards, small business development centers (SBDCs), and local businesses and employers.

Internal Coordination

Dissemination of information and the ability to coordinate and communicate with all DSA field staff responsible for job development activities is critical to the overall success of efforts in achieving goals regarding statewide outreach to businesses and statewide partners.

Programs & Services

The need to broaden DSA employment services to the business community and DSA job seekers is evident by the lack of soft skills and actual work experience required by hiring entities. In order to address the deficiency among job seekers, DSA counselors are active in remedial learning activities to enhance the ability of DSA job seekers to find meaningful employment opportunities. The DSA works with businesses to identify opportunities for youth and students with disabilities to prepare for employment through activities, such as job shadowing, internships (paid and unpaid), paid work experiences, summer programs, guest speakers, mock interviews, and career fairs. The DSA Business Services Coordinator works with the DSA Transition Coordinator to continue efforts to strengthen opportunities for youth with the businesses across the state.

The DSA provides specific training on topics related to the transition of high school students with disabilities to life after high school, emphasizing the Workforce Innovation and Opportunity Act (WIOA) Pre-Employment Transition Services Five Required Areas, education/training, employment, independent living, post-secondary counseling, and self-advocacy. The DSA provides a variety of work experience programs across the state in which youth, starting at age 16, can gain specific work skills and receive training on independent living and self-advocacy. The DSA has

established School Work Study contracts with over 300 schools in Oklahoma, providing students the opportunity to work part time up to 15 hours per week in the school district or in the community. Other DSA programs that provide youth the opportunity to gain work related knowledge and skills are Career Exploration, Work Adjustment Training, BEST, STEP, Project SEARCH, Tech Now, Opportunity Orange – IDD Self-Advocacy Training, Micro credential trainings through Able TECH, CERT Culinary through Career Tech in Tulsa, VIBE, ACE Academy, and STEM Camps.

The Pre-ETS collaboration with the DSA, the Oklahoma State Department of Education Special Education Services (OSDE) and The National Center for Disability Education and Training, University Oklahoma Outreach (NCDET, OU), as well as local education agencies in Oklahoma make Pre-Employment Transition Services (Pre-ETS) available to high school students with disabilities. Currently there are 22 pre-ETS specialists (through OU) serving over 220 schools in the State of Oklahoma to provide youth with opportunities to gain work related knowledge and skills. Through CareerTech, we have a partnership and collaboration with Central Technology Center and Kiamichi Technology Center, and they have a total of 14 other Pre-ETS staff to provide those pre-ETS opportunities. There are also 4 Work Skills Trainers who are providing opportunities for work-based learning for students with disabilities in the OKC Metro area. The Central Oklahoma Workforce Innovation Board (COWIB) has partnered with NCDET, OU, and DRS to provide 2 Work Skills Trainers for the Inclusive Post-Secondary Education (IPSE) programs in the state of Oklahoma. Currently, there are 4. They are SoonerWorks, Opportunity Orange, Riverhawks, and USAO.

(I) Interagency Cooperation with Other Agencies. In accordance with the requirements in section 101(a)(11)(C) and (K), describe interagency cooperation with and utilization of the services and facilities of agencies and programs that are **not** carrying out activities through the statewide workforce development system to develop opportunities for community-based employment in integrated settings, to the greatest extent practicable for the following:

- (1) State programs (designate lead agency(ies) and implementing entity(ies)) carried out under section 4 of the Assistive Technology Act of 1998;

As the federally funded Assistive Technology Act Program for the State of Oklahoma, the mission of Oklahoma ABLE Tech is to get assistive technology 'AT' into the hands of Oklahomans with disabilities through activities that provide increased access and acquisition. The DSA has a long standing history of working closely with Oklahoma ABLE Tech to enhance the provision of assistive technology services across the state.

The DSA and Oklahoma ABLE Tech, Oklahoma's AT Act Program have an agreement to provide programmatic technology accessibility details regarding the DSA Access for All initiative under the Workforce Innovation and Opportunity Act (WIOA). The DSA is leading the Oklahoma Workforce System towards enhanced accessibility and Access for All was adopted by the workforce system statewide. This initiative is in partnership with Oklahoma ABLE Tech within programmatic accessibility, with a goal of creating fully accessible workforce services for Oklahoma job seekers.

- (2) Programs carried out by the Under Secretary for Rural Development of the Department of Agriculture; No interagency agreement reached at this time.

- (3) Non-educational agencies serving out-of-school youth;

Oklahoma Office of Juvenile Affairs

The DSA partners with the Office of Juvenile Affairs (OJA) to co-locate a VR counselor within the Central Oklahoma Juvenile Center to work with youth with disabilities. The DSA also partners to co-locate a VR counselor who is dedicated to working in the OJA facilities and through the Oklahoma Department of Human Services facilities including group homes, short-term and long-term facilities, and treatment centers. Vocational Rehabilitation Counselors connect with youth upon intake, encourage application at appropriate ages, complete vocational evaluations, and provide additional services to youth transitioning out of the facilities. We work closely with the Office of Juvenile Affairs to assist youth with accessing resources that are needed to increase their chances of successful employment and decrease the recidivism rate upon release.

Southern Plains Treatment Center, Oklahoma Children and Youth Coalition, Oklahoma Department of Human Services, Oklahoma Office of Juvenile Affairs

In FY 22, The DSA has partnered with the above entities in order to increase youth opportunities for successful transition into adulthood through support and solutions. The MOU will increase and strengthen services for youth in OJA and/or DHS custody residing in group homes, detention centers and other alternative facilities within the STPS and OKCYC jurisdiction in order to increase youth opportunities for successful transition into adulthood. The DSA will assist to identify potential SPTS and OKCYC youth and provide a staff member who will serve as direct liaison with all parties and work closely with the DSA Transition Coordinator.

(4) State use contracting programs;

The State of Oklahoma recognizes the value of people with significant disabilities by utilizing an established State Use Program that provides jobs for people with significant disabilities in producing products and services that can be purchased from a state contract for state use. The jobs range from products sorting and repackaging to the provision of services such as janitorial, maintenance, security, lawn care, and trash pickup. Each vendor in the State Use program must demonstrate that a minimum of 75% of their work force is comprised of persons with severe disabilities. By state statute, the Director of the Department of Rehabilitation Services, or a representative designated by the Director, serves on the executive committee of the Oklahoma State Use Program. Currently, this committee position is held by the Division Administrator of Services for the Blind and Visually Impaired. The State Use Program maintains a recognized portal system for purchasing. All state agencies are required to purchase off of the portal contract before seeking goods or services elsewhere.

(5) State agency responsible for administering the State Medicaid plan under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.);

The Oklahoma Health Care Authority (OHCA) serves as the Medicaid Agency for provisions of title XIX of the Social Security Act. The OHCA and Department of Human Services (DHS) maintain an MOA for provision of services. The DHS administers waiver programs which include extended services as a part of the waiver. Each Medicaid waiver individual plan includes outcomes which would create a pathway to achieve competitive integrated employment.

Increased education and in-service with contractors has occurred to encourage contracts with both the DSA and DDS to ensure a more streamlined access to competitive integrated employment opportunities.

(6) State agency responsible for providing services for individuals with developmental disabilities;
Human Services (DHS)

DSA maintains a Memorandum of Agreement (MOA) with the DDS to improve employment outcomes for individuals with intellectual disabilities. DDS continues to provide extended services for individuals with intellectual disabilities in Supported Employment services.

In May 2022, there were over 5,100 families awaiting developmental disabilities services. The legislature appropriated \$32.5 million to end the DDS wait list and increase provider rates. As a result the DSA and DHS/DDS expanded our partnership and cross trainings. The DSA Division Administrators met with administrators from DDS to develop a plan of action to cross train staff on each agency process, develop forms that would be helpful in the new process and develop the actual processes to refer clients from the DDS waitlist to DSA counselors. The new process has allowed clients to receive services sooner and/or to have no break in services when being transferred. The process also includes monthly meetings with DDS employees and DSA employees who are involved in the process to discuss, and problem solve all issues as they arise.

Additional initiatives include:

- Working with mutual clients in our systems, by providing information and training to vendors that serve each Agency. The DSA is providing trainings to vendors so they understand the differences in referrals, expectations, payment venues and reporting to each agency. This partnership has added 11 DDS Vendors to the DSA agency vendors.
- Regular meetings with DSA programs managers, DSA programs field representatives and DDS staff. Monthly meetings address and solve problems identified by field staff of both agencies. Training to staff is based on challenges identified. DSA staff also provide individual case consultations at the request of the Community Rehabilitation Programs (CRP), DDS staff and/or DSA staff.
- DSA staff work with DDS and State Employment Learning Network (SELN) to help with how to facilitate Supported Employment between the agencies such as sequencing and braiding of services.
- DSA Programs Field Representatives serve on the Developmental Disabilities Advisory Council. DSA Employment Support Services (ESS) staff and State level Transition Staff participate on the Employment First Alliance, which has a national goal of increased competitive integrated employment by 50% in the states. As a result of the Employment First Alliance, the Oklahoma operates under the Employment First Law.
- DSA ESS staff and State level Transition Staff participate on the State Employment Leadership Network (SELN) - DSA ESS staff represents DSA on the Oklahoma Developmental Disabilities Council.
- DDS Staff serves on the Oklahoma Transition Council (OTC) resulting in statewide conferences, resources, technical assistance, and additional professional development opportunities. The DSA Statewide Transition Coordinator works with DDS staff to ensure staff from each agency, schools, families, and CRPs understand the changes in WIOA regarding sub- minimum wage, are well-trained, and that Pre-Employment Transition Services are provided to students with disabilities accessing Vocational Rehabilitation services through the DSA.

- The DSA ESS staff work with DDS staff to ensure CRPs and staff at each agency is provided ongoing training and consultation required by WIOA for any youth with a significant disability hired at subminimum wage. The partners will also ensure the required reviews take place according to WIOA to ensure every opportunity for achieving full competitive integrated employment.

(7) State agency responsible for providing mental health services

The DSA maintains a Memorandum of Agreement (MOA) with the Oklahoma Department of Mental Health Substance Abuse and Services (ODMHSAS) to improve the employment outcomes of individuals with serious mental illness.

The DSA has a second MOA for the Partnership for Infant's, Children's, Youth's and Young Adult's Mental, Emotional and Behavioral Health. The partnership ensures the creation and efficient operation of a unified and integrated system of care for all of Oklahoma's infants, children, youth, and young adults with or at risk for mental, emotional, and behavioral disorders (MEB's). This includes an array of prevention, education, outreach, service and support for them and their families.

(8) Other Federal, State, and local agencies and programs outside the workforce development system; and

(9) Other private nonprofit organizations.

Community Rehabilitation Service Providers

DSA has contracts with private non-profit, for-profit, and government Community Rehabilitation Service Providers (CRPs) of Supported Employment and other employment programs for individuals with significant barriers to employment. CRPs request the opportunity to provide Supported Employment, employment and retention (i.e. short term job coaching), job placement, JOBS (short term placement), work-adjustment training, employment support and transitional employment services for DSA job seekers. DSA approves contracts based on pre-established criteria, including acceptable levels of payment for outcomes achieved.

DSA will continue with efforts to increase employment CRPs to meet the needs statewide focusing in rural areas. The Employment Support Services Unit (ESS) educates potential CRPs and DSA field staff of available contracts.

Centers for Independent Living

The DSA is committed to working with the Centers for Independent Living (CILs) and the Statewide Independent Living Council (SILC) to improve relationships and assurances between the SILC, CILs and DSA.

DSA Roles include: Serve as fiscal intermediary to receive, account for, and disburse funds received by the State to support Independent Living Services - Continue to educate the CILs and SILC about the components, requirements and limitations of the contract and purchasing systems. - Attendance of Director and/or designee at quarterly SILC meetings. - Attendance of the DSA director and/or designee in major SILC and CIL meetings where services are discussed and planned - DSA (administration, accounting, and legal) will meet annually (or as needed) with the SILC Executive Board to address issues and difficulties – DSA will support the nomination and appointment process for the SILC in the State – DSA will cooperate in creating and signing the State Plan for Independent Living agreeing to serve as the DSA.

Appendix 1: Performance Goals for the Core Programs

Each state submitting a Unified or Combined State Plan is required to identify expected levels of performance for each of the primary indicators of performance for the first two years covered by the plan. The state is required to reach agreement with the Secretary of Labor, in conjunction with the Secretary of Education, on state-negotiated levels of performance for the indicators for each of the first two years of the plan.

Include the state's expected levels of performance relating to the performance accountability indicators based on primary indicators of performance described in section 116(b)(2)(A) of the Workforce Innovation and Opportunity Act (WIOA).
